# Thule Evo FixPoint Roof Rack System Instruction Manual

Model: Evo FixPoint 710701

## 1. INTRODUCTION

Thank you for choosing the Thule Evo FixPoint Roof Rack System. This system is designed to provide a secure and versatile solution for transporting gear on vehicles equipped with integrated fixed points, T-profile, or custom install rack attachment points. Please read this manual thoroughly before installation and use to ensure proper function and safety.

## 2. PRODUCT OVERVIEW

The Thule Evo FixPoint is a load carrier foot designed for the Thule Evo roof rack system. It provides a strong and stable base for various Thule accessories.

### Key Features:

- **Easy Installation:** Foot installs easily onto vehicles with integrated fixed points, T-profile, or custom install rack attachment points.
- **Secure Attachment:** Features an ergonomic torque limiter key that indicates when the rack is safely and properly secured to your vehicle, preventing overtightening.
- **Thule One-Key Compatible:** Secures to vehicle with Thule One-Key locks (sold separately) for enhanced security.
- **Vehicle Specific Fit:** Always check the Thule Buyer's Guide to find the correct roof rack components for your specific car model.

### 3. SAFETY INFORMATION

---

Always prioritize safety during installation and use. Failure to follow these guidelines may result in property damage, injury, or death.

- Ensure all components are correctly installed and tightened according to the instructions.
- Do not exceed the maximum load capacity specified for your vehicle's roof or the Thule roof rack system.
- Regularly check the tightness of all bolts and straps, especially before long trips and after driving on rough roads.
- Distribute the load evenly on the roof rack.
- Drive at reduced speeds, especially in crosswinds, on rough roads, or when carrying large or heavy loads.
- Avoid automatic car washes when the roof rack or accessories are installed.
- Be aware of the increased height and width of your vehicle when carrying loads, especially when entering garages or low-clearance areas.

### 4. SETUP AND INSTALLATION

---

The Thule Evo FixPoint system is designed for straightforward installation. Refer to the specific fit kit instructions provided with your product for precise measurements and vehicle-specific details.

#### General Installation Steps:

1. **Prepare the Vehicle:** Ensure your vehicle's roof and fixed points are clean and free from debris.
2. **Assemble Foot Packs:** Attach the foot packs to the crossbars (sold separately) according to the instructions provided with the crossbars.
3. **Position on Roof:** Place the assembled roof rack system onto your vehicle's fixed points. Ensure correct alignment as per your vehicle's fit guide.
4. **Secure the Feet:** Use the ergonomic torque limiter key to tighten the foot packs onto the fixed points. The key will click when the correct torque is reached, indicating a secure fit without overtightening.
5. **Install Locks (Optional):** For added security, install Thule One-Key locks into the foot pack covers.
6. **Final Check:** Before driving, gently pull on the crossbars to ensure they are firmly attached to the vehicle.

## 5. OPERATION

Once installed, your Thule Evo FixPoint roof rack system is ready to carry various Thule accessories such as bike carriers, ski carriers, cargo boxes, and kayak carriers.

- Always refer to the specific instructions for any Thule accessory you attach to the roof rack.
- Ensure all loads are securely fastened to prevent shifting during transit.
- Periodically check the security of your load during long journeys.

## 6. MAINTENANCE

Proper maintenance will extend the life of your Thule Evo FixPoint roof rack system.

- **Cleaning:** Clean the roof rack regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically inspect all components for wear, damage, or corrosion. Replace any damaged parts immediately.
- **Lubrication:** Lubricate moving parts and lock cylinders annually with a non-petroleum-based lubricant.
- **Storage:** If not in use for extended periods, remove the roof rack and store it in a dry, protected area.

## 7. TROUBLESHOOTING

If you encounter issues with your Thule Evo FixPoint system, consider the following:

- **Loose Fit:** Re-tighten the foot packs using the torque limiter key until it clicks. Ensure the correct fit kit is used for your vehicle.
- **Noise:** Excessive noise can be caused by improper installation, loose components, or incorrect positioning of accessories. Recheck all connections and ensure accessories are aerodynamic.
- **Difficulty Installing Accessories:** Ensure the T-track rubber strip is correctly inserted and trimmed if necessary.
- **Missing Parts:** If any parts are missing upon delivery, contact your retailer or Thule customer support immediately.

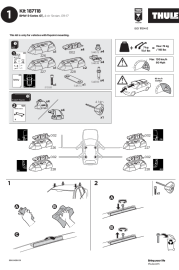

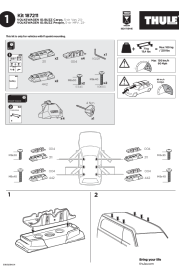

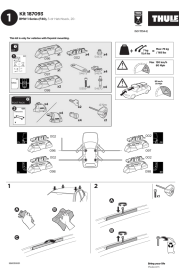

## 8. SPECIFICATIONS

Feature	Detail
Model Name	Evo FixPoint
Part Number	710701
Material	Plastic
Item Weight	4.4 Pounds (2.0 kg)
Item Dimensions (LxWxH)	11 x 7.9 x 3.9 inches (27.9 x 20.1 x 9.9 cm)
Included Components	Roof rack component (foot pack)
