

## ASTRO Gaming 939-001999

# Logitech G Astro A30 Lightspeed Wireless Gaming Headset

## INSTRUCTION MANUAL

### Introduction

The ASTRO A30 Wireless Gaming Headset offers versatile audio for an immersive gaming experience across multiple platforms. Designed for comfort and high-fidelity sound, this headset provides seamless connectivity and customizable features to enhance your gameplay and communication.

Key features include pro-grade LIGHTSPEED 2.4 GHz wireless technology, Bluetooth connectivity, 40 mm audio drivers for clear sound, and a long-lasting battery life of 27+ hours. It also offers flexible microphone options and audio mixing capabilities via a dedicated mobile app.

### Setup

#### 1. Package Contents

Before beginning, ensure all components are present in the package:

- ASTRO A30 Wireless Gaming Headset
- LIGHTSPEED USB-A Transmitter
- Detachable Boom Microphone
- 3.5mm Audio Cable
- USB-C Charging Cable
- Headset Case

Figure 1: Included components of the ASTRO A30 Wireless Gaming Headset.

## 2. Initial Charging

Fully charge the headset before first use. Connect the USB-C charging cable to the headset's USB-C port and the other end to a powered USB port. The headset provides over 27 hours of wireless playtime on a full charge.

# EPIC BATTERY LIFE

## PLAYS FOR 27+ HOURS OF USE

Figure 2: The ASTRO A30 headset offers extended battery life for prolonged use.

### 3. Connectivity Options

The ASTRO A30 headset supports multiple connection methods:

- **LIGHTSPEED Wireless (2.4 GHz):** For optimal gaming performance, plug the LIGHTSPEED USB-A transmitter into your PC or console. The headset will automatically connect.
- **Bluetooth:** For mobile devices, activate Bluetooth on your device and put the headset into pairing mode (refer to Operating section for button details). Select "ASTRO A30" from your device's Bluetooth list.
- **3.5mm Aux:** Use the included 3.5mm audio cable for wired connections to compatible devices.

# LIGHTSPEED WIRELESS

**PRO-GRADE WIRELESS CONNECTIVITY**

# FLEXIBLE CONNECTIVITY

Figure 4: The headset supports flexible connectivity options including Bluetooth and 3.5mm aux.

## 4. Device Compatibility

The ASTRO A30 headset is compatible with a wide range of gaming platforms and devices:

- PlayStation consoles (PS5, PS4)
- Xbox consoles (Xbox Series X|S, Xbox One)
- Nintendo Switch
- PC/Mac
- Mobile devices (iOS, Android)

Figure 5: The ASTRO A30 headset offers broad compatibility across various gaming platforms.

Figure 6: The headset is officially designed for Xbox consoles.

## Operating the Headset

### 1. Microphone Usage

The ASTRO A30 offers two microphone options:

- **Detachable Boom Microphone:** For clear voice communication during gaming, attach the boom microphone to the designated port on the headset.
- **Built-in Microphone:** When the boom microphone is detached, the headset automatically switches to its built-in secondary microphone, ideal for casual use or mobile calls.

### 2. On-Ear Controls

The headset features intuitive on-ear controls for easy management of audio and settings:

- **Power Button:** Located on the left earcup, press and hold to power on/off.
- **Bluetooth Button:** Located near the power button, press and hold to enter Bluetooth pairing mode.
- **Mute Button:** Located on the left earcup, press to mute/unmute the microphone.
- **Game/Voice Balance Joystick:** This joystick allows you to adjust the balance between game audio and voice chat. Move it up or down to increase/decrease overall volume, and left/right to adjust the game/voice mix.

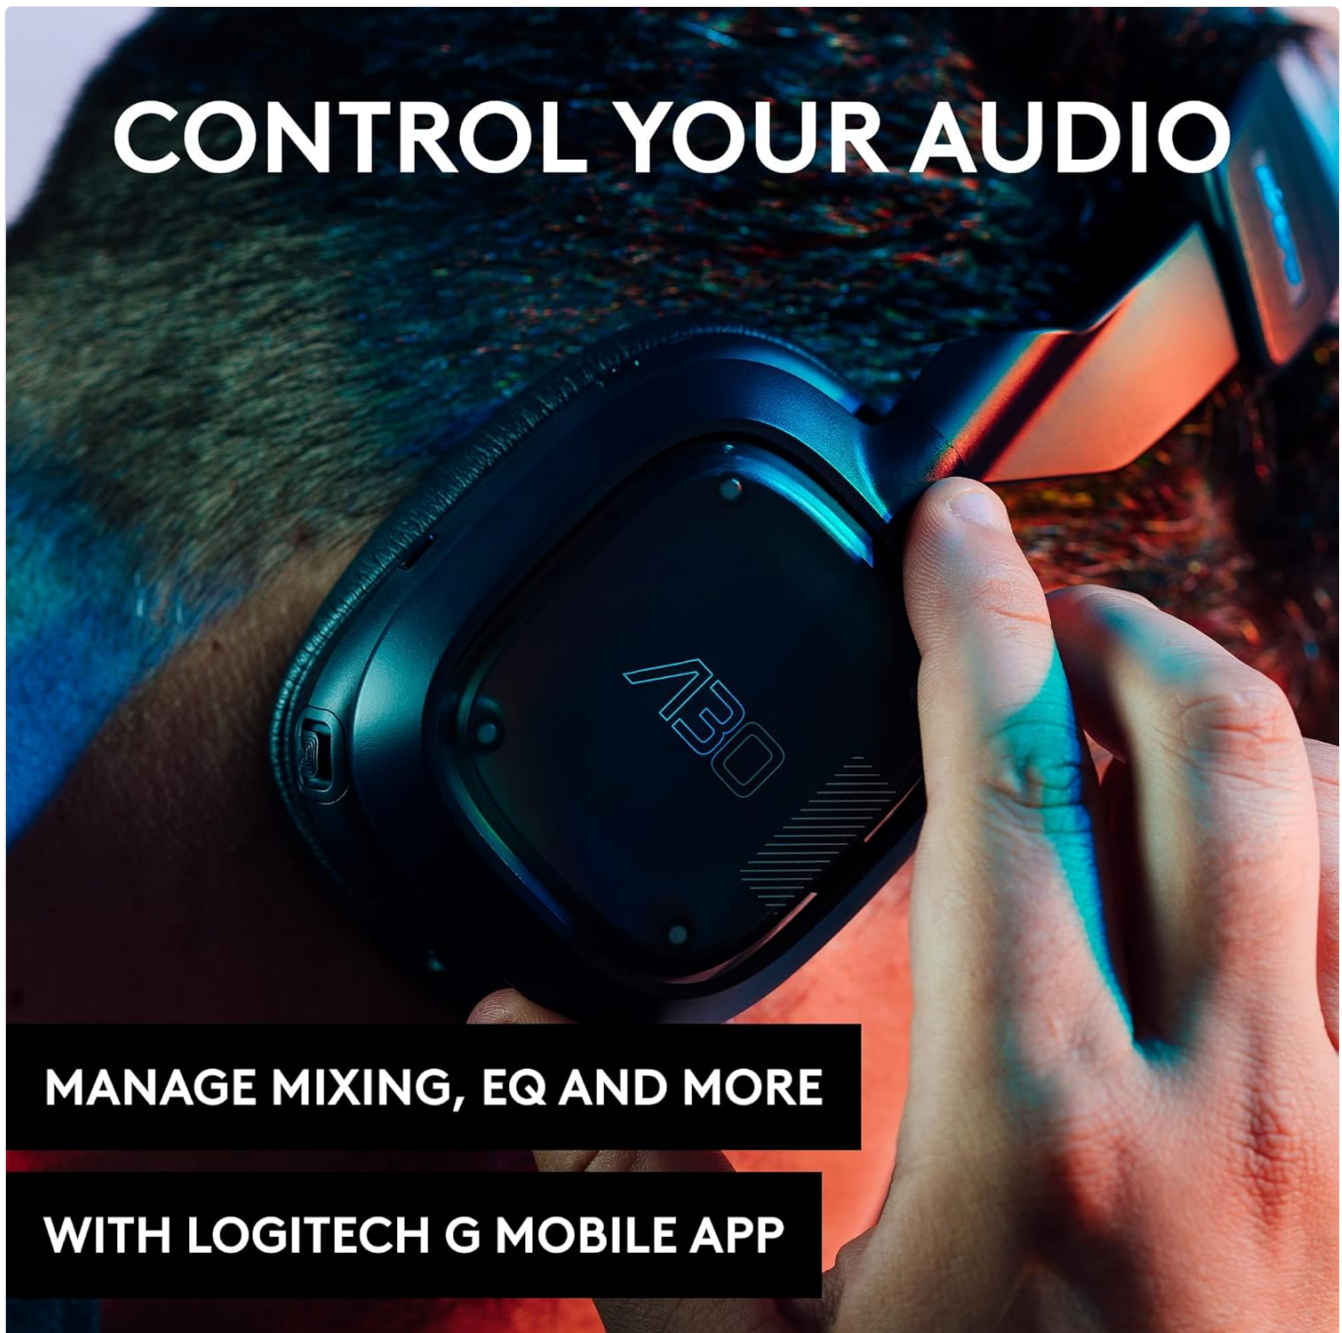

Figure 7: Manage mixing, EQ, and more using the Logitech G mobile app and on-ear controls.

### 3. Logitech G Mobile App

For advanced customization and audio mixing, download the Logitech G mobile app (available for iOS and Android). The app allows you to:

- Adjust equalizer (EQ) settings for personalized sound profiles.
- Mix audio from multiple devices simultaneously.
- Manage microphone settings and levels.
- Monitor battery status.

# CUSTOM SPEAKER TAGS

Figure 8: The Logitech G mobile app provides comprehensive audio control and customization.

## 4. Custom Speaker Tags

Personalize your headset's appearance with custom speaker tags. These magnetic tags can be easily swapped to match your style. You can choose from various available designs or create your own custom artwork.

Figure 9: Customize your headset with unique speaker tags.

## Maintenance

---

Proper maintenance ensures the longevity and performance of your ASTRO A30 headset:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid abrasive cleaners or solvents. For ear cushions, gently wipe with a damp cloth and allow to air dry completely.
- **Battery Care:** To preserve battery life, avoid fully discharging the headset frequently. Store in a cool, dry place when not in use.
- **Ear Cushion Replacement:** The ear cushions are designed to be replaceable. If they become worn or damaged, new cushions can be purchased and easily swapped.

## Troubleshooting

---

If you encounter issues with your ASTRO A30 headset, try the following solutions:

- **No Sound/Low Volume:**

- Ensure the headset is powered on and properly connected (LIGHTSPEED dongle, Bluetooth, or 3.5mm cable).
- Check the volume levels on the headset's on-ear controls and your connected device.
- Verify audio output settings on your PC/console are set to the headset.
- If using the mobile app, check EQ settings and ensure no channels are muted or balanced incorrectly.
- **Microphone Issues:**
  - Ensure the microphone is not muted (check the mute button on the headset).
  - If using the detachable boom mic, ensure it is securely plugged in.
  - Check microphone input settings on your PC/console and communication software.
  - Adjust microphone sensitivity via the Logitech G mobile app.
- **Connectivity Problems (Wireless/Bluetooth):**
  - Restart the headset and the connected device.
  - For LIGHTSPEED, ensure the USB transmitter is firmly plugged in and its indicator light is active.
  - For Bluetooth, unpair and re-pair the headset with your device.
  - Ensure the headset is within range of the transmitter or Bluetooth device.
- **Headset Freezing/Not Responding:**
  - Perform a hard reset by holding down the power button for 10-15 seconds until the headset powers off.
  - Ensure the headset has sufficient battery charge.

For persistent issues, consult the official ASTRO Gaming support website or contact customer service.

## Specifications

Feature	Detail
Model Name	A30
Connectivity Technology	Wireless (LIGHTSPEED 2.4 GHz, Bluetooth), Wired (3.5 mm Aux)
