addlon 100FT LED Outdoor String Lights Instruction Manual

Model: A09JW01107

[Introduction](#) [Safety Information](#) [What's in the Box](#) [Setup](#) [Operating](#)
[Instructions](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

Thank you for choosing the addlon 100FT LED Outdoor String Lights. These lights are designed to enhance your outdoor living spaces with versatile lighting options, combining durability with ease of use. Featuring remote control functionality, you can effortlessly adjust brightness, select from multiple lighting modes, and set timers to create the perfect ambiance for any occasion.

The lights are built with shatterproof Edison LED bulbs and professional-grade outdoor wiring, ensuring reliable performance in various weather conditions. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to help you get the most out of your addlon string lights.

2. IMPORTANT SAFETY INFORMATION

- **Read all instructions carefully before installation and use.**
- **Ensure all bulbs are tightened securely before plugging in the lights.** This prevents moisture ingress and ensures proper functionality.
- Use only with 120V power sources.
- Do not exceed the maximum connectable length of 200FT (4 strands of 50FT each).
- Always unplug the lights from the power source before performing any maintenance or replacing bulbs.
- Keep the remote control dry and away from extreme temperatures.
- Do not immerse the power adapter or any part of the string lights in water.
- Avoid hanging the string lights in areas where they could be a tripping hazard or easily damaged.

3. WHAT'S IN THE BOX

Your addlon 100FT LED Outdoor String Lights package includes:

- 2 x 50ft String Lights
- 2 x Spare Light Bulbs

- 1 x Instruction Manual
- 1 x Remote Control

Effortless Brightness Control

Find the right glow with the remote control

4. SETUP AND INSTALLATION

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Inspect the string lights and bulbs for any visible damage.
2. **Tighten Bulbs:** Before plugging in, ensure all 32 Edison LED bulbs (including spares) are securely tightened into their sockets. This is crucial for weatherproofing and proper operation.

Image: A hand is shown tightening one of the shatterproof Edison LED bulbs into its socket on the string light, emphasizing the importance of a secure fit for weather protection.

- Plan Your Layout:** Determine the desired path for your string lights. The 100FT length is provided by two 50FT strands, which can be connected for greater coverage up to 200FT (using up to 4 strands).

Image: A diagram illustrating the connection points of multiple string light strands, showing how they can be linked end-to-end to extend the total length up to 200 feet.

- Mounting Options:** The lights feature small hooks above each bulb for easy hanging. You can use nails, hooks, zip ties, or guide wires to secure the string lights.

Image: Four different methods of installing the string lights are shown: using nails, hooks, zip ties, and a guide wire, demonstrating the versatility of mounting options.

- Connect to Power:** Plug the string lights into a standard 120V outdoor-rated power outlet. The low voltage plug ensures safety and multifunctionality.

Image: A detailed view of the low voltage plug, highlighting its 24V output from a 120V input, designed for safe and efficient operation of the string lights.

5. OPERATING INSTRUCTIONS

Your addlon string lights come with a remote control for convenient operation. Ensure the remote has working batteries.

Image: The remote control is shown with buttons for dimming (25%, 50%, 75%, 100% brightness), ON/OFF, and various lighting modes, demonstrating its comprehensive control features.

Remote Control Functions:

- **ON/OFF:** Press to turn the lights on or off.
- **Dimming:** Use the 25%, 50%, 75%, and 100% buttons to adjust the brightness level. You can also use the '+' and '-' buttons for fine-tuning.
- **Lighting Modes:** The remote offers 3 enchanting lighting modes:
 - **Constant:** Steady illumination.
 - **Flashing:** Lights flash on and off.
 - **Breathing:** Lights slowly fade in and out.

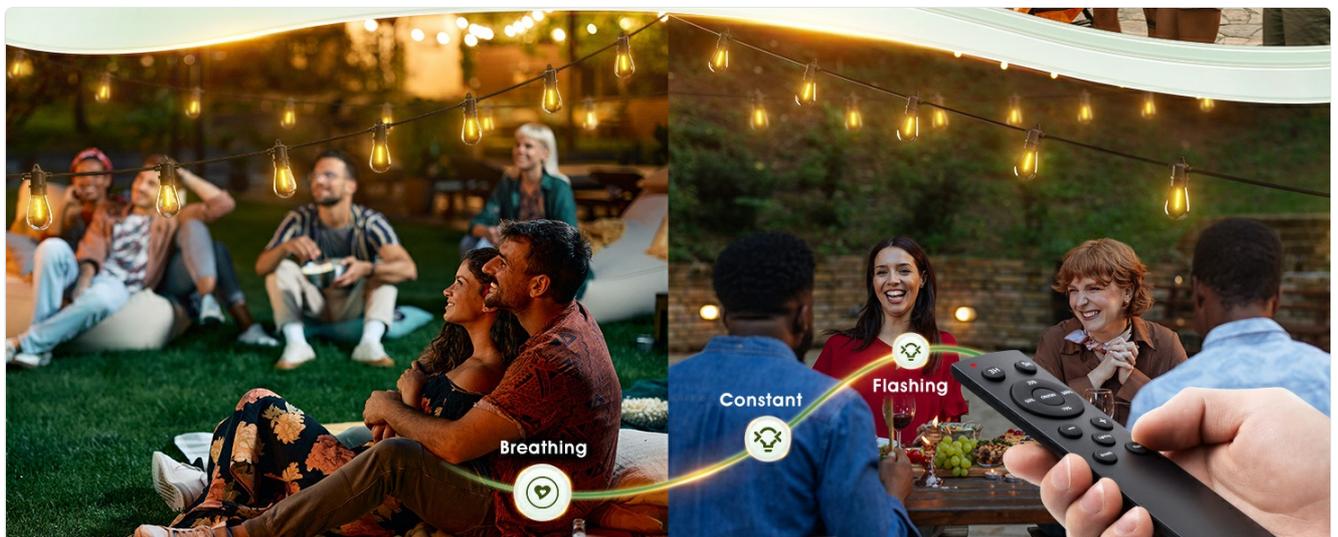

Image: Visual representation of the three available lighting modes: 'Breathing' (slow fade), 'Flashing' (intermittent), and 'Constant' (steady light, demonstrating the versatility of the string lights).

- **Timer Function:** Set the lights to automatically turn off after a specified duration using the timer buttons (e.g., 3H, 5H).

Image: The remote control displaying timer options (3H, 5H), indicating how users can set the lights to automatically turn off after a set period.

6. MAINTENANCE

The addlon LED Outdoor String Lights are designed for durability and year-round outdoor use. Follow these guidelines to ensure their longevity:

- **Weather Resistance:** These lights are waterproof, windproof, sunproof, and snowproof, making them suitable for all seasons.

Image: The string lights are shown installed outdoors during rainfall, illustrating their waterproof design and ability to withstand various weather conditions.

- **Shatterproof Bulbs:** The Edison LED bulbs are made from durable plastic, designed to be shatterproof, reducing the risk of breakage.

Image: A visual comparison highlighting the robust, shatterproof design of the addlon LED bulb versus a fragile, broken glass bulb, emphasizing enhanced durability.

- **Cleaning:** Periodically wipe the bulbs and cords with a soft, damp cloth to remove dirt and debris. Ensure the lights are unplugged before cleaning.
- **Bulb Replacement:** If a bulb needs replacement, ensure the power is off. Unscrew the old bulb and screw in a new one, tightening it firmly to maintain weather resistance. Use only compatible replacement bulbs.

7. TROUBLESHOOTING

If you encounter any issues with your addlon LED Outdoor String Lights, please refer to the following common solutions:

- **Lights Not Turning On:**

- Check if the power plug is securely inserted into a working outlet.
- Ensure all bulbs are tightly screwed into their sockets.
- Verify that the remote control batteries are not depleted.
- Test the outlet with another device to confirm it has power.

- **Some Bulbs Not Lighting Up:**

- Tighten any loose bulbs.
- Replace any visibly damaged or non-functional bulbs with the provided spares or compatible replacements.

- **Remote Control Not Responding:**

- Replace the remote control batteries.
- Ensure there are no obstructions between the remote and the light receiver.

- **Lights Flickering or Dimming Unexpectedly:**

- Check for loose connections at the plug or between connected strands.
- Ensure the power source is stable and not overloaded.

8. PRODUCT SPECIFICATIONS

Brand	addlon
Model Number	A09JW01107
Indoor/Outdoor Usage	Outdoor
Special Features	Connect up to 200FT, Dimmable Outdoor Lighting, Remote Controlled, Timer & 3 Lighting Modes, Waterproof
Light Source Type	LED
Power Source	Corded Electric
Light Color	Warm White
Material	Plastic
Color Temperature	2700 Kelvin
Number of Light Sources	30
Voltage	120 Volts
Bulb Shape Size	S14
Wattage	1 watts

Average Life	50000 Hours
Bulb Length	100 Feet

9. WARRANTY AND SUPPORT

addlon is committed to providing high-quality products and excellent customer service. Your addlon LED Outdoor String Lights are backed by the following:
