HoneyGuaridan A56D-B

HoneyGuaridan 6L Automatic Cat Feeder User Manual

Brand: HoneyGuaridan | **Model:** A56D-B

1. PRODUCT OVERVIEW

The HoneyGuaridan 6L Automatic Cat Feeder is designed to provide convenient and consistent feeding for up to two pets. This pet food dispenser is suitable for both cats and dogs, featuring a desiccant box to keep food fresh, programmable timer for scheduled meals, and portion control capabilities. It offers dual power supply options and a voice recorder for personalized meal calls.

Figure 1: HoneyGuardian 6L Automatic Cat Feeder. This image shows the black feeder with a transparent food hopper and two stainless steel bowls.

Key Features:

- **Schedule Automatic Feeding:** Set 1-6 meals per day with up to 24 portions per meal. One portion is approximately 5g.
- **Feed Multiple Pets & Visible 6L Hopper:** Includes a 2-way splitter and two detachable stainless steel trays for simultaneous feeding. The 6L transparent hopper holds about 25 cups of dry food.
- **10s Customized Meal's Calling:** Record a 10-second voice message to call your pets at feeding times.
- **Dual Power Supply:** Operates via power adapter or 3 alkaline D-size batteries (not included) for uninterrupted feeding during power outages.

- **Ergonomic Operation Panel:** User-friendly control panel with anti-touch buttons and manual feeding option.
- **Easy to Clean:** Food hopper, food tray, tank base, and food bowls are removable and top-rack dishwasher safe (conveyor system requires hand washing).

2. SAFETY INSTRUCTIONS

- Read all instructions carefully before operating the feeder.
- Keep the feeder away from children and pets when not in use or during maintenance.
- Use only the provided power adapter or specified D-size alkaline batteries.
- Ensure the feeder is placed on a stable, level surface.
- This feeder is designed for dry food only. Do not use wet, canned, or moist food.
- The dry food kibble size should be between 0.19" (0.5cm) and 0.47" (1.2cm) in diameter to prevent clogging.
- Do not immerse the main unit in water or any other liquid.
- Always unplug the feeder before cleaning or performing maintenance.
- Keep the desiccant box dry and replace the desiccant regularly to maintain food freshness.

3. SETUP GUIDE

3.1 Unboxing and Components

Carefully remove all components from the packaging. Ensure all parts are present before proceeding with assembly.

Your browser does not support the video tag.

Video 1: Official product video demonstrating the automatic cat feeder. This video provides a general overview of the feeder's features and operation.

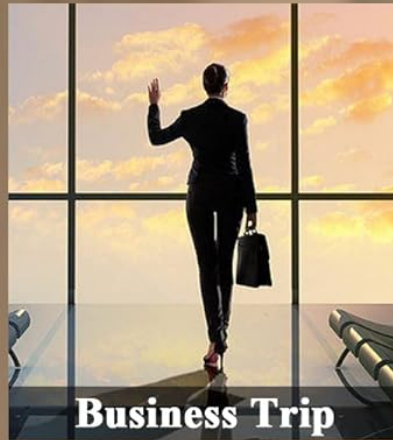

3.2 Powering the Feeder

The feeder supports dual power supply for reliability.

- **Power Adapter:** Connect the provided power adapter to the feeder and a wall outlet.
- **Battery Backup:** For power outage protection, insert 3 alkaline D-size batteries (not included) into the battery compartment at the bottom of the unit. It is recommended to use both power sources simultaneously.

Customized 10s Meal Call

Record Your Personal Voice & Call You Pets Come to Eat
Disable Speaker: Press the microphone button 2 times

 /  : Baby, time to eat!

Figure 2: Dual Power Supply. This image illustrates how to connect the power adapter and install D-size batteries for backup power.

3.3 Assembly and Initial Fill

1. Attach the two stainless steel bowls to the base of the feeder. The 2-way splitter should be in place for dual feeding.
2. Open the top lid of the food hopper.
3. Pour dry pet food into the 6L transparent hopper. Ensure the kibble size is appropriate (0.19"-0.47").
4. Close the lid securely, ensuring the desiccant box is properly placed to keep food fresh.

6L Large Capacity & 2 in 1 Use

① ≈2.2kg Dry Food
(varies by kibble size)

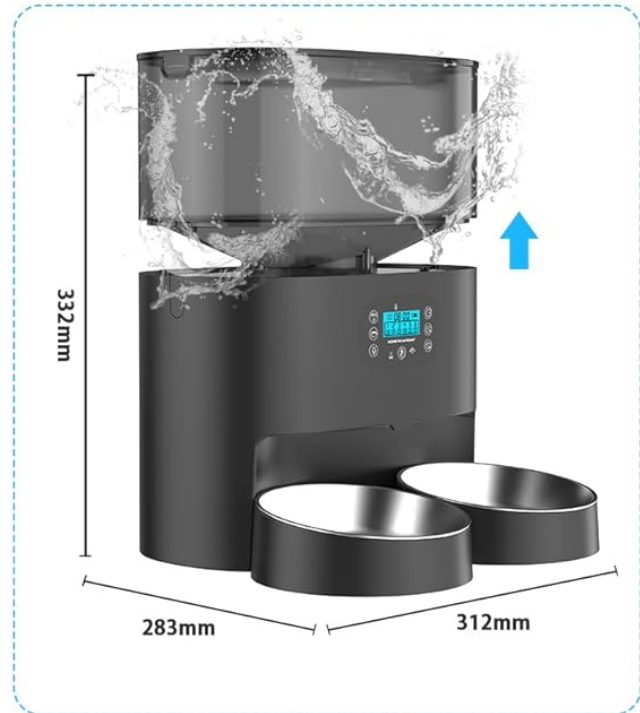

Cats
28 Days

Small &
Medium Dogs
12 Days

② The entire food container
can be easily removed for
regular cleaning.

③ Super Easy to be Switched
Between 2 Bowls and 1 Bowl

Take down the two-way splitter, it becomes a usual feeder for one pet.

4. OPERATING INSTRUCTIONS

4.1 Setting Up Feeding Schedule

The ergonomic control panel allows for easy programming of meal times and portions.

Figure 4: Digital LED Screen and Ergonomic Design. This image highlights the user-friendly control panel and digital display for programming.

1. **Set Current Time:** Use the clock icon button to adjust the current time on the display.
2. **Program Meals:** Press the "MEAL" button to cycle through meal numbers (1-6). For each meal, use the time setting buttons to set the desired feeding time.
3. **Set Portions:** After selecting a meal time, press the "Portion" button (bowl icon) to adjust the number of portions (1-24) for that specific meal. One portion is approximately 5g.

4. Repeat for all desired meals. The feeder will automatically follow the programmed schedule daily.

Automaticly Feed Your Pets on Schedule

1-6 Meals per Day

0-24 Portions per Meal

1 Portion \approx 6g

Figure 5: Scheduled Automatic Feeding. This image visually explains the timed feeding capabilities, including meal frequency and portion control.

4.2 Customized Meal Call

Record a personalized 10-second voice message to call your pets at feeding times.

1. Press and hold the "MIC" button (microphone icon) until the indicator light turns on.
2. Record your message. Release the button when finished.
3. The recorded message will play at each scheduled feeding. You can disable the sound by pressing the "MIC" button twice.

Figure 6: Customized 10s Meal Call. This image illustrates the benefit of recording a voice message to call pets for meals, useful for owners who are working, traveling, or on a business trip.

4.3 Manual Feeding

To dispense food manually at any time, simply press the manual feed button on the control panel. This will dispense one portion of food.

5. MAINTENANCE

5.1 Cleaning the Feeder

Regular cleaning ensures hygiene and proper functioning of the feeder.

- The food hopper, food trays, and tank base are completely removable and can be placed on the top-rack of a dishwasher for easy cleaning.
- The conveyor system should be hand washed separately.
- Ensure all parts are completely dry before reassembling the feeder.

5.2 Desiccant Box

The built-in desiccant box helps keep the dry food crunchy, flavorful, and secure from moisture. Replace the desiccant regularly as needed.

6. TROUBLESHOOTING

If you encounter any issues with your HoneyGuardan Automatic Cat Feeder, please refer to the common troubleshooting tips below. For more detailed assistance, contact customer support.

Problem	Possible Cause	Solution
Food not dispensing.	Hopper empty, kibble too large, food jammed, power issue.	Refill hopper. Check kibble size. Clear any obstructions. Ensure power adapter is connected or batteries are installed and charged.
Feeder not powering on.	No power, dead batteries.	Check power adapter connection. Replace D-size batteries.
Voice recording not playing.	Recording not saved, speaker disabled.	Re-record message ensuring proper saving. Press MIC button twice to enable speaker.
Uneven food distribution.	Kibble shape/size, minor variations.	Ensure the splitter is correctly installed. Pets will typically share or switch bowls.
