# VEVA Circular Air Purifier Instruction Manual

## INTRODUCTION

---

The VEVA Circular Air Purifier is designed to provide clean, fresh air in your home or office. It features a multi-stage filtration system, including a HEPA filter and UV-C light, to effectively capture airborne particles and help sanitize the air. Its compact design and quiet operation make it suitable for various room sizes, covering up to 220 sqft.

## PRODUCT OVERVIEW

---

# POWERFUL PURIFICATION

## CAPTURES 99% OF AIRBORNE PARTICLES

**1  
FILTER  
INCLUDED**

**REMOVABLE  
PRE-FILTER**

**ACTIVATED  
CARBON FILTER**

**H13  
HEPA FILTER**

This diagram illustrates the three layers of filtration: a removable pre-filter, an activated carbon filter, and an H13 HEPA filter, working together to capture airborne particles.

# PERFECT FOR HOME & OFFICE

WHISPER QUIET OPERATION AS LOW AS 29DB

**PERFECT FOR SMALL & MEDIUM SPACES**  
Purifies 220ft<sup>2</sup> / 67m<sup>2</sup>

**3 SPEEDS**  
Low, medium, and high

The air purifier's dimensions are 9 inches diameter and 15.7 inches high, suitable for purifying up to 220 sqft. It operates quietly, as low as 29dB.

This official video provides a visual overview of the VEVA Circular Air Purifier, highlighting its design, filtration system, and ease of use.

## SETUP INSTRUCTIONS

1. **Unpack the Unit:** Carefully remove the air purifier and all components from its packaging.
2. **Remove Filter Packaging:** Locate the filter inside the unit and remove any plastic wrapping or protective materials.
3. **Install Filter:**

# EASY UPKEEP

1

**Remove  
the base to  
swap filters**

2

**Insert new  
ProHEPA™ Mini UV Filter  
with tag facing you**

**For optimal performance,  
replace filter every 6-12 months**

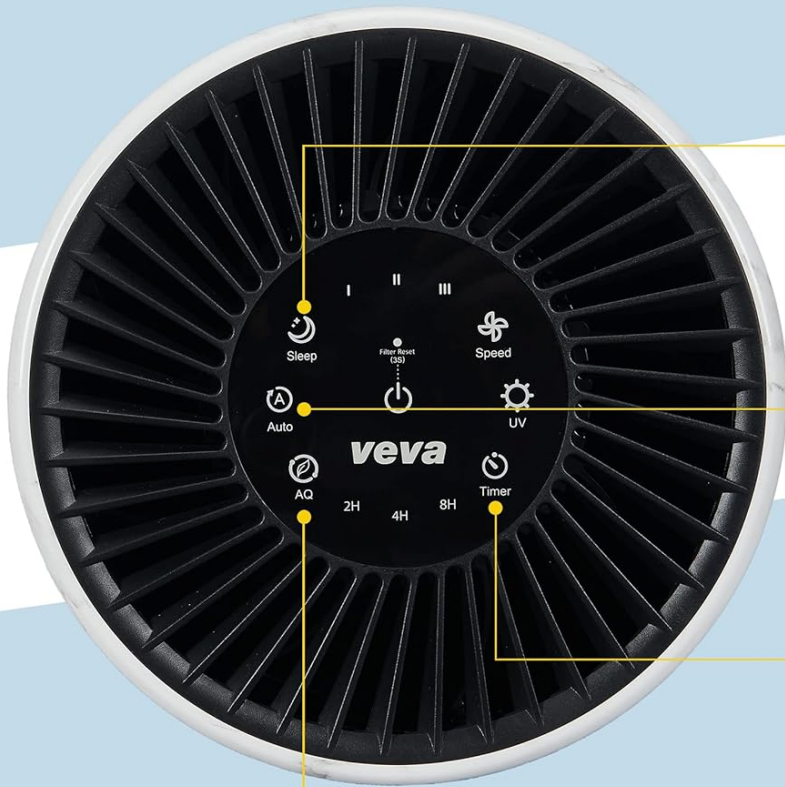

**FILTER  
2-PACKS  
AVAILABLE!**  
*Sold Separately*

To replace the filter, remove the base of the unit, then insert the new ProHEPA™ Mini UV Filter with the tag facing you. Remove the base of the air purifier by twisting it counter-clockwise. Insert the ProHEPA™ Mini UV Filter into the unit, ensuring the tag is facing outwards. Secure the base by twisting it clockwise until it locks.

4. **Placement:** Place the air purifier on a firm, level surface, ensuring adequate space around the unit for optimal airflow.
5. **Power Connection:** Plug the power cord into a standard electrical outlet.

## OPERATING INSTRUCTIONS

# CONVENIENT SETTINGS

## SLEEP MODE

Operates at low speed & muted brightness

## AUTO MODE

Adjusts fan speed based on air quality

## TIMED MODE

2-, 4-, and 8-hour intervals

## AIR QUALITY INDICATOR

VERY GOOD

GOOD

UNHEALTHY

HAZARDOUS

The control panel features buttons for Sleep Mode, Auto Mode, Speed adjustment, UV-C light, and a Timer for 2, 4, or 8-hour intervals. An air quality indicator is also present.

- **Power On/Off:** Press the power button (usually indicated by a circle with a vertical line) on the control panel to turn the unit on or off.
- **Fan Speed Adjustment:** Press the 'Speed' button to cycle through three fan speed settings (Low, Medium, High).
- **UV-C Light Function:** Press the 'UV' button to activate or deactivate the UV-C light for enhanced air sanitization.
- **Soft Light:** The unit features a soft light, ideal for night use. This light can typically be controlled via the control panel or automatically adjusted in Sleep Mode.
- **Sleep Mode:** Activate Sleep Mode for quiet operation and muted brightness, ensuring a peaceful environment.
- **Auto Mode:** When Auto Mode is selected, the air purifier will automatically adjust its fan speed based on the detected air quality.
- **Timed Mode:** Use the 'Timer' button to set the operating duration for 2, 4, or 8 hours. The unit will automatically shut off after the selected time.
- **Air Quality Indicator:** The unit includes an air quality indicator that provides visual feedback on the current air quality.

## MAINTENANCE

---

- **Filter Replacement:** For optimal performance, replace the ProHEPA™ Mini UV Filter every 6-12 months. Refer to the 'Setup Instructions' for filter replacement steps.
- **Exterior Cleaning:** Wipe the exterior of the air purifier with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Pre-Filter Cleaning:** The removable pre-filter can be gently cleaned with a soft brush or vacuum cleaner to remove larger particles. Ensure it is completely dry before re-installing.

## TROUBLESHOOTING

---

### Unit does not turn on:

Ensure the power cord is securely plugged into a working electrical outlet. Check if the power button has been pressed. Verify that the filter is correctly installed and the base is securely locked.

### Weak airflow:

Check if the filter is clogged and requires cleaning or replacement. Ensure there are no obstructions blocking the air intake or outlet vents.

### Unusual noise:

Ensure the unit is placed on a stable, flat surface. Check for any foreign objects inside the unit or around the fan. The filter might be incorrectly installed.

### Air quality indicator not changing:

Ensure the sensor is not blocked or dirty. Gently clean the sensor area if accessible, following manufacturer guidelines.

## SPECIFICATIONS

---

Feature	Detail
Product Dimensions	9 x 9 x 15.7 inches
Item Weight	8.05 Pounds (3.65 Kilograms)
Power Source	AC/DC
Control Method	Touch, Button Control
Filter Type	HEPA
Filter Class	HEPA, UV-C
Floor Area Coverage	220 Square Feet
Noise Level	29 Decibels
Special Features	UV-C light sanitization, compact and modern design
Color	White
ASIN	B09N7MD2QL
UPC	860006769130
