Audio Pro A38

Audio Pro A38 Wireless Bluetooth Floorstanding Speakers User Manual

Model: A38

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Audio Pro A38 Wireless Bluetooth Floorstanding Speakers. Please read this manual thoroughly before using the product to ensure proper functionality and to maximize your listening experience.

The Audio Pro A38 speakers are designed to deliver high-fidelity audio with versatile connectivity options, including WiFi, Bluetooth, AirPlay 2, Google Cast, and Spotify Connect. They are suitable for multiroom audio setups and enhance TV sound.

WHAT'S IN THE BOX

- Audio Pro A38 Floorstanding Speakers (Pair)
- Power Cable x 2
- Quick Start Guide
- Speaker Cable
- Remote Control

SETUP

1. Speaker Placement

Position the speakers in your desired listening area. For optimal stereo imaging, place them equidistant from your primary listening position and spaced appropriately apart. Ensure adequate ventilation around each speaker.

Image: Two white Audio Pro A38 floorstanding speakers, illustrating their design and potential placement in a room.

2. Connecting Power

Connect one power cable to each speaker and then plug them into a wall outlet. The speakers are designed for 100-240V AC, 50/60Hz power input.

3. Audio Connections

The A38 speakers offer multiple input options:

- **Line In (RCA):** For connecting analog audio sources like CD players or turntables (RIAA pre-amp may be required for turntables).
- **Optical:** For connecting digital audio sources such as TVs, game consoles, or media players.
- **TV/ARC:** Connect your TV via HDMI ARC for easy control using your TV remote and enhanced sound.
- **WiFi:** For multiroom streaming and access to services like AirPlay 2, Google Cast, and Spotify Connect.
- **Bluetooth 4.2:** For wireless connection to smartphones, tablets, and other Bluetooth-enabled devices.

4. Initial Power On

After connecting power and desired audio sources, press the power button on the remote control or the speaker to turn on the system. The status indicator will illuminate.

OPERATION

1. Remote Control Functions

The included remote control allows for easy management of your speakers. Key functions include:

- **Power:** Turns the speakers on or off.
- **Volume +/-:** Adjusts the master volume.
- **BT Pair:** Initiates Bluetooth pairing mode.
- **Inputs (BT, OPT, WIFI, TV, LINE):** Selects the audio source.

- **Presets (1-5):** Accesses stored radio stations or playlists (configurable via the Audio Pro Control app).

Comes in white and black.

2. Using the Audio Pro Control App

For advanced control, multiroom functionality, and sound adjustments, download the Audio Pro Control app for iOS or Android.

- **Download for iOS:** [Audio Pro Control on Apple App Store](#)
- **Download for Android:** [Audio Pro Control on Google Play Store](#)

Control Audio Pro units with the *Audio Pro Control* app for iOS and Android.

Image: A smartphone screen showing the Audio Pro Control app, demonstrating its interface for managing speakers and multiroom audio.

3. Multiroom Streaming

The A38 speakers support multiroom audio. Use the Audio Pro Control app to group speakers, play different music in various rooms, or synchronize playback across your network.

4. Sound Customization

Within the Audio Pro Control app, you can fine-tune bass and treble settings. A virtual surround effect is available for the ARC input, offering a wider soundstage for movies. This effect can be adjusted in three steps to suit personal preferences and room acoustics.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker surfaces. Avoid abrasive cleaners or solvents.

- **Ventilation:** Ensure speaker vents are not obstructed to prevent overheating.
- **Environment:** Keep speakers away from direct sunlight, heat sources, and excessive moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cable disconnected; outlet not active.	Check power cable connections; try a different outlet.
No sound	Incorrect input selected; volume too low; audio cable issue.	Verify input source; increase volume; check audio cable connections.
Bluetooth connection issues	Speakers not in pairing mode; device too far; interference.	Ensure speakers are in BT pairing mode; move device closer; reduce interference.
TV randomly shutting off when connected via Bluetooth	Potential Bluetooth interference or compatibility issue with specific TV/Firestick models.	Try connecting via HDMI ARC or Optical instead of Bluetooth. Ensure TV and Firestick firmware are updated. Consult TV manufacturer support if issue persists.
Multiroom playback problems	Weak Wi-Fi signal; app configuration error.	Check Wi-Fi signal strength; restart router and speakers; reconfigure multiroom settings in the app.

If problems persist, please contact Audio Pro customer support.

SPECIFICATIONS

Feature	Detail
