CARE AND MAINTENANCE

Proper care will extend the life and appearance of your garden bench.

- **Cleaning:** Wipe the bench with a dry cloth to remove dust and debris. For more stubborn dirt, use a damp cloth with mild soap and water, then dry thoroughly.
- **Rust Prevention:** The bench features a powder-coated, anti-rust surface. To maintain this protection, avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Seasonal Care:** While designed for outdoor use, storing the bench indoors or covering it during extreme weather conditions (heavy snow, prolonged rain) can help preserve its condition.
- **Inspection:** Periodically check all bolts and screws for tightness and re-tighten as necessary to ensure structural integrity.

- **Scratches on the surface:** Minor scratches can sometimes be touched up with outdoor-grade black paint suitable for metal. For deeper damage, contact customer support.
