PRODUCT OVERVIEW

Image showing the XO F90T True Wireless Stereo Earbuds, one earbud removed from its charging case, and the product packaging. The earbuds are white, with a design typical of in-ear headphones, and the charging case is also white with a flip-open lid.

The XO F90T earbuds are designed for comfortable in-ear wear, providing true wireless stereo audio. The compact charging case not only protects the earbuds but also recharges them on the go. Each earbud features a speaker, microphone, and touch-sensitive area for controls. The charging case has a charging port and an indicator light.

SETUP

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Place the earbuds into the charging case. Connect the charging cable to the case's charging port and the other end to a USB power source. The indicator light on the case will show charging status and turn off or change color when fully charged. It takes approximately 1-2 hours for a full charge.

2. Pairing with Your Device

1. Ensure the earbuds are charged.
2. Open the charging case. The earbuds will automatically enter pairing mode, indicated by a flashing light on one or both earbuds.
3. On your device (smartphone, tablet, etc.), go to Bluetooth settings and turn Bluetooth on.
4. Search for available devices. You should see "XO F90T" or a similar name in the list.
5. Select "XO F90T" to connect. Once connected, the earbud indicator lights will stop flashing.
6. If pairing fails, place the earbuds back into the case, close the lid, wait a few seconds, and then repeat the steps.
