WOOWOOD WOODY

WOOWOOD Cat Climbing Wall System WOODY Instruction Manual

Model: WOODY

1. Product Overview

The WOOWOOD Cat Climbing Wall System, Model WOODY, provides an elevated and engaging environment for your cat. This system includes a comfortable wall-mounted lounger and two steps, designed to promote activity and relaxation.

The components are crafted from sustainable wood and feature soft, removable fabric covers for comfort and easy maintenance. The system is designed to support cats weighing up to 35 kg.

3. Setup and Installation

The WOOWOOD Cat Climbing Wall System is designed for straightforward wall mounting. Follow these steps for secure installation:

1. **Select Location:** Choose a suitable wall location, considering your cat's access and preferred height. Ensure the wall material can support the weight of the system and your cat(s).
2. **Mark Drill Points:** Position the lounger and steps against the wall at your desired height and spacing. Use a pencil to mark the drilling points for the mounting screws. A level is recommended to ensure horizontal alignment.
3. **Drill Holes:** Using an appropriate drill bit for your wall type and the provided wall anchors, drill holes at the marked points.
4. **Insert Wall Anchors:** Insert the wall anchors into the drilled holes. Ensure they are flush with the wall surface. *Note: The provided wall anchors are suitable for many wall types. For plasterboard or specific wall materials, consider using specialized wall anchors for optimal security.*

5. **Mount Components:** Align the lounger and steps with the installed wall anchors. Insert the screws through the pre-drilled holes in the wooden components and tighten them into the wall anchors until secure. Do not overtighten.
6. **Verify Stability:** After installation, gently test the stability of each component to ensure it is firmly attached to the wall and can safely support your cat.

4. Operating Instructions

The WOOWOOD Cat Climbing Wall System is designed for your cat's enjoyment and activity. No specific 'operation' is required beyond proper installation.

- **Encourage Use:** Initially, you may need to encourage your cat to explore the new wall system. Use treats, toys, or catnip to entice them onto the steps and lounger.
- **Observe Behavior:** Monitor your cat's interaction with the system. The steps are designed to stimulate movement and promote balance, while the lounger offers a comfortable, elevated resting spot.
- **Weight Capacity:** The system is built to safely support up to 35 kg, making it suitable for an adult cat or two smaller cats.

5. Maintenance

Regular cleaning will ensure the longevity and hygiene of your cat's climbing wall system.

- **Cushion Cleaning:** The upholstered cushion covers on the lounger and steps are removable. Unzip the

covers and machine wash them according to the fabric care instructions (typically a gentle cycle with mild detergent). Allow to air dry completely before reattaching.

- **Wood Cleaning:** Wipe the wooden surfaces with a damp cloth to remove dust or dirt. Avoid using harsh chemicals or abrasive cleaners, which could damage the wood finish.
- **Periodic Inspection:** Periodically check all mounting screws and connections to ensure they remain tight and secure. Tighten any loose screws as needed.

6. Troubleshooting

If you encounter any issues with your WOOWOOD Cat Climbing Wall System, consider the following:

- **Cat Not Using the System:** Cats may need time to adjust to new furniture. Try placing familiar blankets or toys on the lounger, or use catnip to attract them. Ensure the system is installed in a location your cat feels safe and comfortable accessing.
- **Loose Components:** If any part of the system feels wobbly, re-check all mounting screws and tighten them. Ensure the wall anchors are appropriate for your wall type and securely installed.
- **Missing Parts:** If any parts were missing upon delivery, please contact the seller or manufacturer for assistance.

7. Specifications

Brand	WOOWOOD
Model Number	WOODY

Product Dimensions (Lounger)	50 cm (L) x 35 cm (W) x 29 cm (H)
Product Weight	Approximately 3.16 kg
