MAINTENANCE

To ensure the longevity of your building set:

- **Cleaning:** Wipe the building pieces with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or individual pieces in a clean, dry place away from direct sunlight and extreme temperatures to prevent warping or discoloration.
- **Handling:** Handle the assembled model with care to prevent pieces from detaching. Avoid dropping or applying excessive force.

TROUBLESHOOTING

If you encounter any issues during assembly or play, consider the following:

- **Pieces Not Fitting:** Ensure you are using the correct pieces as indicated in the instruction manual. Some pieces may require a firm but gentle push to connect properly. Do not force pieces together, as this can cause damage.
- **Missing Pieces:** Double-check the packaging and surrounding area for any small pieces that may have been overlooked. If a piece is genuinely missing, refer to the manufacturer's support information for assistance.
- **Model Instability:** If the assembled model feels unstable, review the assembly steps to ensure all connections are secure and no steps were missed. Pay close attention to the chassis and main structural components.
