## Nervive B09NF6MZZC

# Nervive Pain Relieving Cream User Manual

Model: B09NF6MZZC

## INTRODUCTION

Nervive Pain Relieving Cream is a topical analgesic designed to block nerve pain signals and provide fast-acting relief. Developed with over 50 years of expertise in nerve care, this non-greasy cream targets nerve pain receptors to alleviate discomfort in areas such as toes, feet, fingers, hands, legs, and arms. It contains maximum strength Lidocaine HCl and Menthol to deliver effective relief within minutes.

## SAFETY INFORMATION

Please read and follow all directions and warnings on the product carton before use.

### General Warnings:

- For external use only.
- Flammable. Keep away from heat and open flame.

### Do Not Use:

- If you have had an allergic reaction to lidocaine or other local anesthetics.
- On large areas of the body or on cut, irritated, blistered, or swollen skin.
- On puncture wounds.
- For more than one week without consulting a doctor.

### When Using This Product:

- Use only as directed.
- Avoid contact with eyes and mucous membranes.
- Rare cases of serious burns have been reported with products of this type.
- Do not apply to wounds or damaged, broken, or irritated skin.
- Do not bandage tightly or apply local heat (such as heating pads) or a medicated patch to the area of use.
- A transient burning sensation may occur upon application but generally disappears in several days.

- Avoid applying into skin folds.

### Stop Use and Ask a Doctor If:

- Condition worsens.
- Severe burning sensation, redness, rash, or irritation develops.
- Symptoms persist for more than 7 days or clear up and occur again within a few days.
- You experience signs of skin injury, such as pain, swelling, or blistering where the product was applied.

If pregnant or breast-feeding, ask a health professional before use. Keep out of reach of children and pets. If swallowed, get medical help or contact a Poison Control Center right away.

## INGREDIENTS

---

### Active Ingredients:

- Lidocaine HCl 4% (Topical Anesthetic)
- Menthol 1% (Topical Analgesic)

### Inactive Ingredients:

Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Alcohol, Aminomethyl Propanol, Caprylyl Methicone, C30-45 Alkyl Cetearyl Dimethicone Crosspolymer, Cetearyl Alcohol, Ceteth-20 Phosphate, Dicetyl Phosphate, Dimethicone, Disodium EDTA, Ethylhexyl Glycerin, Glyceryl Stearate, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Isohexadecane, Phenoxyethanol, Polysorbate 60, Steareth-21, Water.

## DIRECTIONS FOR USE

---

### Adults and children over 12 years:

- Apply a thin layer to the affected area every 6 to 8 hours.
- Do not exceed 3 applications in a 24-hour period.
- Massage into the painful area until thoroughly absorbed into the skin.
- **AFTER APPLYING, WASH HANDS WITH SOAP AND WATER.**

### Children 12 years or younger:

- Ask a doctor.

## PRODUCT FEATURES AND BENEFITS

---

- **Powerful Pain Relief:** From the makers of the world's #1 nerve care brand, with over 50 years of global expertise.
- **Blocks Nerve Pain Signals:** Specifically formulated to provide relief directly to areas of pain including toes, feet, fingers, hands, legs, and arms.
- **Works Within Minutes:** Feel the cream start working quickly for fast-acting, powerful pain relief.
- **Maximum Strength Relief:** Contains maximum levels of Lidocaine HCl 4% and Menthol 1% to penetrate nerves and block pain signals.
- **Soothing, Non-Greasy Formula:** Easy to massage into painful areas for a comfortable and soothing relief experience.

## HOW IT WORKS

---

Nervive Pain Relieving Cream utilizes Lidocaine HCl and Menthol to target nerve pain receptors. Lidocaine acts as a topical anesthetic, numbing the area and blocking nerve signals that transmit pain. Menthol provides a cooling sensation that can distract from pain and offer additional analgesic effects. Together, these active ingredients work to quickly alleviate discomfort.
