Product Features

- **Auto-Precise Alignment Charging:** Built-in advanced sensor automatically adjusts your phone to the optimal charging area for improved efficiency.
- **Upgraded Intelligent Auto-Clamping:** Arms and foot automatically open upon power connection and securely clamp your phone when placed.
- **360° Rotating Sphere:** Allows for comfortable and safe GPS navigation and viewing angles.
- **Secure and Stable Mount:** Features a strong vent clip and innovative hollow silicone rubber for stability on bumpy roads, preventing button obstruction.
- **FOD Function & Case Friendly:** Foreign Object Detection prevents abnormal charging. Supports charging through phone cases up to 4mm thick.

Package Contents

- MOKPR Wireless Car Charger Unit
- USB Charging Cable
- Air Vent Clip Mount

Setup Instructions

1. **Attach the Ball Head:** Pass the nut through the ball head.
2. **Insert Ball Head:** Push the ball head into the joint on the back of the charger unit.
3. **Tighten Nut:** Securely tighten the nut to fix the ball head in place.
4. **Hook to Air Vent:** Hook the air outlet blades with the vent clip.
5. **Secure the Grip:** Flip the grip to firmly secure the mount to the air vent.
6. **Connect Power:** Connect the provided USB cable to the charger unit and a QC 3.0 car charger adapter (not included) in your vehicle's power outlet.

Image: Step-by-step guide for attaching the charger to a car's air vent.

Ensure the vent clip is securely attached to prevent movement during driving. The charger will not auto-open until it is connected to power.

Operating Instructions

1. **Power On:** Once connected to power, the charger's arms will automatically open.
2. **Place Phone:** Gently place your smartphone into the charger. The arms will automatically clamp to secure the phone.
3. **Automatic Alignment:** The charger will intelligently identify your device and adjust its position for optimal wireless charging.
4. **Remove Phone:** To remove your phone, touch the side button on the charger. The arms will open, allowing you to retrieve your device.
5. **Adjust Viewing Angle:** Use the 360° rotating sphere to adjust your phone to the desired viewing angle for navigation or other uses.

Charging Compatibility and Requirements

The MOKPR Wireless Car Charger supports various fast charging outputs depending on your device and power source:

- **15W Wireless Fast Charging:** For LG V50/V40/V30/G8/G7.
- **10W Wireless Fast Charging:** For Samsung Galaxy S23 Ultra/S23+/S23/S22 Ultra/S22/S21/S20/Note 20/Note 10+/Note 10.
- **7.5W Wireless Fast Charging:** For iPhone 15/14/14 Plus/14 Pro/14 Pro Max/13/13 Pro/12 Pro

Max/12 Pro/12/11/11 Pro/11 Pro Max/SE/XS/X/XR/8 Plus/8.

- **5W Standard Wireless Charging:** For other wireless charging compatible phones.

Important: 15W/10W/7.5W Fast Charging requires a QC 3.0 car charger adapter (NOT INCLUDED). For 5W standard charging, a 5V/2A adapter is required.

Compatible Devices (Examples):

- **iPhone:** 17/16/15/14/14 Plus/14 Pro/14 Pro Max/13/13 Pro/13 Pro Max/12/12 Pro/12 Pro Max/SE 2020, 11 Pro Max/11 Pro/11/Xs Max/XS/X/XR/8 Plus/8
- **Samsung Galaxy:** S23 Ultra/S23+/S23/S22 Ultra/S22/S22+/S21+/S21/S20+/S20/S10e/S10/S10+/Note 10+/Note10/Note 9/Note 8/Note 20/Note 20 5G
- **Google Pixel:** 5/Pixel 5 XL/Pixel 4/Pixel 4 XL/Pixel 3/Pixel 3 XL

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surface of the charger. Avoid using abrasive cleaners or solvents.
- **Cable Care:** Ensure the USB cable is not bent sharply or tangled, which can damage the internal wires.
- **Storage:** When not in use for extended periods, store the charger in a cool, dry place away from direct sunlight.

Troubleshooting

Problem	Possible Cause	Solution
Charger arms do not open/close automatically.	Not connected to power, or insufficient power.	Ensure the charger is properly connected to a working QC 3.0 car charger adapter. The arms will only open automatically when power is supplied.
Phone is not charging wirelessly.	Phone not aligned, foreign object detected, phone case too thick, or phone not wireless charging compatible.	• Ensure your phone is centered on the charging pad. • Remove any metal objects, magnetic attachments, credit cards, or pop holders from your phone or case. • Check if your phone case is thicker than 4mm; remove it if necessary. • Verify your phone supports wireless charging. • Ensure you are using a QC 3.0 adapter for fast charging.

Problem	Possible Cause	Solution
Charger mount is unstable or falls off the vent.	Vent clip not securely fastened, or incompatible vent type.	• Ensure the vent clip is fully hooked onto an air vent blade and the grip is flipped to secure it. • Confirm your car's air vent design is compatible (refer to "Made GPS Navigation Easier" image in Operating Instructions).
Incompatible with certain phone models (e.g., Samsung flip phones).	Physical design of the phone may not fit the clamping mechanism or charging coil.	Some unique phone designs, like certain foldable phones, may not be fully compatible due to their shape or charging coil placement. Refer to the compatible devices list.

Product Specifications

Specification	Detail
Model Number	CA008
Brand	MOKPR
Connectivity Technology	Wireless
Special Features	Adjustable, Automatic Off, Fast Charging, Travel, Wireless Charging
Color	Black
Item Weight	8.4 ounces
Package Dimensions	4.53 x 3.39 x 3.27 inches
Input Voltage	5 Volts
Amperage	2 Amps
Total USB Ports	1

Warranty and Support

MOKPR is committed to providing high-quality products and customer satisfaction.

- **Lifetime Warranty:** This product comes with a lifetime warranty.
- **Professional Support:** Enjoy 7*24H professional customer support.

For any product issues, questions, or support needs, please contact MOKPR customer service. We are dedicated to providing satisfactory solutions.
