BOFENG 853E-BK-OAK

BOFENG Twin Bed Frame with Wood Headboard

Model: 853E-BK-OAK

1. Important Safety Information

Please read and understand all instructions before beginning assembly and use of this product. Failure to follow these instructions may result in injury or product damage.

- **Weight Limit:** Do not exceed the maximum weight capacity of**800 pounds**.
- **Assembly:** Assemble the bed frame on a soft, clean surface to prevent scratches. Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten all connections.
- **Sharp Edges:** Exercise caution during assembly to avoid contact with any potentially sharp edges.
- **Children:** Keep small parts away from children during assembly. This product is not intended for use by children without adult supervision.
- **Placement:** Position the bed frame on a level surface.

2. Package Contents

Verify that all components are present before starting assembly. If any parts are missing or damaged, please contact customer support.

- Headboard Panel (P2 MDF Board)
- Footboard Panel (P2 MDF Board)
- Side Rails (Metal)
- Center Support Bar(s)
- Steel Slats
- Support Legs
- Hardware Pack (Screws, Bolts, Allen Wrench)
- Installation Manual (this document)

Figure 2.1: Example of bed frame components.

3. Setup and Assembly Instructions

Assembly is designed to be straightforward. All necessary tools are included. Follow the numbered steps carefully.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent damage. Identify each part using the provided labels and the parts list.
2. **Attach Headboard and Footboard Panels:** Secure the P2 MDF wood panels to the corresponding metal headboard and footboard frames using the designated screws and bolts from the hardware pack. Ensure they are oriented correctly.
3. **Assemble Side Rails:** Connect the metal side rails to the headboard and footboard frames. Ensure all connections are firm but do not fully tighten bolts until the entire frame is assembled.
4. **Install Center Support:** Place the center support bar(s) and any associated support legs into their designated positions. These provide crucial stability for the mattress foundation.

5. **Place Steel Slats:** Lay the steel slats across the assembled frame. Secure them according to the instructions, typically by inserting them into pre-drilled holes or attaching with screws. The heavy-duty steel slats are designed to prevent sagging and eliminate the need for a box spring.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws using the provided Allen wrench. Do not overtighten.

Figure 3.2: Detail of steel slat support system.

Figure 3.3: Reinforced connection for stability.

4. Usage Instructions

This bed frame is designed for optimal support and convenience.

- **Mattress Placement:** Place your Twin-sized mattress directly onto the steel slats. A box spring is not required for this bed frame.
- **Weight Distribution:** Ensure weight is distributed evenly across the bed frame. Avoid concentrating heavy loads in one small area.
- **Under-Bed Storage:** The design allows for space underneath the bed for storage.

Figure 4.1: Bed frame in use with mattress and bedding.

Figure 4.2: Under-bed storage space.

5. Maintenance

Regular maintenance will help prolong the life and appearance of your bed frame.

- **Cleaning:** Wipe down metal and wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Inspections:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Moving the Bed:** When moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your flooring.

6. Troubleshooting

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or screws. Uneven floor surface.	Ensure all bolts and screws are securely tightened. Move the bed to a level surface or use shims if necessary.
Squeaking noises.	Loose connections. Friction between metal parts.	Re-tighten all assembly hardware. Apply a small amount of lubricant (e.g., silicone spray) to contact points if squeaking persists.
Missing or damaged parts.	Packaging error or transit damage.	Do not attempt to assemble with missing or damaged parts. Contact BOFENG customer support immediately for replacements.

7. Specifications

Model: 853E-BK-OAK

Size: Twin

Product Dimensions (L x W x H): 77.95" x 39.76" x 34.84"

Item Weight: Approximately 39 pounds

Weight Capacity: 800 pounds

Material: Heavy-duty Steel, P2 MDF Board (Natural Oak Color)

Finish Type: Matte

Box Spring Required: No

Figure 7.1: Product Dimensions.

8. Warranty and Support

BOFENG provides a **12-month warranty** for this product, covering manufacturing defects and material flaws. Additionally, free replacement parts are available during the warranty period.

If you encounter any issues with your bed frame, require replacement parts, or have questions regarding assembly or use, please do not hesitate to contact BOFENG customer service. We aim to resolve your concerns within 24 hours.

For support, please refer to the contact information provided on your purchase receipt or the BOFENG official website.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
