## OPERATING INSTRUCTIONS: REVERSIBLE CHAISE LONGUE

The BARTOLOME sofa features a reversible chaise longue, allowing you to configure it as a right-hand or left-hand corner

sofa to suit your living space. To reverse the chaise longue:

1. **Prepare for Reconfiguration:** Remove all cushions from the sofa and chaise longue.
2. **Detach Chaise Longue:** Carefully disconnect the chaise longue section from the main sofa frame. This usually involves unhooking or unscrewing connectors underneath the sofa.
3. **Reposition Chaise Longue:** Move the chaise longue to the desired side of the main sofa frame (left or right).
4. **Re-attach Chaise Longue:** Securely re-connect the chaise longue to the main sofa frame using the designated brackets or connectors. Ensure it is stable.

## CARE AND MAINTENANCE

Proper care will extend the life and appearance of your BARTOLOME sofa.

- **General Cleaning:** Regularly vacuum the sofa using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain. For stubborn stains, use a mild fabric cleaner suitable for polyester, testing on an inconspicuous area first.
- **Removable Covers:** The seat and back cushion covers are removable. Follow the care instructions on the fabric label for washing. Typically, cold water wash and air drying are recommended to prevent shrinking or damage.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and flip seat cushions to ensure even wear and maintain their shape.
- **Protect from Pets:** If you have pets, consider using throws or covers to protect the upholstery from claws and hair.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Sofa feels unstable or wobbly.	Loose connections or uneven feet.	Check all bolts and screws, tighten if necessary. Ensure feet are evenly placed on the floor.
Chaise longue does not connect properly.	Misalignment of connectors.	Ensure both sections are aligned correctly before attempting to connect. Check for any obstructions.
Cushions appear lumpy or misshapen.	Uneven use or settling of filling.	Fluff and rotate cushions regularly. This is normal settling for foam and fiber fillings.
