Setup and Assembly

Follow these steps to assemble your INFANS 12V Electric Kids Ride On Car. An assembly video is provided for visual guidance.

1. **Wheel Installation:** Attach the wheels to the axles. Ensure all washers and nuts are securely fastened.
2. **Steering Wheel Installation:** Connect the steering wheel to the steering column and secure it with the provided screw. Connect any electrical wires as indicated.
3. **Mirror Installation:** Attach the side mirrors to the designated slots on the car body.
4. **Battery Connection:** Connect the battery terminals. Refer to the wiring diagram in the manual for correct polarity.
5. **Seat Installation:** Place the seat into the car and secure it with the screws. Ensure the safety belt is properly installed.

Operating Instructions

Your ride-on car offers two modes of operation: child-operated and parental remote control.

TWO DRIVING MODES

The child can control the car with pedals and a steering wheel

Parents can use the remote control

Image: The two available driving modes for the ride-on car.

Child-Operated Mode

Children can drive the car using the steering wheel and foot pedal. The forward/reverse switch controls the direction of travel. A slow start function is integrated for safety.

Parental Remote Control Mode

Parents can override child control using the remote control. This mode allows parents to steer, control speed, and stop the vehicle for enhanced safety.

User Instruction (Remote Control)

Multimedia Functions

- **LED Lights:** Front and rear lights can be activated.
- **Music & Stories:** The car features built-in music and stories.
- **USB/TF Card Slots:** Connect external devices for additional audio playback.
- **Adjustable Volume:** Control the audio output level.
- **Horn:** Activate the horn via the steering wheel.

Charging the Battery

The car is powered by a 12V 4.5Ah battery. Use the included 12V 500mA charger. Charging time is typically 8-12 hours. The charging system is certified by CEC, DOE, and ASTM for safety.

Maintenance

- Regularly check all screws and fasteners to ensure they are tight.
- Clean the car with a damp cloth. Do not use abrasive cleaners or solvents.
- Store the car in a dry place away from direct sunlight and moisture.
- Charge the battery fully after each use and at least once a month during storage to prolong battery life.

Troubleshooting

If you encounter issues with your ride-on car, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not move	Battery low or disconnected; loose wiring; motor issue.	Charge battery; check battery connections; inspect wiring; contact customer support if motor is faulty.
Remote control not working	Remote batteries low; remote not paired; interference.	Replace remote batteries; re-pair remote (refer to remote pairing instructions); move away from interference sources.
Lights not working	Loose connection; faulty LED.	Check light wiring connections; contact customer support for replacement parts.
