MAINTENANCE

General Care

- Regularly vacuum the sofa using a soft brush attachment to remove dust and debris.
- Avoid placing the sofa in direct sunlight to prevent fading of the Dark Grey polyester upholstery.
- Rotate and fluff cushions periodically to maintain their shape and even out wear.

Cleaning Instructions

- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- For spot cleaning, use a mild, water-free solvent or dry-cleaning product. Test on an inconspicuous area first.
- The seat cushion covers are removable. If necessary, they can be carefully removed for professional cleaning or following specific care instructions on the fabric tag.

TROUBLESHOOTING

This section addresses common issues you might encounter with your sectional sofa.

Loose Connections

- If sofa sections feel loose, check the V-shaped brackets underneath and ensure they are fully interlocked.
- Verify that all legs are securely screwed into the frame. Tighten if necessary.

Cushion Compression

- Over time, cushions may show signs of compression. Regularly fluffing and rotating them can help restore their shape and prolong their lifespan.

Fabric Pilling or Snags

- Minor pilling can be carefully removed with a fabric shaver.
- Address snags promptly by gently pushing the loose thread back into the fabric or carefully trimming it, to prevent further damage.
