## PawHut D51-312

# PawHut Indoor/Outdoor Rabbit Hutch Instruction Manual

Model: D51-312

## INTRODUCTION

Thank you for choosing the PawHut Indoor/Outdoor Rabbit Hutch. This manual provides essential information for the proper assembly, operation, maintenance, and troubleshooting of your new rabbit hutch. Please read these instructions carefully before assembly and retain them for future reference.

Figure 1: PawHut Indoor/Outdoor Rabbit Hutch, a two-tier design with multiple access points.

Figure 2: The hutch is suitable for both indoor and outdoor environments, designed to withstand various weather conditions.

## PRODUCT FEATURES

- **Spacious Design:** Offers a lengthy hopping distance and two main nests, one on each level, providing ample space for one to two rabbits.
- **Quick Feeding Trough:** Conveniently located trough for easy on-the-go feeding.
- **Indoor/Outdoor Versatility:** Constructed with fir wood walls and an asphalt roof for protection against rain, making it suitable for both indoor and outdoor use.
- **Multiple Access Points:** Features four doors and an openable roof for easy access and cleaning.
- **No-Leak Tray:** Equipped with a plastic no-leak tray for easy cleaning and hygiene.
- **Ramp Access:** Includes a ramp for easy movement between the two levels.

Holds  
**1-2**  
rabbits

## SPACIOUS LIVING AREA

Drop the divider  
to serve as two  
separate layers

2 Tiers for your pets to move freely and casually

## SETUP AND ASSEMBLY

Assembly of the PawHut Rabbit Hutch is required. Please follow the detailed instructions provided in the separate assembly guide included with your product.

### Important Assembly Notes:

- Do not attach the shocks for the lid to their brackets prior to installing them on the lid and cage. Once attached, they are difficult to remove and can complicate the installation process.
- Ensure all screws and fasteners are securely tightened, but do not overtighten to avoid damaging the wood.
- Assemble on a flat, stable surface to ensure proper alignment.

## OPERATING INSTRUCTIONS

### Accessing the Hutch:

- The hutch features multiple lockable doors on both levels for easy access to your pets.
- The top roof can be opened for full access to the upper compartment, useful for cleaning or interacting with pets.

### Feeding:

- Utilize the quick feeding trough located on the upper level for convenient feeding of hay or other dry foods.

## SUITABLE FOR VARIOUS SMALL ANIMALS

**Rabbits**

**Chickens**

**Ducks**

Figure 5: A close-up view of the internal divider, which can be dropped to separate the two levels, and the ramp for animal movement.

### Movement Between Levels:

- A ramp connects the upper and lower levels, allowing your rabbit to move freely between them.

Figure 6: A rabbit demonstrating the use of the internal ramp for easy access between the hutch's levels.

## MAINTENANCE AND CARE

---

### Cleaning:

- The hutch is equipped with plastic no-leak trays that can be easily pulled out for cleaning. This design prevents urine erosion and simplifies waste removal.
- Regularly clean the hutch to maintain a hygienic environment for your pets. Use pet-safe cleaning solutions.

## PLASTIC NO LEAK TRAY

No worry about the erosion of urine

Figure 7: The removable plastic no-leak tray designed for easy cleaning and maintenance of the hutch.

### Outdoor Use:

- While designed for outdoor use with an asphalt roof and painted fir wood, prolonged exposure to extreme weather conditions may affect its longevity. Consider additional protection during severe weather.

### TROUBLESHOOTING

Problem	Possible Cause	Solution
Difficulty with lid shocks during assembly	Shocks were attached to brackets before installation on hutch.	Ensure shocks are not attached to brackets until they are mounted to the lid and hutch frame. If already attached, carefully detach them before proceeding with installation.
Wood splitting during assembly	Overtightening screws or improper alignment.	Do not overtighten screws. Ensure parts are correctly aligned before fastening. If a pilot hole is too small, gently widen it slightly.

Problem	Possible Cause	Solution
Strong odor from new hutch	New product off-gassing from materials or paint.	Allow the hutch to air out in a well-ventilated area for several days before introducing pets. The odor should dissipate over time.
Trays not sliding smoothly	Debris in the tray runners or misalignment.	Check the tray runners for any debris and clear them. Ensure the hutch is on a level surface to prevent misalignment.

## SPECIFICATIONS

Feature	Detail
Model Number	D51-312
Overall Dimensions (L x W x H)	48" x 19.75" x 39.75" (121.92 cm x 50.17 cm x 100.97 cm)
