

Samsung EPT6530

Samsung 65W Trio Adapter (Model EPT6530) Instruction Manual

Model: EPT6530

1. INTRODUCTION

The Samsung 65W Trio Adapter is designed to provide efficient and versatile charging for multiple devices simultaneously. This wall charger features three ports, including two USB-C ports and one USB-A port, offering a total power output of up to 65W. It supports Super-Fast Charging for compatible Samsung Galaxy smartphones and other devices, ensuring quick and reliable power delivery.

Figure 1: Front view of the Samsung 65W Trio Adapter.

2. PACKAGE CONTENTS

Ensure all items are present in the package:

- Samsung 65W Trio Adapter (Wall Charger)

Note: Charging cables are sold separately and are not included with the adapter. Use only Samsung-approved cables for optimal performance and safety.

3. PRODUCT OVERVIEW

The Samsung 65W Trio Adapter is designed with three distinct charging ports to accommodate various devices:

- **USB-C Port 1 (Max 65W):** Ideal for high-power devices such as laptops and tablets, supporting Super-Fast Charging.
- **USB-C Port 2 (Max 25W):** Suitable for smartphones and other devices that support 25W Super-Fast Charging.
- **USB-A Port (Max 15W):** For standard USB-A compatible devices, including older smartphones, earbuds, and wearables.

**Go for the fast charge -
with speed, stability and power**

Fast and reliable. Power up a wide range of devices in a snap with Super-Fast Charging* and up to 65W total power output**.

* Super-Fast Charging (SFC) supported with Galaxy smartphones with 25W charging capacity or above and other SFC capable devices such as iPhone8 or higher. SFC only capable with the C-type ports of the charger.

** Adaptor can charge 3 devices simultaneously for a total of 65W power supply. Charging speeds vary depending on the number of devices. When 3 devices are connected simultaneously the maximum power supply of each output will be: 35W, 25W and 5W.

Figure 2: Close-up view of the adapter's three charging ports, indicating their maximum wattage outputs.

4. SETUP

To set up your Samsung 65W Trio Adapter:

1. Plug the adapter into a standard wall outlet. The adapter features a 2-pin North American power plug.
2. Connect your device's charging cable to the appropriate port on the adapter. For 65W charging, a USB-C 5A cable is required. For 25W charging, a USB-C 3A cable is needed. For 15W charging, a USB-A cable is used.
3. Connect the other end of the charging cable to your device.

Charge three devices - all at the same time!

Experience the power and versatility of a triple-port charger*

*Charging cables sold separately; use only Samsung-approved chargers and cables. 65W charging requires a USB-C 5A cable, 25W charging requires a USB-C cable and 15W charging requires a USB-A cable. To avoid injury or damage to your device, do not use incompatible, worn or damaged batteries, chargers or cables.

Figure 3: The adapter connected to a wall outlet, charging multiple devices simultaneously.

5. OPERATING INSTRUCTIONS

The adapter can charge up to three devices concurrently. Charging speeds will vary depending on the number of devices connected and their individual power requirements.

- When charging a single device, the power outputs are: 65W (USB-C), 25W (USB-C), and 15W (USB-A). If the connected device has a lower charging capacity, the adapter will adjust its power output accordingly.

- When three devices are connected simultaneously, the maximum power supply for each output will be: 35W, 25W, and 5W.

The adapter is universally compatible with a wide range of devices, including earbuds, headphones, laptops, smartphones (Galaxy S22, S22 Ultra, S22+, A32, A53, Fold3, Galaxy Flip3, iPhone 8 or higher), and tablets.

Universal compatibility

Maximize your charging time. Power up a wide range of devices from earbuds to laptops.*

*The power outputs of each port are as follows: 65W, 25W and 15W when charging a single device with that charging capacity or higher. If the device has a lower charging capacity then the power output will adjust down. 45W to 65W charging requires a USB-C 5A cable, 25W charging requires a USB-C 3A cable and 15W charging requires a USB-A cable (sold separately).

6. SAFETY INFORMATION

To ensure safe operation and prevent damage to your devices or the adapter, please observe the following:

- Do not use incompatible, worn, or damaged batteries, chargers, or cables.
- The adapter is engineered with multiple safety features, including overcurrent protection, short circuit protection, temperature protection, low noise operation, robust noise immunity, and low leakage current.
- Avoid exposing the adapter to extreme temperatures, direct sunlight, or moisture.
- Do not disassemble or attempt to repair the adapter yourself.

7. MAINTENANCE

To maintain your Samsung 65W Trio Adapter:

- Keep the adapter clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Store the adapter in a cool, dry place when not in use.
- Avoid wrapping cables too tightly around the adapter to prevent cable damage.

8. TROUBLESHOOTING

If you encounter issues with your adapter, consider the following:

- **Device not charging:** Ensure the adapter is securely plugged into a working wall outlet. Verify that the charging cable is properly connected to both the adapter and your device. Try a different cable or port to rule out cable or port issues.
- **Slow charging:** Confirm that you are using a cable compatible with fast charging (e.g., USB-C 5A for 65W, USB-C 3A for 25W). Ensure your device supports the fast charging standard of the port you are using. Charging multiple devices simultaneously will distribute power, potentially reducing individual charging speeds.
- **Intermittent charging (e.g., 65W port stops working):** Unplug the adapter from the wall outlet, wait a few seconds, and then plug it back in. This can often reset the adapter and resolve temporary issues.

9. SPECIFICATIONS

Feature	Detail
Brand	Samsung
Model Number	EPT6530
Connector Type	USB Type C (x2), USB Type A (x1)
Total USB Ports	3
Wattage	Up to 65W total output
Output Voltage	20 Volts (Max)
Current Rating	3 Amps, 5 Amps
Amperage	1.2 Amps
Power Source	Corded Electric
Power Plug	Type A - 2 pin (North American)
Color	Black
Item Weight	100 Grams
Material	Metal, Plastic
Special Feature	Fast Charging

Feature	Detail
Compatible Devices	Earbuds, Headphones, Laptops, Smartphones, Tablets
Compatible Phone Models	A32, A53, Fold3, Galaxy Flip3, S22, S22 Ultra, S22+
