Tchibo Pour-Over Coffee Filter User Manual

Model: 610273 | Brand: Tchibo

INTRODUCTION

Thank you for choosing the Tchibo Pour-Over Coffee Filter. This ceramic hand filter is designed to help you brew fresh, aromatic coffee with full control over the brewing process. Its durable ceramic construction ensures excellent heat retention and is easy to clean. This manual provides essential information for the proper setup, operation, and maintenance of your coffee filter.

PRODUCT OVERVIEW

The Tchibo Pour-Over Coffee Filter is a high-quality ceramic device designed for manual coffee brewing. It features a conical shape with internal ridges to ensure proper water flow and extraction. The handle provides a secure grip, and the base is designed to fit securely over various mugs and carafes.

SETUP

1. **Unpack:** Carefully remove the coffee filter from its packaging. Inspect for any damage.
2. **Initial Cleaning:** Before first use, wash the filter with warm soapy water and rinse thoroughly.
3. **Place Filter Paper:** Insert a standard size 2 paper coffee filter into the ceramic filter. Ensure it sits snugly against the sides.
4. **Pre-wet Filter Paper (Optional but Recommended):** Place the ceramic filter with the paper filter over your mug or carafe. Pour a small amount of hot water over the paper filter to rinse it and pre-heat the ceramic filter. Discard this water before proceeding.
5. **Add Coffee Grounds:** Add your desired amount of medium-fine ground coffee into the pre-wet filter paper. For

best results, use fresh coffee beans ground just before brewing.

OPERATING INSTRUCTIONS (BREWING COFFEE)

Follow these steps for an optimal pour-over coffee experience:

- 1. **Heat Water:** Heat fresh water to approximately 90-96°C (195-205°F). Do not use boiling water directly.
- 2. **Bloom the Coffee:** Slowly pour just enough hot water over the coffee grounds to saturate them completely. Wait for about 30 seconds. This allows the coffee to

March 2019 9.02201/Version 10/2018/0000 2020-07

Dear Customer

Whether you are at home or not and about, with your new rechargeable coffee grinder you can grind coffee beans directly before brewing. This way the precious flavor of the coffee beans is preserved until the coffee is made. And thanks to the rechargeable battery, you do not have to rely on the mains power.

The coffee grinder has a grinding mechanism that is made of ceramic, which is ideal for preserving delicate aromas. The grinding engine can be adjusted depending on whether you want to prepare your coffee in a filter coffee machine, hand brew it, or use a cafetière.

We hope you enjoy using your new coffee grinder.
