The image displays the front of the Tracfone Motorola Moto g Pure smartphone, showcasing its 6.5-inch Max Vision HD+ display. The screen is active, showing the device's home screen with various application icons such as Contacts, Google, Weather, Moto, Maps, My Sites, Facebook, Duo, Play Store, and Google. The time '11:35 PM' is visible in the top left corner, and a Wi-Fi icon with a plus sign is in the top right, indicating a prompt to configure Wi-Fi. The phone has a teardrop notch at the top for the front camera.

3. Operating Your Device

3.1 Display and Navigation

The Moto g Pure features a 6.5-inch Max Vision HD+ display with a resolution of 1080 x 2340 pixels and a 60 Hz refresh rate. Navigate the device using touch gestures: tap to select, swipe to scroll, and pinch to zoom. The touchscreen provides an intuitive user experience.

3.2 Camera System

Equipped with a dual camera system, the Moto g Pure allows for versatile photography. The 13MP main camera with Phase Detection Autofocus (PDAF) ensures quick and clear captures. A dedicated depth sensor enables professional-looking portraits with a blurred background effect.

3.3 Performance and Battery

The device is powered by an octa-core processor with HyperEngine technology, providing responsive performance for daily tasks and light gaming. The 4000 mAh battery offers up to two days of usage on a single charge, depending on usage patterns.

3.4 Durability and Security

The Moto g Pure features a water-repellent design, offering protection against accidental spills and splashes. For security, the device includes a fingerprint sensor, allowing for quick and secure unlocking with a touch of your finger.

3.5 Connectivity

The phone supports Bluetooth for wireless accessory connection, Wi-Fi for internet access, and USB for charging and data transfer. It operates on the Tracfone wireless network, providing 5G cellular technology where available.

The image displays the back of the Tracfone Motorola Moto g Pure smartphone. The phone has a textured blue finish. In the upper left corner, there is a vertical camera module housing two lenses and an LED flash, labeled 'AI DUAL CAMERA'. Below the camera module, centrally located, is the iconic Motorola 'M' batwing logo, which also functions as the fingerprint sensor.

4. Maintenance

4.1 Cleaning Your Device

To clean your Moto g Pure, gently wipe the screen and body with a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner. Avoid using harsh chemicals or abrasive materials, as these can damage the device's finish.

4.2 Environmental Care

Protect your phone from extreme temperatures, direct sunlight, and excessive moisture. While the device is water-repellent, it is not waterproof. Do not submerge it in water or expose it to pressurized water.

5. Troubleshooting

If you encounter issues with your Moto g Pure, try the following basic troubleshooting steps:

- **Restart the Device:** A simple restart can often resolve minor software glitches.
- **Check Connections:** Ensure all cables (charger, USB) are securely connected.
- **Software Updates:** Check for and install any available system updates, as these often include bug fixes and performance improvements.
- **Factory Reset:** As a last resort, if issues persist, you may consider a factory reset.**Warning:** This will erase all data on your phone. Back up important information before proceeding.
