

SpyX 10501

SpyX 6-in-1 Spy Watch Instruction Manual

Model: 10501

INTRODUCTION

Welcome to the world of espionage with your new SpyX 6-in-1 Spy Watch! This multi-functional device is designed to assist young agents in their covert missions, providing essential tools for surveillance, communication, and concealment. Please read this manual carefully to understand all the features and ensure proper operation.

PRODUCT OVERVIEW

The SpyX 6-in-1 Spy Watch is a versatile tool packed with six distinct functions to aid in various spy activities:

- **Working Watch:** Displays current time.
- **Telescope Lenses:** Features short and long-range lenses for observation.
- **LED Spot Light:** Provides illumination for night missions or dark areas.
- **Secret Message Capsules:** Allows for discreet communication.
- **Emergency Whistle:** For signaling or alerting.
- **Signal Mirror:** To see behind you or send reflective signals.
- **Hidden Compartment:** A secret space for storing small, important items.

SETUP

Battery Installation

The SpyX 6-in-1 Spy Watch requires 1 C battery (included) for operation. The battery is typically pre-installed for the watch function, but ensure it is properly seated or replace if necessary.

1. Locate the battery compartment on the back of the watch unit.
2. Using a small Phillips head screwdriver (not included), carefully open the battery compartment cover.
3. Insert the C battery, ensuring the correct polarity (+/-) as indicated inside the compartment.
4. Replace the cover and secure it with the screw.

Setting the Time

To set the time on your SpyX Watch:

1. Press the **MODE (A)** button three times to enter setup mode. The seconds display will begin to flash.
2. Press the **RESET (B)** button to zero out the seconds.
3. Press the **MODE (A)** button again to advance to the hour setting.
4. Press the **START (C)** button to adjust the hour.
5. Press the **MODE (A)** button again to advance to the minute setting.
6. Press the **START (C)** button to adjust the minutes.
7. Continue pressing **MODE (A)** to cycle through other settings like date, month, and day of the week, adjusting with **START (C)** as needed.
8. Once all settings are complete, press **MODE (A)** to exit setup mode.

OPERATING INSTRUCTIONS

Using the Telescope Lenses

The watch features flip-out telescope lenses for both short and long-range viewing.

1. To deploy the lenses, gently flip open the watch face cover.
2. Extend the telescope mechanism until the lenses are in position for viewing.
3. Look through the lenses to observe distant objects.
4. When finished, fold the lenses back into the watch and close the cover to protect them.

Activating the LED Spot Light

For low-light conditions, the integrated LED spot light provides discreet illumination.

- Press the **LED light button (D)** located on the side of the watch to turn the light on.
- Press the button again to turn the light off.

Using Secret Message Capsules

The watch includes secret message drop capsules for covert communication.

1. Open the hidden compartment of the watch (see "Accessing the Hidden Compartment" below).
2. Place your rolled-up secret message inside one of the provided capsules.
3. Insert the capsule into the designated slot within the hidden compartment.
4. Close the compartment to conceal the message.
5. To retrieve, open the compartment and remove the capsule.

Using the Emergency Whistle

The emergency whistle is integrated into the watch design for signaling.

- Locate the whistle component on the side of the watch.
- Blow firmly into the whistle to produce a loud sound for alerts or signals.

Utilizing the Signal Mirror

The signal mirror can be used to see behind you or to send reflective signals.

- Flip out the mirror component from the watch.
- Position the mirror to reflect light towards a target or to view your surroundings indirectly.

Accessing the Hidden Compartment

The watch features a secret compartment for storing small, valuable items.

- Gently open the watch face cover.
- The hidden compartment is located beneath the watch face, often revealed when the telescope lenses are deployed or the watch is opened.
- Place small items, such as secret messages or tiny tools, inside.
- Close the watch face cover to secure the compartment.

MAINTENANCE

- **Cleaning:** Wipe the watch with a soft, dry cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** Store the watch in a cool, dry place away from direct sunlight when not in use.
- **Battery Replacement:** If the watch functions or LED light dim, replace the C battery as described in the "Setup" section.
- **Avoid Impact:** While durable, avoid dropping the watch or subjecting it to strong impacts to prevent damage to internal components or lenses.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch display is blank or dim.	Low or dead battery.	Replace the C battery. Ensure correct polarity.
LED light does not turn on.	Low battery or faulty connection.	Replace the C battery. Ensure the LED button is pressed firmly.
Telescope lenses are blurry.	Lenses are dirty or smudged.	Gently clean lenses with a soft, lint-free cloth.
Watch time is incorrect.	Time needs to be reset.	Follow the "Setting the Time" instructions in the Setup section.
