KAWADA NBPM_087

Nanoblock NBPM_087 Pokemon Hicosal Brilliant Shining Version Instruction Manual

Model: **NBPM_087** | Brand: **KAWADA**

1. Introduction

This manual provides detailed instructions for assembling the Nanoblock NBPM_087 Pokemon Hicosal Brilliant Shining Version building set. This special edition features new clear color parts with glitter, commemorating the release of Pokémon Brilliant Diamond Shining Pearl. The model accurately reproduces the character of Hikozaru, including its distinctive large ears, elongated limbs, and tail flames.
Please read all instructions carefully before beginning assembly to ensure a correct and enjoyable building experience.

2. Safety Information

WARNING: CHOKING HAZARD - Small Parts.
This product contains small parts and is **not suitable for children under 3 years old**. Adult supervision is recommended during assembly, especially for younger builders (recommended age 12 years and up).

- Keep all small parts away from infants and young children.
- Do not put blocks in mouth.
- Dispose of packaging materials properly.

3. What's in the Box

Upon opening the package, verify that all components are present:

- Nanoblock building blocks (approximately 150 pieces)
- Assembly instructions sheet

Image 3.1: The product packaging for the Nanoblock NBPM_087 Pokemon Hicosal Brilliant Shining Version. The package displays the assembled model, the product number NBPM_087, and indicates 150 pieces.

4. Setup (Pre-assembly)

1. **Unpack:** Carefully open the product packaging and remove all contents.
2. **Organize:** Spread the Nanoblock pieces on a clean, flat, and well-lit surface. It is recommended to sort the blocks by color and size to facilitate assembly.
3. **Review Instructions:** Familiarize yourself with the included assembly instructions sheet. Pay attention to the block types and connection methods.

5. Operating (Assembly Instructions)

Follow the step-by-step diagrams provided in the included assembly instructions sheet. Nanoblocks are miniature building blocks, requiring precision and careful handling.

- **Start from the Base:** Most Nanoblock models begin with a base layer. Ensure this foundation is stable before proceeding.
- **Layer by Layer:** Build the model layer by layer, carefully connecting each block as indicated in the diagrams.
- **Color and Shape Matching:** Pay close attention to the color and shape of the blocks shown in each step.
- **Secure Connections:** Press blocks firmly together to ensure a secure connection, but avoid excessive force that could damage the blocks.
- **Difficulty Level:** This model has a difficulty level of 2 (out of 5), indicating a moderate challenge suitable for experienced builders or patient beginners.

Image 5.2: The assembled Nanoblock Hicosal model resting in the palm of a hand, illustrating its small scale and intricate detail.

6. Maintenance

- **Cleaning:** To clean the assembled model or individual blocks, gently wipe them with a soft, dry cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or loose blocks in a cool, dry place away from direct sunlight to prevent discoloration or material degradation. Keep them in a container to prevent loss of small pieces.
- **Disassembly:** If disassembling, do so carefully to avoid damaging the connection points of the blocks.

7. Troubleshooting

- **Missing Pieces:** Double-check the packaging and your work area. Due to the small size of Nanoblocks, pieces can be easily overlooked. If a piece is genuinely missing, contact the manufacturer's customer support.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. If a block seems too tight, try rotating it or checking for any debris in the connection points.
- **Model Instability:** Re-examine previous steps to ensure all blocks are securely connected and placed according to the instructions. A loose connection in an earlier step can affect overall stability.

8. Specifications

Feature	Detail
Product Name	Nanoblock NBPM_087 Pokemon Hicosal Brilliant Shining Version

Feature	Detail
Model Number	NBPM_087
Brand	KAWADA
Number of Pieces	Approximately 150
Difficulty Level	2 (out of 5)
