Woibugee Single Din 10.1" Android Car Stereo

Woibugee Single Din 10.1" Android Car Stereo User Manual

Model: Single Din 10.1" Android Car Stereo | Brand: Woibugee

INTRODUCTION

Thank you for choosing the Woibugee Single Din 10.1" Android Car Stereo. This advanced car multimedia system is designed to enhance your driving experience with features like Apple CarPlay, Android Auto, GPS navigation, and a high-definition adjustable touchscreen. This manual provides detailed instructions for installation, operation, and maintenance to ensure you get the most out of your device.

WHAT'S IN THE BOX

- 1 * Single Din Car Stereo
- USB Cable (1*4pin + 1*6pin)
- 1 * Video Input Cable + 1 * RCA Cable
- 1 * Bracket Set (screws included)
- 1 * GPS Antenna

SETUP AND INSTALLATION

Detachable Screen Installation

The 10.1-inch touchscreen panel is detachable and adjustable for optimal viewing and security. Follow these steps to detach or attach the screen:

1. To detach, pull the two clips on both sides of the screen.
2. Move the screen up to take it off.
3. Press the clips (A&B) toward the center and unplug the cable.
4. Reattach by reversing these steps, ensuring the LCD wire is securely connected.

Wiring and Vehicle Fit

The single din unit is designed to fit most standard single-din dashboard openings. Ensure you check your OEM car radio size before purchase. Some vehicles may require additional wiring harnesses, frame dash kits, or radio antenna adapters for proper fitment. Always disconnect the negative battery terminal before beginning installation.

OPERATING INSTRUCTIONS

Basic UI Navigation and App Management

The stereo features a user-friendly interface. You can customize the home screen and manage applications. To change the home screen UI, navigate to Settings > Factory > 3368 > Home Launcher Selection. To change app positions, drag the app icon to the top of the screen, then drag your desired app to the empty position. Note: Only UI12 and UI06 support app changing.

Video: Demonstrates how to change the UI home screen, manage apps, switch KM/H to MPH, and mute the stereo.

Apple CarPlay and Android Auto

Connect your smartphone to access Apple CarPlay or Android Auto. This allows you to use navigation, music, calls, and other apps directly from the stereo's touchscreen. The system supports both wired and wireless connections.

Video: Demonstrates the wireless Android Auto connection process with the 10-inch car stereo.

GPS Navigation

Utilize the built-in GPS navigation system for accurate directions. The Android system allows you to install various navigation apps like Google Maps, Waze, and TomTom from the Google Play Store.

Audio and DSP Settings

The stereo features a Digital Sound Processor (DSP) with 15-band EQ, allowing you to fine-tune the audio output for an optimal listening experience. Adjust settings for field, surround, stereo sound enhancement, bass enhancement, and sound filter.

Steering Wheel Control (SWC)

The unit supports steering wheel controls, allowing you to manage audio playback, calls, and other functions without taking your hands off the wheel. Configuration may be required in the settings menu.

Camera Features (Front & Rear)

The stereo supports both front and rear view cameras, including a live rear view function that displays the real-time rear status even when the vehicle is moving forward. This enhances safety by providing a wider view and helping to identify obstacles and blind spots.

Bluetooth Connectivity

Connect your phone via Bluetooth for hands-free calling and audio streaming. The stereo features dual microphones (internal + external) for super clear voice quality during calls.

Image: Explains the dual microphone system for enhanced Bluetooth call quality.

Mute Function

To mute the stereo, press the power button for approximately 1 second. The stereo will enter mute status. Short press the power button again to unmute.

Changing KM/H to MPH

On the main display, long press the KM/H indicator for 3 seconds. It will automatically change to MPH.

MAINTENANCE

To ensure the longevity and optimal performance of your car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the screen and unit. For stubborn smudges on the screen, a slightly damp, lint-free cloth can be used. Avoid abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Moisture:** Keep the unit dry. Do not expose it to water or excessive humidity.
- **Detachable Screen Care:** When detaching the screen, handle it carefully to avoid scratches or damage to the connectors. Store it in a safe place when not in use.

TROUBLESHOOTING

If you encounter issues with your Woibugee car stereo, consider the following common solutions:

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Sound:** Verify speaker connections. Check volume levels and mute status. Ensure DSP settings are not configured to output no sound.
- **Bluetooth Connectivity Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Make sure your phone's Bluetooth page is open during pairing. Try unpairing and re-pairing the device.
- **CarPlay/Android Auto Not Connecting:** Ensure your phone's operating system is up to date. Try connecting with a different USB cable. For wireless connections, ensure Wi-Fi and Bluetooth are enabled.
- **Screen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (consult the system settings for this option, noting it will erase user data).
- **Radio Static:** Check the antenna connection. Ensure you are in an area with good signal reception.

For persistent issues, please refer to the detailed troubleshooting guide available as a PDF document or contact customer support.

SPECIFICATIONS

Feature	Specification
Product Dimensions	12 x 8 x 7 inches
Item Weight	5.61 pounds
Screen Size	10 Inches (10.1" QLED 1280*720)
