5. Operating Instructions

To operate your Bearhug Electric Heated Throw Blanket:

1. **Power On:** Press the power button on the controller to turn the blanket on. The display will illuminate.
2. **Adjust Heat Level:** Use the '+' and '-' buttons to cycle through the 6 available heating settings (90°F-108°F). The current heat level will be displayed.
3. **Automatic Shut-Off:** The blanket is pre-set to automatically turn off after 4 hours for safety.
4. **Power Off:** Press the power button again to turn the blanket off. Always unplug the blanket from the wall outlet when not in use.

6. Care and Maintenance

To ensure the longevity and performance of your heated blanket, follow these care instructions:

- **Machine Washable:** The blanket is machine washable. Always disconnect the controller cord from the blanket before washing.
- Wash with a gentle cycle using cold water.
- Do not dry clean.
- Do not bleach.
- **Drying:** Tumble dry on a low heat setting. Ensure the blanket is completely dry before reconnecting the controller or storing.

7. Troubleshooting

If you encounter issues with your heated blanket, consider the following:

- **No Heat:** Ensure the controller is securely connected to the blanket and the power cord is firmly plugged into a functional electrical outlet. Check if the outlet is receiving power.
- **Uneven Heat:** Verify that the blanket is laid flat and not bunched or folded excessively, which can impede even heat distribution.
- **Controller Malfunction:** If the controller display is not working or buttons are unresponsive, try unplugging the unit for a few minutes and then reconnecting it.

For persistent issues, please refer to the warranty and support section.
