HISKFUN B09NGSH6RL

HISKFUN Portable Mini Humidifier (Model B09NGSH6RL) Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your HISKFUN Portable Mini Humidifier, Model B09NGSH6RL. This compact humidifier features a 300ml capacity, colorful LED night light, USB power, two mist modes, and an automatic shut-off function, making it suitable for various personal spaces.

IMPORTANT SAFETY INFORMATION

- **Water Type:** Use only clean tap water or mineral water. Do not use essential oils, perfume, or distilled water, as these can clog the cotton swab and render the humidifier unusable.
- **Cotton Core Preparation:** Before initial use, ensure the cotton core is fully soaked in water for a few minutes.
- **Power Source:** This device is USB-powered and does not contain an internal battery. It must be connected to a USB power source to operate.
- **Atomizer Care:** Be careful not to touch or deform the metal atomizer at the top, as this can affect its function.
- **Water Level:** Ensure the water container is filled to at least 90% capacity for optimal performance.

PRODUCT COMPONENTS

The HISKFUN Portable Mini Humidifier package includes the following items:

- Humidifier Unit (x1)
- USB Cable (x1)
- Instruction Manual (x1)
- Cotton Swabs (x2)

SETUP

Follow these steps to set up your humidifier for first use:

1. **Unscrew the Lid:** Gently twist and lift the top lid of the humidifier.
2. **Install Cotton Swab:** Insert one of the provided cotton swabs into the central tube of the lid. Ensure it is fully seated.
3. **Add Water:** Fill the water tank with clean tap water or mineral water. Do not exceed the maximum fill line.
4. **Soak Cotton Swab:** Allow the cotton swab to soak in the water for a few minutes until it is completely saturated. This is crucial for mist production.
5. **Close Lid:** Securely place the lid back onto the humidifier, ensuring it is properly aligned.
6. **Connect USB:** Plug the USB cable into the humidifier's USB port and connect the other end to a compatible USB power source (e.g., computer, power bank, wall adapter).

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your humidifier:

- **Cleaning:** Use clean tap water or mineral water for operation. Avoid using harsh chemicals or abrasive materials for cleaning.
- **Cotton Swab Replacement:** If the spray becomes weak or stops, or if there is an odor, replace the cotton swab. Ensure the new cotton swab is fully soaked before use.
- **Water Tank:** Periodically clean the water tank to prevent mineral buildup and maintain hygiene.

TROUBLESHOOTING

If you encounter issues with your humidifier, refer to the following common problems and solutions:

- **No Spray or Reduced Spray:**
 - Ensure the cotton core is fully soaked.
 - Check if the water level is sufficient (at least 90% full).
 - Verify that the USB cable is securely connected and the power source is active.
 - The cotton swab might be clogged; replace it if necessary.
- **Unpleasant Odor from Spray:**
 - The water quality might be an issue. Change the water in the tank.
 - Replace the cotton swab.
 - Clean the water tank thoroughly.
- **Light Feature Not Working:**
 - Ensure the power button is pressed and held for the correct duration (3 seconds) to activate the light modes.
 - Verify the humidifier is receiving power via the USB connection.
