1. SAFETY INFORMATION

Please read and understand all instructions before beginning installation. Failure to do so may result in electric shock, fire, or other injuries that could be hazardous or even fatal. Keep these instructions for future reference.

- **WARNING:** To avoid electric shock, ensure power is turned off at the circuit breaker or fuse box before installation.
- Consult a qualified electrician if you are unsure about the installation process.
- All wiring connections must be in accordance with local and national electrical codes.
- Do not exceed the recommended wattage for bulbs.
- Handle glass components with care to prevent breakage.

2. PACKAGE CONTENTS

Verify that all components are present before proceeding with installation. If any parts are missing or damaged, do not attempt to install the fixture. Contact customer service for assistance.

- Pendant Light Fixture (1)
- Mounting Hardware (1 set)
- 60W E12 Candelabra Base Vintage-Style Bulbs (4)
- Installation Instructions (1)

Light Fixture Form	Pendant
Power Source	AC/DC
Installation Type	Semi Flush Mount / Pendant
Control Method	App (if compatible with smart bulbs)
Number of Light Sources	4
Voltage	120 Volts
Bulb Base	E12
Included Components	Mounting Hardware, 60W E12 Candelabra Base Vintage-Style Bulbs
Item Weight	2.2 Pounds
Package Dimensions	15.75 x 14.25 x 14.25 inches

4. INSTALLATION INSTRUCTIONS

This fixture can be installed as either a semi-flush mount or a pendant. Follow the steps below carefully. It is recommended to have a second person assist during installation.

4.1 Preparation

1. Turn off power at the main circuit breaker or fuse box to prevent electrical shock.
2. Carefully unpack all components and inspect for any damage.
3. Identify all parts using the package contents list.

4.2 Mounting the Fixture

1. Attach the mounting bracket to the junction box in the ceiling using the provided screws. Ensure the bracket is securely fastened.
2. For pendant installation, determine the desired chain length and adjust accordingly. Thread the wires through the chain and canopy.
3. Connect the fixture's wires to the house wires: black to black (live), white to white (neutral), and bare copper or green to bare copper or green (ground). Secure connections with wire nuts.
4. Carefully tuck all wires into the junction box.
5. Position the fixture canopy against the ceiling and secure it to the mounting bracket with the provided screws.

Image 4.1: The pendant light fixture shown with its chain, ready for pendant-style installation. This view highlights the adjustable chain mechanism.

4.3 Installing Bulbs and Shades

1. Carefully attach the glass shades to the fixture. Ensure they are securely seated.
2. Screw the provided 60W E12 candelabra base vintage-style bulbs into the sockets. Do not overtighten.

Image 4.2: A close-up view of the E12 bulb sockets and the clear seeded glass shades, illustrating where the bulbs are inserted.

4.4 Final Steps

1. Restore power at the circuit breaker.
2. Test the light fixture to ensure proper operation.

Image 4.3: The fixture installed as a semi-flush mount, showcasing its appearance when mounted directly to the ceiling.

Image 4.4: The fixture installed as a pendant, hanging from the ceiling in a dining area, demonstrating its versatility.

5. OPERATING INSTRUCTIONS

Once installed, the Patriot Lighting Elegant Home Brooklyn 4-Light Pendant operates like a standard light fixture.

- **Power On/Off:** Use the wall switch connected to the fixture to turn the lights on or off.
- **Bulb Type:** This fixture uses four E12 candelabra base bulbs. The included bulbs are 60W vintage-style.
- **App Control:** The fixture itself does not have built-in app control. However, if you choose to use smart E12 bulbs (sold separately), you may be able to control the lighting via a compatible app, depending on the smart bulb's features.

6. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your light fixture.

- **Cleaning:** To clean the fixture, ensure power is off. Wipe the metal and wood surfaces with a soft, dry cloth. For glass shades, a slightly damp cloth can be used, followed by a dry cloth to prevent water spots. Do not use abrasive cleaners or solvents, as they may damage the finish.

- Bulb Replacement:** Before replacing bulbs, turn off power at the circuit breaker. Allow bulbs to cool completely. Unscrew old bulbs and replace with new E12 candelabra base bulbs of the same wattage (max 60W) or lower.

7. TROUBLESHOOTING

If you experience issues with your light fixture, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture.	Check the circuit breaker or fuse. Ensure the wall switch is in the 'ON' position.
	Loose or incorrect wiring.	Turn off power at the circuit breaker. Check all wire connections. Re-secure if necessary. If unsure, consult a qualified electrician.
	Faulty bulb.	Turn off power. Replace the bulb with a new, known-good E12 bulb.
Lights flicker.	Loose bulb or wiring.	Turn off power. Tighten bulbs. Check wiring connections.
	Incompatible dimmer switch.	If using a dimmer, ensure it is compatible with the bulbs. Replace dimmer if necessary.

If the problem persists after trying these solutions, contact a qualified electrician or Patriot Lighting customer support.

8. WARRANTY & SUPPORT
