RedThunder 01 White Wired Combo

RedThunder 60% Mini Gaming Keyboard and Mouse Combo User Manual

Model: 01 White Wired Combo

Brand: RedThunder

1. INTRODUCTION

Thank you for choosing the RedThunder 60% Mini Gaming Keyboard and Mouse Combo. This ultra-compact wired gaming set is designed for optimal performance and comfort, featuring vibrant RGB backlighting and a high-precision optical mouse. This manual provides detailed instructions to help you set up, operate, and maintain your new gaming peripherals.

2. SETUP

Follow these steps to connect your RedThunder gaming keyboard and mouse to your device.

2.1 Connecting the Keyboard

The keyboard connects via a detachable USB Type-C cable. Ensure the cable is securely plugged into the keyboard's Type-C port and then into an available USB port on your computer or gaming console.

2.2 Connecting the Mouse

The mouse connects via a standard USB cable. Plug the mouse's USB connector into an available USB port on your computer or gaming console. The mouse features an ultra-light honeycomb shell for comfortable use.

2.3 Initial Connection and Driver Installation

Upon connecting, your operating system (PC, MAC, PS5, Xbox) should automatically detect and install the necessary drivers. No additional software is typically required for basic functionality. For optimal performance, ensure your system's USB ports are functioning correctly.

3. OPERATING INSTRUCTIONS

3.1 Keyboard Functions

The 60% compact layout keyboard features RGB backlighting and anti-ghosting capabilities for an enhanced gaming experience.

- **RGB Backlight Control:**
 - **FN + I:** Backlight ON/OFF
 - **FN + K:** Switch backlight mode (multiple modes available)
 - **FN + O/L:** Adjust brightness (O for brighter, L for dimmer)
 - **FN + U/J:** Adjust dynamic backlight speed (U for faster, J for slower)
 - **FN + M:** Switch backlight color
- **Anti-Ghosting:** The keyboard supports 26 anti-ghosting keys, ensuring accurate input during intense gaming sessions.
- **Ergonomic Design:** The keyboard features an ergonomic stepped design for comfortable typing and gaming. It also includes wide ergonomic tripods for adjustable tilt.

3.2 Mouse Functions

The optical mouse provides precise tracking and customizable RGB lighting.

- **DPI Adjustment:** The mouse features a high-precision optical sensor with sensitivity up to 7200 DPI. Use the dedicated DPI button (usually located below the scroll wheel) to cycle through different DPI settings to match your preference.
- **RGB Lighting:** The mouse features cool RGB lighting that complements the keyboard. The lighting patterns are pre-set and change automatically.
- **Honeycomb Shell:** The ultra-light honeycomb shell design reduces weight to approximately 65 grams, providing a comfortable and flexible grip for extended use.

4. MAINTENANCE

Proper maintenance ensures the longevity and performance of your gaming combo.

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard and mouse regularly. For deeper cleaning, a slightly damp cloth can be used, ensuring no liquid enters the internal components.
- **Water Resistance:** The keyboard features a water-resistant design to prevent damage from spilled drinks. However, it is not fully waterproof. Avoid submerging the keyboard in liquid.
- **Cable Care:** Avoid sharp bends or excessive pulling on the USB cables to prevent internal wire damage.
- **Storage:** Store the keyboard and mouse in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

5. TROUBLESHOOTING

If you encounter any issues with your RedThunder gaming combo, please refer to the following common solutions:

- **Keyboard/Mouse Not Responding:**
 - Ensure both the keyboard's Type-C cable and the mouse's USB cable are securely plugged into your device.
 - Try plugging the devices into different USB ports on your computer or console.
 - Restart your computer or gaming console.
 - Test the keyboard/mouse on another device to determine if the issue is with the peripheral or your system.
- **RGB Lighting Not Working:**
 - For the keyboard, ensure the backlight is turned ON using **FN + I**.
 - Check if the brightness is set too low (**FN + L** to increase).
 - Verify the connection is stable.
- **Mouse Tracking Issues:**
 - Clean the optical sensor on the bottom of the mouse.
 - Adjust the DPI setting using the DPI button.
 - Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).

If the problem persists after trying these steps, please contact RedThunder customer support for further assistance.
