KEY FEATURES

- **Long-Lasting Results:** Create salon quality bouncy curls, with this 1 inch Curling Iron.
- **Multiple Temperatures:** Personalize your look with 26 digital heat levels up to 455°F, and style worry-free with 2-hour auto shut-off. Effortless styling with temperature recall.
- **Versatile Styling:** 5-Inch Long Black Gold barrel helps to style longer lengths for the ultimate high-gloss finish with less frizz.
- **All Hair Types:** Variable heat settings (up to 455°F) with Premium Black Gold technology, inspired by the even heat of 24K Gold with a Micro-Shine finish, to help create long lasting curls with more defined results.
- **Easy Storage:** Hot Tools Curling Iron has a foldaway safety stand and universal dual voltage for easy travel. Soft Touch finish for a comfortable grip. 9ft professional swivel cord.
- **Stylists-Preferred:** Professionals' #1 Most Trusted & Recommended Hair Tools Brand.*

Figure 2: Key features of the Hot Tools Pro Artist Black Gold Curling Iron, including the Black Gold styling surface, large easy-to-use thumb grip, extra-long cool tip, illuminated accent ring, and 9ft professional swivel cord.

SETUP AND INITIAL USE

1. **Unpack:** Carefully remove the curling iron from its packaging. Ensure all components are present.
2. **Power Connection:** Plug the 9ft professional swivel cord into a suitable electrical outlet. The curling iron features universal dual voltage for travel convenience.
3. **Power On:** Press the power button to turn on the device. The digital display will illuminate.
4. **Set Temperature:** Twist the temperature control ring located near the cord to select your desired heat setting. The digital readout will show the temperature, which can be adjusted through 26 variable heat levels up to 455°F.
5. **Lock Temperature:** To prevent accidental temperature changes during styling, press the lock button located on the side of the handle. An indicator light will confirm the lock is engaged.
6. **Heat-Up:** Allow approximately 30 seconds for the curling iron to reach the set temperature. The illuminated accent ring will blink until the desired temperature is reached.

Figure 3: The digital readout displays 26 variable heat settings, allowing precise temperature control up to 455°F for all hair types.

OPERATING INSTRUCTIONS

For optimal results and to create long-lasting, beautiful defined curls, follow these steps:

1. **Prepare Hair:** Ensure hair is clean, dry, and detangled. For best results, apply a heat protectant spray.
2. **Section Hair:** Divide your hair into manageable sections, typically 1-2 inches wide, depending on the desired curl size.
3. **Position Iron:** Open the clamp and place the section of hair between the barrel and the clamp, starting near the roots or mid-shaft.

4. **Wrap Hair:** Close the clamp and gently wrap the hair around the Black Gold barrel, away from your face. The 5-inch long barrel is ideal for styling longer lengths.
5. **Hold and Release:** Hold the curling iron in place for a few seconds (duration depends on hair type and desired curl intensity). Release the clamp and gently slide the curling iron out, allowing the curl to fall naturally.
6. **Cool and Style:** Allow curls to cool completely before touching or styling to set the curl and ensure long-lasting results.
7. **Auto Shut-Off:** The curling iron features a 2-hour auto shut-off for safety and peace of mind.

MAINTENANCE AND CARE

- **Cleaning:** Ensure the curling iron is unplugged and completely cool before cleaning. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the curling iron in a cool, dry place. Utilize the foldaway safety stand to protect surfaces and the barrel when not in use or during cooling.
- **Cord Care:** Do not wrap the cord tightly around the curling iron, as this can damage the cord. Store the 9ft professional swivel cord loosely.

Figure 5: Proper storage and care of the curling iron helps maintain its performance and longevity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Curling iron does not heat up.	Not plugged in correctly, power button not pressed, or power outlet issue.	Ensure the cord is fully plugged into a working outlet. Press and hold the power button until the digital display illuminates. Check the circuit breaker if other devices are also not working.
Temperature changes unexpectedly.	Temperature lock not engaged or accidentally disengaged.	Press the lock button on the side of the handle to engage the temperature lock. Ensure the lock indicator light is on.

Problem	Possible Cause	Solution
Hair snags or pulls during styling.	Hair is not fully detangled, or too much hair is in one section.	Ensure hair is thoroughly brushed and free of tangles before curling. Use smaller sections of hair for smoother gliding.
Curls do not hold.	Temperature too low, hair not held long enough, or curls not allowed to cool.	Increase the temperature setting. Hold hair on the barrel for a longer duration. Allow curls to cool completely before brushing or styling.
