Hot Wheels HDR83

Hot Wheels Action Super Loop Competition Track

INSTRUCTION MANUAL

Model: HDR83 | Brand: Hot Wheels

Product Overview

The Hot Wheels Action Super Loop Competition Track is designed for thrilling head-to-head racing. This set features multiple loops and launchers, allowing for dynamic play and competitive challenges. It encourages strategic launching and provides an exciting experience for Hot Wheels enthusiasts.

What's Included:

- 1 Hot Wheels Action Super Loop Competition Track Set
- 1 Hot Wheels Vehicle (colors and styles may vary)

Setup Instructions

Follow these steps to assemble your Hot Wheels Action Super Loop Competition Track:

1. **Unpack Components:** Carefully remove all track pieces, launchers, loops, and the vehicle from the packaging. Ensure all parts are present.
2. **Connect Track Sections:** Begin by connecting the straight track pieces to form the main racing lanes. Ensure the connectors click securely into place.
3. **Attach Launchers:** Securely attach the two slam launchers to the starting ends of the track lanes. Make sure they are firmly connected to allow for powerful car launches.
4. **Assemble Loops:** Construct the five loops (one giant loop and four smaller loops) according to the diagrams provided in the original packaging. Attach them to the designated points on the track.
5. **Integrate Scoring Flags:** Position the automatic scoring flags at the appropriate points within the smaller loops. These flags will lower as cars pass, indicating progress.

6. **Final Connections:** Ensure all track sections, loops, and launchers are securely connected and aligned. The assembled track measures approximately 2 meters (7 feet) in length.

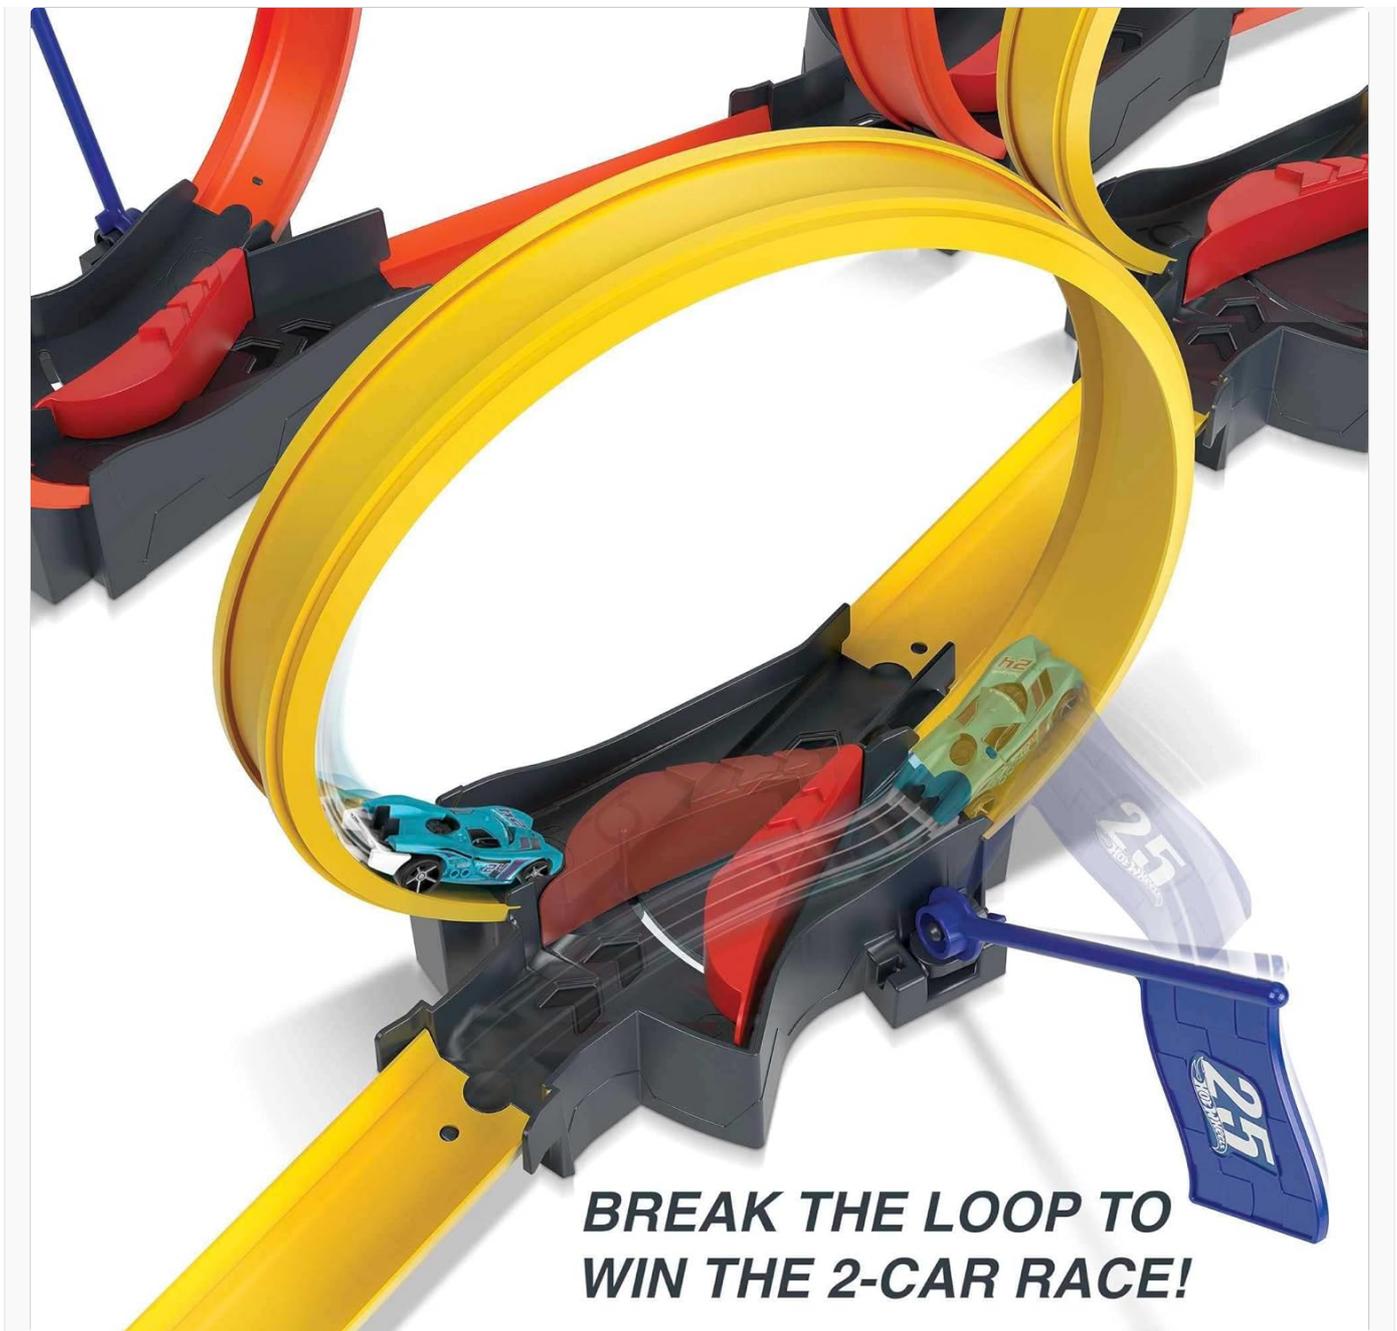

Image: A fully assembled Hot Wheels track demonstrating its impressive length of 2 meters (7 feet), highlighting the scale of the play area.

For optimal performance, ensure the track is set up on a flat, stable surface. This track can also be connected to other Hot Wheels sets (sold separately) to create larger, more complex layouts.

Operating Instructions

The Hot Wheels Action Super Loop Competition Track is designed for competitive play between two players. Here's how to operate it:

1. **Place Cars:** Position one Hot Wheels vehicle on each of the two starting launchers.
2. **Launch Cars:** Simultaneously press down on the slam launchers to propel the cars forward. Aim for maximum speed to navigate the loops.
3. **Race Through Loops:** The cars will race through a series of small loops. Each time a car successfully completes a small loop, the automatic flag will lower, indicating a point scored.
4. **Break the Loop to Win:** The ultimate goal is to be the first car to successfully pass through the large, final loop. This action will cause the large loop to break open, eliminating the opponent's car from the race and declaring you the winner.

***BREAK THE LOOP TO
WIN THE 2-CAR RACE!***

BREAK THE LOOP TO WIN THE 2-CAR RACE!

Image: A Hot Wheels car successfully navigating one of the track's loops, illustrating the dynamic movement during play.

Important Notes:

- Not all Hot Wheels vehicles are compatible with this track set. Use the included vehicle or other compatible Hot Wheels cars for best results.
- Ensure launchers are fully reset before each race for consistent performance.

Maintenance

To ensure the longevity and optimal performance of your Hot Wheels Action Super Loop Competition Track, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down all plastic track pieces and components with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic or decals.
- **Storage:** When not in use, disassemble the track and store it in its original box or a suitable container to protect it from dust and damage. Store in a cool, dry place away from direct sunlight.
- **Inspection:** Periodically inspect all track connectors, launchers, and loops for any signs of wear or damage. Replace any broken or worn parts to maintain safe and effective play.

Troubleshooting

If you encounter any issues with your Hot Wheels Action Super Loop Competition Track, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car does not complete loops or loses momentum.	Insufficient launch force; track not fully connected; incompatible vehicle; worn launcher mechanism.	Ensure launchers are pressed firmly and quickly. Check all track connections for secure fit. Use the included Hot Wheels vehicle or other compatible cars. If the launcher feels weak, inspect for damage.
Scoring flags do not lower.	Flag mechanism obstructed; car not passing correctly.	Check for any debris or misalignment around the flag mechanism. Ensure the car passes directly under the flag.
Track pieces disconnect during play.	Improper assembly; track not on a flat surface.	Ensure all track connectors are fully engaged and click into place. Set up the track on a completely flat and stable surface.

Specifications

Feature	Detail
Model Number	HDR83
Brand	Hot Wheels
Manufacturer	MATTEL
Material Type	Plastic
Number of Pieces	1 (set)
Number of Players	Two
Assembly Required	No (refers to not coming pre-assembled, but requires user assembly)
Battery Operated	No
Batteries Included	No batteries required
Product Dimensions	57.15 x 6.99 x 34.29 cm; 980 g (22.5 x 2.75 x 13.5 inches; 2.16 lbs)
Recommended Age	4 years and up

Warranty and Support

This product is manufactured by Mattel under the Hot Wheels brand. For any questions regarding product defects, missing parts, or general inquiries, please refer to the contact information provided on the product packaging or visit the official Hot Wheels website for customer support.

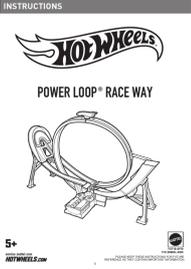

While specific warranty details are not provided in this manual, consumers are encouraged to retain their proof of purchase for any potential claims. Mattel is committed to providing quality products and support.
