BLUU BANYAN 10 FT

BLUU 10 FT Patio Offset Umbrella Instruction Manual

Model: BANYAN 10 FT

Introduction

Thank you for choosing the BLUU 10 FT Patio Offset Umbrella. This manual provides essential information for the safe and effective setup, operation, and maintenance of your new umbrella. Please read these instructions carefully before assembly and retain them for future reference.

Important Safety Information

- **Weighted Base Required:** To ensure stability, a weighted base must be purchased separately and used with this umbrella. Failure to properly secure the base may result in the umbrella tipping over, causing damage or injury.
- **Weather Conditions:** Always close and secure the umbrella during windy conditions, heavy rain, or other extreme weather. Store the umbrella indoors or cover it with a protective cover when not in use for extended periods to prolong its lifespan.
- **Assembly:** Ensure all components are securely fastened during assembly. Do not use the umbrella if any parts are damaged or missing.

Package Contents

Verify that all parts are present before beginning assembly:

- Umbrella Canopy
- Main Pole Assembly
- Cross Base
- Crank Handle
- Assembly Hardware (nuts, bolts, wrench)

Setup Instructions

Follow these steps to assemble your BLUU Patio Offset Umbrella:

1. **Assemble the Cross Base:** Lay out the cross base components on a flat, stable surface. Connect the base sections using the provided hardware (nuts and bolts). Tighten securely with the included wrench.

2. **Attach the Main Pole:** Insert the main pole assembly into the center of the assembled cross base. Secure it using the designated screws or knobs.
3. **Secure the Base:** Place your weighted base (sold separately) onto the cross base to provide stability. Ensure the weighted base is adequate for the umbrella's size and local wind conditions.
4. **Unfold the Umbrella:** Carefully unfold the umbrella canopy.

Operating the Umbrella

Your BLUU Patio Offset Umbrella features an easy-to-use crank and tilt system:

- **Opening and Closing:** Use the integrated crank handle to smoothly open and close the umbrella canopy. Turn the handle clockwise to open and counter-clockwise to close.
- **Adjusting the Tilt:** The innovative tilting system allows you to adjust the canopy angle from 90 to 180 degrees. Locate the ergonomically designed sliding handle on the pole and adjust it to achieve your desired shade coverage.
- **Securing the Canopy:** An additional Velcro strap is provided to secure the canopy to the pole when closed, improving wind resistance and keeping it tidy.

Maintenance and Care

Proper care will extend the life and appearance of your umbrella:

- **Cleaning the Canopy:** The 240 gsm solution-dyed fabric with water-repellent coating is easy to clean. Use a mild soap solution and a soft brush or cloth to remove dirt and stains. Rinse thoroughly with clean water and allow to air dry completely before closing or storing.
- **Frame Care:** The rustproof metal frame should be wiped clean with a damp cloth as needed. Avoid abrasive cleaners.
- **Storage:** When not in use, especially during off-season or severe weather, close the umbrella, secure it with the Velcro strap, and cover it with a protective cover. For long-term storage, it is recommended to store the umbrella in a dry, sheltered location.

Troubleshooting

- **Umbrella Instability:** Ensure a sufficiently heavy weighted base is used and properly placed on the cross base. Check that all connections are tight.
- **Difficulty Opening/Closing:** Inspect the crank mechanism for any obstructions. Ensure the canopy fabric is not caught in the frame. Apply a silicone-based lubricant to moving parts if necessary.
- **Canopy Swaying in Wind:** While designed for wind resistance, strong winds can cause swaying. Always close the umbrella in high winds. Ensure the canopy is secured to the pole when closed.

Product Specifications

Feature	Specification

Brand	BLUU
Model Name	Classic (BANYAN Series)
Size	10 FT
Canopy Diameter	120 Inches
Color	Brown
Canopy Material	240 gsm Solution-dyed fabric with water-repellent coating
Frame Material	Aluminum
Shaft Material	Aluminum
Opening Mechanism	Crank Lift
Special Features	Fade Resistant, Water Resistant, Infinite Tilt
UPC	810119084057
ASIN	B09N8XLD5
