SOAR NFL-RSRX-CLTS

SOAR NFL Wired LED Gaming Headset and Stand User Manual

Model: NFL-RSRX-CLTS

1. INTRODUCTION

Thank you for choosing the SOAR NFL Wired LED Gaming Headset and Stand. This manual provides essential instructions for the proper setup, operation, and maintenance of your new gaming accessory. Please read this manual thoroughly before use to ensure optimal performance and longevity of the product.

Image 1: SOAR NFL Wired LED Gaming Headset and Stand.

This gaming headset features 360 stereo audio, a flexible boom microphone with noise dampening technology, and RGB color-changing LED lights. The accompanying stand includes two USB ports for added convenience. It is compatible with PlayStation, Xbox, PC, and Nintendo Switch.

2. PACKAGE CONTENTS

Please verify that all items listed below are present in your package:

- SOAR NFL Wired LED Gaming Headset
- 3-Piece Headset Stand (Base, Rod, Headset Rest)

3. SETUP

3.1 Assembling the Headset Stand

1. Carefully unpack all components of the stand.
2. Insert the rod into the designated slot on the stand's base. Ensure it is securely fitted.
3. Attach the headset rest to the top of the rod.

4. Place the assembled stand on a stable, flat surface.

3.2 Connecting the Headset

1. Connect the 3.5mm audio jack from the headset into the corresponding audio port on your gaming console controller, PC, or Nintendo Switch.

2. For the LED lights on both the headset and the stand, connect the USB cable from the headset stand to an available USB port on your gaming console, PC, or a USB power adapter. The headset's LED lights are powered via the stand's USB connection.

4. OPERATING INSTRUCTIONS

4.1 Adjusting the Headset

- **Headband:** Adjust the headband by sliding the earcups up or down until they rest comfortably over your ears.

- **Ear Pads:** The comfort foam ear pads are designed for extended wear. Ensure they fully cover your ears for optimal audio experience and comfort.

4.2 Using the Microphone

- **Boom Mic:** The flexible boom arm can be adjusted to position the microphone closer to your mouth for clear voice pickup.
- **Noise Dampening:** The microphone features noise dampening technology to reduce background noise during communication.

4.3 Volume Control

The headset includes an inline volume control. Locate the control on the headset cable and adjust the volume to your preferred level by rotating the dial or sliding the switch.

4.4 Stand USB Ports

The headset stand is equipped with two USB ports in its base. These ports can be used to charge other devices or connect additional peripherals.

5. MAINTENANCE

5.1 Cleaning

- Use a soft, dry cloth to wipe down the headset and stand.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the product's finish and components.
- Avoid getting moisture into the headset's earcups or the stand's USB ports.

5.2 Storage

When not in use, place the headset on its dedicated stand to keep it organized and protected from damage. Store the product in a cool, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter issues with your SOAR NFL Wired LED Gaming Headset and Stand, please refer to the following common solutions:

Problem	Possible Solution
No audio from headset	Ensure the 3.5mm audio jack is fully inserted into the device. Check the inline volume control on the headset cable and increase the volume. Verify your device's audio output settings are configured correctly. Test the headset with another device to rule out device-specific issues.
Microphone not working	Ensure the 3.5mm audio jack is fully inserted. Check your device's microphone input settings and ensure the headset is selected as the input device. Adjust the boom mic position closer to your mouth. Test the microphone with another application or device.
LED lights not illuminating	Ensure the USB cable from the headset stand is securely connected to a powered USB port. Try connecting the USB cable to a different USB port or power source.

Problem	Possible Solution
Stand USB ports not functioning	Ensure the stand's USB cable is connected to a powered USB port. Verify the device you are connecting to the stand's USB port is compatible and requires power.
