1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify all parts against the included packing list.
2. **Assemble Frame:** Attach the steel frame components according to the diagrams in your manual. Ensure all screws are securely tightened.

5. OPERATING INSTRUCTIONS

Using your Fannova 4-Tier Printer Stand is straightforward:

- **Placement:** Position the stand in your desired location. If using casters, unlock them to move the stand, then lock them once in place to prevent accidental movement.
- **Loading Equipment:** Place your printers, scanners, shredders, and other office supplies on the shelves. Distribute weight evenly for optimal stability.
- **Adjusting Shelves:** To change the height of the middle shelves, carefully unload the shelf, loosen the securing screws, reposition the shelf to one of the 6 available height levels, and re-tighten the screws.

6. MAINTENANCE

To ensure the longevity and appearance of your Fannova Printer Stand:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Caster Care:** If using casters, keep them free of debris to ensure smooth movement.

7. TROUBLESHOOTING

If you encounter any issues with your printer stand, consider the following:

- **Instability:** Ensure all screws are fully tightened. Verify that the stand is on a level surface. If using adjustable feet, ensure they are all making firm contact with the floor. If using casters, ensure they are locked when the stand is stationary.
- **Difficulty Moving (with casters):** Check for debris in the caster wheels. Ensure the lockable casters are in the unlocked position.

- **Shelf Not Level:** Re-check the installation of the adjustable shelves to ensure they are seated correctly in the chosen height holes and screws are tightened evenly.
