1. INTRODUCTION

This manual provides instructions for the truke Buds BTG3 True Wireless Earbuds. Please read this manual thoroughly before use to ensure proper operation and to maximize the product's lifespan. The truke Buds BTG3 feature AI-Powered Noise Cancellation, a 55ms low latency gaming mode, and extended playtime.

2. PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- 2 x truke Bluetooth Earbuds (Left and Right)
- 1 x Charging Case
- 1 x Type-C Charging Cable
- 1 x User Manual (This Document)
- 1 x Warranty Card
- 2 x Pairs of Eartips (various sizes)

3. PRODUCT OVERVIEW

The truke Buds BTG3 consist of two earbuds and a charging case. Familiarize yourself with the components for optimal use.

Image: truke Buds BTG3 True Wireless Earbuds and their charging case. The earbuds are black with the truke logo, and the charging case is red with yellow illuminated eyes, indicating its gaming-inspired design.

Earbud Components:

- **Touch Control Area:** For managing playback, calls, and modes.
- **Microphone:** For calls and voice commands.
- **Charging Contacts:** Located at the bottom of the earbud stem.
- **Eartip:** Silicone tips for comfort and sound isolation.

Charging Case Components:

- **Earbud Charging Slots:** Securely holds and charges the earbuds.
- **Type-C Charging Port:** For charging the case.
- **LED Indicators:** Displays charging status and battery level.

4. SETUP AND PAIRING

4.1 Initial Charging

Before first use, fully charge the earbuds and the charging case.

1. Place both earbuds into the charging case. Ensure they are correctly seated and the charging contacts align.
2. Connect the Type-C charging cable to the charging port on the case and to a USB power source.
3. The LED indicators on the case will show the charging status. Allow approximately 1.5-2 hours for a full charge.

The earbuds offer up to 10 hours of playtime on a single charge, with an additional 38 hours provided by the charging case, totaling up to 48 hours of playtime.

4.2 Bluetooth Pairing

1. **Power On:** Open the charging case. The earbuds will automatically power on and enter pairing mode.
2. **Activate Bluetooth:** On your device (smartphone, tablet, computer), enable Bluetooth.
3. **Select Device:** Search for "true Buds BTG3" in the list of available Bluetooth devices and select it to connect.
4. **Confirmation:** Once connected, you will hear an audio prompt from the earbuds, and the device will show "Connected."

Note: The earbuds will automatically reconnect to the last paired device when taken out of the case, if Bluetooth is enabled on the device.

5. OPERATION

5.1 Touch Controls

The earbuds feature touch-sensitive controls for various functions:

Action	Function
Single Tap (Left/Right)	Play/Pause Music, Answer/End Call
Double Tap (Right Earbud)	Next Track
Double Tap (Left Earbud)	Previous Track
Triple Tap (Right Earbud)	Activate Gaming Mode (55ms Low Latency)
Triple Tap (Left Earbud)	Toggle In-Ear Detection On/Off
Long Press (Left/Right, 2 seconds)	Reject Call, Activate Voice Assistant

5.2 Auto Play/Pause (In-Ear Detection)

The earbuds feature high-precision contact sensors for real-time detection of wearing status. Music will automatically play when you put the earbuds in your ears and pause when you take them out.

AUTO PLAY-PAUSE

Adopt High-Precision Contact Sensor
Achieving Real-Time Detection on Wearing Status

Tap 3 times on left earbud
to Turn on Ear Sensor

AUTO PLAY
Put on the earbud

AUTO PAUSE
Take off the earbud

Image: Diagram illustrating the Auto Play/Pause function. It shows an earbud being placed in an ear for auto play and removed for auto pause. The charging case is also shown, indicating that triple tapping the left earbud toggles this feature.

To enable or disable this feature, triple tap the left earbud. This setting can also be managed via the companion application.

5.3 AI-Powered Noise Cancellation

The truke Buds BTG3 incorporate Deep Neural Network Call Noise Cancellation Technology. This system uses AI to accurately identify and separate the caller's voice from background noise, ensuring clear communication even in noisy environments.

5.4 Gaming Mode (Low Latency)

For an optimized gaming experience, activate the 55ms Ultra Low Latency Gaming Mode. This mode reduces audio delay, allowing for better synchronization between audio and video, which is crucial for gaming.

- **Activation:** Triple tap the right earbud to enter Gaming Mode.
- **Features:** Customized tuning effects are applied to accurately identify enemy positions and enhance gunshot effects in games.

6. MAINTENANCE

6.1 Cleaning

- Regularly clean the earbuds, eartips, and charging contacts with a soft, dry, lint-free cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents.
- Ensure the charging contacts on both the earbuds and the case are free from dust and debris to maintain proper charging.

6.2 Storage

- When not in use, store the earbuds in their charging case to protect them and keep them charged.
- Store the device in a cool, dry place, away from extreme temperatures and direct sunlight.

6.3 Water Resistance

The truke Buds BTG3 are rated IPX4 water resistant, meaning they are protected against splashing water from any direction. They are not designed for submersion in water. Avoid exposing them to heavy rain, showering, or swimming.

7. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

Problem	Possible Solution
Earbuds not pairing/connecting	<ul style="list-style-type: none">• Ensure earbuds are charged.• Turn off and on Bluetooth on your device.• Forget "truke Buds BTG3" from your device's Bluetooth list and re-pair.• Place earbuds back in the case, close, then reopen to reset.
Only one earbud working	<ul style="list-style-type: none">• Ensure both earbuds are charged.• Place both earbuds in the charging case, close the lid for 5 seconds, then open.• Try resetting the earbuds (refer to specific reset instructions if available in a full manual, otherwise re-pairing is the next step).
Earbuds not charging	<ul style="list-style-type: none">• Ensure the charging case is charged.• Clean the charging contacts on both earbuds and inside the case.• Ensure earbuds are correctly seated in the case.• Try a different Type-C cable and power adapter.
Low volume or poor sound quality	<ul style="list-style-type: none">• Adjust volume on both your device and the earbuds.• Ensure eartips are properly sealed in your ear canal. Try different sized eartips.• Clean any earwax or debris from the earbud nozzles.• Ensure there are no obstructions between your device and the earbuds.
