RedThunder K10

RedThunder K10 Gaming Keyboard and Mouse Combo User Manual

INTRODUCTION

Welcome to the RedThunder K10 Gaming Keyboard and Mouse Combo user manual. This guide provides detailed instructions for setting up, operating, and maintaining your new gaming peripherals. The RedThunder K10 features an AZERTY layout keyboard with customizable RGB backlighting, anti-ghosting technology, and an ergonomic gaming mouse with up to 7200 DPI, designed to enhance your gaming and computing experience.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- RedThunder K10 Gaming Keyboard
- RedThunder Gaming Mouse
- Detachable Wrist Rest
- User Manual (this document)

SETUP INSTRUCTIONS

Follow these steps to connect your RedThunder K10 combo to your computer:

1. **Connect the Keyboard:** Plug the USB connector of the keyboard into an available USB port on your computer.
2. **Connect the Mouse:** Plug the USB connector of the mouse into another available USB port on your computer.
3. **Install Wrist Rest:** Align the detachable wrist rest with the bottom edge of the keyboard and attach it securely.
4. **Driver Installation:** The keyboard and mouse are plug-and-play devices. Your operating system (Windows, Mac OS, Linux) should automatically detect and install the necessary drivers. No additional software installation is typically required.

OPERATING INSTRUCTIONS

Keyboard Functions

The RedThunder K10 keyboard features a full AZERTY layout with 104 keys, including multimedia shortcuts and customizable RGB backlighting.

- **Anti-Ghosting:** The keyboard supports 19 non-conflicting keys, ensuring accurate input during intense gaming sessions.
- **Multimedia Hotkeys:** Use FN + F1 to F12 for quick access to media controls, volume adjustments, and other functions.
- **Interchangeable Keys:** The Z/Q/S/D keys can be interchanged for personalized gaming setups.

RGB Backlighting Control

The keyboard offers various RGB lighting modes and customization options:

- **Switch Gradient Light Mode:** Press **FN + Insert** to cycle through different gradient lighting effects.
- **Switch Monochromatic Light Mode:** Press **FN + <** to change between various single-color lighting modes.
- **Change Custom Lighting Mode:** Press **FN + >** to switch between personalized lighting modes.
- **Change Streamer Mode:** Press **FN + Delete** to activate or change the streamer lighting effect.
- **Switch Breathing Light Mode:** Press **FN + End** to toggle the breathing light effect.
- **Adjust Light Speed:** Press **FN + +/-** to increase or decrease the speed of dynamic lighting effects.
- **Adjust Light Brightness:** Press **FN + Page Up / Page Down** to adjust the brightness level of the backlighting.

Mouse Functions

The ergonomic gaming mouse provides precise control and customizable features.

- **DPI Settings:** The mouse offers up to 7200 DPI for high precision and responsiveness. DPI can typically be adjusted via a dedicated button on the mouse.
- **Ergonomic Design:** Designed to fit comfortably in your palm, reducing hand fatigue during extended use.
- **RGB Lighting:** The mouse features dynamic RGB lighting effects.
- **7 Buttons:** Includes standard left/right click, scroll wheel, DPI adjustment, and side buttons for forward/backward navigation or custom assignments.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your RedThunder K10 combo.

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard and mouse. For deeper cleaning, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the devices.
- **Dust Removal:** Use compressed air to remove dust and debris from between the keyboard keys and mouse sensors.
- **Avoid Liquids:** Do not expose the devices to excessive moisture or liquids.
- **Storage:** Store the keyboard and mouse in a cool, dry place when not in use.

TROUBLESHOOTING

If you encounter any issues with your RedThunder K10 combo, please refer to the following common solutions:

- **Device Not Recognized:**
 - Ensure the USB cables are securely plugged into your computer's USB ports.
 - Try plugging the devices into different USB ports.
 - Restart your computer.
 - Check your computer's Device Manager (Windows) or System Information (Mac) to see if the devices are listed.
- **Keyboard/Mouse Not Responding:**

- Verify the USB connection.
- Test the devices on another computer to rule out a computer-specific issue.

- **RGB Lighting Not Working/Incorrect:**

- Ensure the keyboard is properly connected.
- Cycle through the lighting modes using the **FN** key combinations as described in the "Operating Instructions" section.
- Adjust brightness using **FN + Page Up / Page Down**

- **Mouse Cursor Jumps or is Inaccurate:**

- Clean the mouse sensor with a soft cloth.
- Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).
- Adjust the DPI settings using the mouse's DPI button.
