## Aigital T825

# Aigital T825 Hands-Free Car Speakerphone User Manual

Model: T825

## IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the device. Keep this manual for future reference.

- **Initial Charge:** Charge the device for at least 5 hours before the first use to activate the battery.
- Do not expose the device to extreme temperatures, moisture, or direct sunlight.
- Do not attempt to disassemble or modify the device. This will void the warranty and may cause damage.
- Use only the provided USB cable for charging.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Aigital Bluetooth Car Speakerphone
- 1 x USB Charging Cable
- 1 x User Manual

## PACKAGE LIST:

Aigoss Wireless In-car Speakerphone \* 1

USB Cable \* 1

User Manual \* 1

## PRODUCT OVERVIEW

The Aigoss T825 is a hands-free Bluetooth car speakerphone designed to enhance driving safety by allowing you to manage calls and music without distraction. It features Bluetooth 5.0+EDR for stable connections, HD voice, noise cancellation technology, and a powerful 3-watt speaker for clear audio.

## SETUP

### 1. Charging the Device

Before first use, fully charge the speakerphone for at least 5 hours. Subsequent charges typically take 1-2 hours.

- Connect the provided USB charging cable to the Micro USB Charging Port on the speakerphone.
- Plug the other end of the USB cable into a USB power adapter (not included) or a car USB port.
- The indicator light will show charging status (refer to device for specific light behavior).

### 2. Mounting the Speakerphone

The T825 is designed to clip onto your car's sun visor for optimal microphone and speaker placement.

- Open the visor clip on the back of the speakerphone.
- Securely attach the speakerphone to your car's sun visor. Ensure it does not obstruct your view or interfere with driving controls.

### 3. Powering On/Off

- **To Power On:** Slide the ON/OFF switch to the 'ON' position. You will hear an audible confirmation.
- **To Power Off:** Slide the ON/OFF switch to the 'OFF' position.

### 4. Bluetooth Pairing

The speakerphone will automatically enter pairing mode when powered on for the first time or if no device is connected.

1. Ensure the speakerphone is powered on and within 10 meters (33 feet) of your mobile phone.
2. Enable Bluetooth on your mobile phone.
3. Search for available Bluetooth devices. The speakerphone will appear as "T825" or "Aigital T825".
4. Select "T825" to connect. You will hear a confirmation tone or voice prompt when successfully paired.

### 5. Dual Phone Connection

The T825 supports connecting two mobile phones simultaneously.

1. Pair the first phone as described above.
2. Once the first phone is connected, disable Bluetooth on the first phone temporarily.
3. Pair the second phone to the T825.

4. Re-enable Bluetooth on the first phone. Both phones should now be connected to the speakerphone.

## ***Multi-point Connection***

Connect two phones in the same car and have the option to take phone calls from either

#### 4. Volume Control

- **Increase Volume:** Press and hold the **>+ (Next) Button**.
- **Decrease Volume:** Press and hold the **<- (Previous) Button**.

#### 5. Language Switching

- To switch the voice prompt language, double-press the **M (Mode) Button**.

### MAINTENANCE

Proper care will ensure the longevity of your Aigital T825 speakerphone.

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the battery frequently. Charge the device when the low battery indicator is active.

### TROUBLESHOOTING

If you encounter issues with your Aigital T825, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device does not power on.	Battery is depleted; Power switch is off.	Charge the device for at least 5 hours initially, then 1-2 hours for subsequent charges. Ensure the ON/OFF switch is firmly in the 'ON' position.
Cannot pair with phone.	Bluetooth is off on phone; Device is too far; Device is already connected to another phone.	Ensure Bluetooth is enabled on your phone. Move the device closer to your phone (within 10m). Disconnect from other devices or restart the speakerphone.
Low or unclear audio.	Volume is too low; Speakerphone position; Environmental noise.	Increase the volume on both the speakerphone and your phone. Ensure the speakerphone is positioned correctly on the visor, facing you. The device has noise cancellation, but extreme noise may still affect clarity.
USB charging cable is hard to plug in.	Misalignment; New port stiffness.	Ensure the cable is oriented correctly. The port may be stiff initially; apply gentle, firm pressure. Do not force it.
Battery life is shorter than expected.	Frequent use; Age of battery; Not fully charged.	Ensure the device is fully charged before use. Battery performance may degrade over time. Reduce usage time if possible.
No low battery alert before shutting off.	Limited warning period.	The device provides a short warning (1-2 minutes of beeps) before shutting off. It is recommended to charge regularly, especially before long trips.

## SPECIFICATIONS

- Model Number:** T825
- Product Dimensions:** 2.36 x 1.57 x 4.33 inches
- Item Weight:** 4.2 ounces
- Batteries:** 1 Lithium Ion battery (included)
- Connectivity Technology:** Bluetooth 5.0 + EDR
- Power Source:** Battery Powered
- Material:** Plastic
- Speaker Output:** 3 Watts
- Talk Time:** Up to 22 hours
- Standby Time:** Up to 45 days
- Bluetooth Range:** Up to 10 meters (33 feet)
