IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this blanket.
2. Do not use with a generator, power converter, or inverter.
3. Do not use with damaged cords or plugs. If the cord or plug is damaged, do not use.
4. Do not use with other heating devices.

5. Do not use for infants, children, incapacitated persons, or anyone insensitive to heat.
6. Do not use if wet.
7. Do not use if the blanket is folded, bunched, or tucked in.
8. Do not use pins or other metallic objects with this blanket.
9. Do not dry clean this blanket. Dry cleaning solvents may damage the insulation of the heating element.
10. Always unplug the blanket from the electrical outlet when not in use.
11. Keep the control unit away from drafts or open windows to prevent it from turning off automatically.
12. Ensure the blanket is connected to a 120V AC electrical outlet.

SETUP GUIDE

Follow these steps to set up your Sunbeam Microplush Heated Blanket:

1. **Unpack:** Carefully remove the blanket and controllers from the packaging.
2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is not folded, bunched, or tucked under the mattress. The connector cord should be positioned at the foot of the bed.
3. **Connect Controllers:** For Queen and King sizes, locate the two connectors at the foot of the blanket. Firmly plug each digital controller into its respective connector on the blanket. Ensure a secure connection.
4. **Plug into Outlet:** Plug the power cord(s) from the controller(s) into a 120V AC electrical wall outlet. Do not use with extension cords or power strips.

OPERATING YOUR HEATED BLANKET

Your Sunbeam Microplush Heated Blanket is designed for easy operation with its digital controller.

Powering On/Off:

- Press the **On/Off** button on the digital controller to turn the blanket on. The LCD display will illuminate.
- Press the **On/Off** button again to turn the blanket off.

Adjusting Heat Settings:

- Once powered on, use the **Up (▲)** and **Down (▼)** arrow buttons to cycle through the 10 available heat settings.
- The selected heat setting will be displayed on the LCD screen.

Preheat Feature:

- To quickly warm your bed before getting in, press the **Preheat** button.
- The blanket will heat up rapidly to a high setting and then automatically revert to your last selected heat setting after a short period.

Auto Shut-Off:

- For safety and energy conservation, your blanket is equipped with a 10-hour auto shut-off feature.
- The blanket will automatically turn off after 10 hours of continuous operation.
- To restart the blanket after auto shut-off, simply press the **On/Off** button.

CARE AND MAINTENANCE

Proper care will ensure the longevity and performance of your Sunbeam Microplush Heated Blanket.

Washing Instructions:

Your heated blanket is machine washable. Follow these steps:

1. **Disconnect:** Always disconnect the power cord from the wall outlet and detach the controller(s) from the blanket before washing.
2. **Pre-soak (Optional):** For best results, pre-soak the blanket for 15 minutes in cold water with a mild detergent.
3. **Machine Wash:** Wash on the gentle or delicate cycle in a washing machine with warm water (maximum 105°F / 40°C). Do not use bleach.
4. **Rinse:** Rinse on the normal cycle.
5. **Machine Dry:** Tumble dry on low heat for 5-10 minutes. Remove the blanket while still damp and gently stretch it to its original size.
6. **Air Dry:** Drape the blanket over a clothesline or shower rod to finish drying. Do not use clothespins. Ensure the blanket is completely dry before reconnecting the controller(s) and plugging it in.

Machine washable

The Sunbeam Microplush Heated Blanket is machine washable, making care simple and convenient.

Storage:

When not in use, store the blanket neatly folded in a cool, dry place. Avoid placing heavy objects on top of the blanket, as this may damage the internal wiring.

TROUBLESHOOTING

If you experience issues with your heated blanket, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blanket not heating.	Not plugged in, controller not connected, auto shut-off activated, or power outage.	Ensure power cord is securely plugged into a working outlet. Check that the controller is firmly connected to the blanket. Press On/Off to restart after auto shut-off. Check household circuit breaker.
Controller display is off or flashing.	Loose connection, power interruption, or internal error.	Unplug the blanket from the wall outlet for a few minutes, then plug it back in. Ensure all connections are secure. If the issue persists, contact customer support.
Blanket is too hot or not hot enough.	Incorrect heat setting, or blanket is bunched/folded.	Adjust the heat setting using the Up/Down arrows. Ensure the blanket is spread flat on the bed and not folded or bunched.
Blanket turns off unexpectedly.	Auto shut-off activated, or controller is in a drafty area.	This is normal if 10 hours have passed. Press On/Off to restart. Move the controller away from drafts or open windows.
