Northpoint NP-TL

Northpoint NP-TL LED Desk Lamp User Manual

Model: NP-TL

INTRODUCTION

Thank you for purchasing the Northpoint NP-TL LED Desk Lamp. This modern and versatile desk lamp is designed to provide optimal lighting for your workspace while offering convenient features such as Qi wireless charging and an integrated display for time and temperature. Please read this manual carefully before use to ensure proper operation and to maximize the lifespan of your product.

SAFETY INSTRUCTIONS

- Ensure the power adapter is compatible with your local power supply before connecting.
- Do not disassemble, repair, or modify the lamp yourself. Contact qualified service personnel for assistance.
- Avoid placing the lamp in high-temperature, humid, or dusty environments.
- Keep the lamp away from water and other liquids.
- Do not look directly into the LED light source for extended periods to prevent eye strain.
- Unplug the lamp from the power outlet before cleaning or when not in use for a long time.
- This product is designed for indoor use only.

PACKAGE CONTENTS

Please check the package for the following items:

- Northpoint NP-TL LED Desk Lamp
- 12V Power Adapter
- User Manual

PRODUCT OVERVIEW

Familiarize yourself with the components of your Northpoint NP-TL LED Desk Lamp.

Image 1: Front view of the Northpoint NP-TL LED Desk Lamp, showing the adjustable light head, flexible arm, integrated display, and Qi wireless charging base with mood lighting.

Image 2: Side view of the Northpoint NP-TL LED Desk Lamp, highlighting the flexible arm design and the integrated display on the lamp's body.

Image 3: The Northpoint NP-TL LED Desk Lamp in a typical desk environment, demonstrating its compact size and ambient lighting capabilities.

- **Adjustable LED Head:** Provides directional lighting.
- **Flexible Arm:** Allows for easy positioning of the light.
- **Integrated Display:** Shows time, date, and ambient temperature.
- **Touch Control Panel:** For adjusting light settings and display functions.
- **Qi Wireless Charging Pad:** Located on the base for compatible devices.

- **Mood Light Base:** Provides ambient RGB lighting.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Position:** Place the lamp on a stable, flat surface.
3. **Connect Power:** Insert the DC plug of the 12V power adapter into the power input port on the back of the lamp base. Plug the adapter into a standard wall outlet.
4. **Initial Display Setup:** Upon first power-on, the display will illuminate. You may need to set the time and date using the touch controls (refer to "Operating Instructions - Display Settings").

OPERATING INSTRUCTIONS

Light Functions

- **Power On/Off:** Tap the **Power button** (🔌) on the touch control panel to turn the lamp on or off.
- **Brightness Adjustment (Dimmable):** While the lamp is on, press and hold the **Brightness button** (often represented by a sun icon or +/-) to smoothly adjust the light intensity. Release when the desired brightness is reached.
- **Color Temperature Adjustment:** Tap the **Mode/Color Temperature button** (often represented by a 'M' or color spectrum icon) to cycle through different color temperatures: Warm White, Neutral White, and Cool White.

Qi Wireless Charging

- Place your Qi-compatible smartphone or device directly onto the wireless charging pad located on the lamp's base.
- Ensure the device is centered on the charging pad for optimal charging.
- A charging indicator (if available on your device) will confirm that charging has begun.
- Remove any metallic objects or thick cases from your device that may interfere with wireless charging.

Integrated Display Settings (Time, Date, Temperature)

The integrated LCD displays time, date, and ambient temperature. Specific buttons for setting these functions are usually located near the display or on the touch panel.

- **Setting Time/Date:** Look for buttons labeled "SET", "MODE", or similar. Typically, you press "SET" to enter setting mode, then use arrow buttons or +/- to adjust values, and "SET" again to confirm and move to the next setting (e.g., hour, minute, year, month, day).
- **Temperature Display:** The lamp automatically detects and displays the ambient temperature. No manual setting is required for this function.

Mood Lighting

- The lamp features an integrated mood light base. Look for a dedicated **Mood Light button** (often a color wheel or RGB icon).
- Tap the button to cycle through different static colors or activate a color-changing mode.
- Press and hold the button to turn the mood light off.

MAINTENANCE

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** If storing the lamp for an extended period, unplug it and store it in a cool, dry place.
- **LED Light Source:** The LED light source is integrated and not user-replaceable.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	No power connection. Faulty power adapter.	Ensure the power adapter is securely plugged into both the lamp and the wall outlet. Try a different outlet. If the issue persists, contact customer support.
Wireless charging not working.	Device not Qi-compatible. Device not properly aligned. Obstruction (e.g., thick case, metallic object).	Verify your device supports Qi wireless charging. Reposition your device on the charging pad. Remove any cases or metallic objects.
Display shows incorrect time/date.	Time/date not set or reset after power interruption.	Refer to "Operating Instructions - Display Settings" to manually set the time and date.
Light flickers or is unstable.	Unstable power supply. Internal component issue.	Try plugging the lamp into a different power outlet. If the problem continues, discontinue use and contact customer support.

SPECIFICATIONS

Brand	Northpoint
