Evajoy Electric Heating Pad

USER MANUAL

1. Introduction

Thank you for choosing the Evajoy Electric Heating Pad. This extra-large heating pad is designed to provide soothing heat therapy for various body parts, including the neck, shoulders, spine, and legs. With its comfortable flannel surface, multiple heat settings, and safety features, it offers targeted pain relief and relaxation. Please read this manual thoroughly before use to ensure safe and optimal operation.

2. Important Safety Information

Please adhere to the following safety guidelines to prevent injury or damage to the product:

- Always unplug the heating pad before use and after it has reached the desired temperature.
- Do not leave the heating pad unattended while in use.
- Keep the heating pad away from flammable materials.
- Allow the heating pad to cool down completely before storing.
- Do not use the heating pad if the cord is damaged.
- Keep the heating pad out of reach of children and pets.
- Consult a doctor before use if you are pregnant, have a medical condition, or are using medication that increases body temperature.
- Always follow the manufacturer's instructions for use and care.

The Evajoy heating pad is ETL certified and includes overheating protection and constant temperature protection for your safety.

4. Package Contents

Please check the package for the following items:

- Evajoy Electric Heating Pad (1 unit)
- Controller with power cord (1 unit)
- User Manual (this document)

5. Setup

1. Unfold the heating pad completely and lay it flat.
2. Connect the controller's plug securely into the heating pad's receptacle. Ensure a firm connection.
3. Plug the power cord into a standard electrical outlet (120V AC).
4. Position the heating pad on your body, ensuring the weighted edges and collar are comfortably placed around your neck and shoulders. Use the detachable belt to secure it around your waist if desired.

Easy Wear Design

6. Operating Instructions

1. **Power On:** Press the power button on the controller to turn on the heating pad. The digital display will illuminate.
2. **Adjust Temperature:** Use the temperature adjustment buttons (up/down arrows) on the controller to select your

desired heat level from 1 to 6. The selected level will be displayed.

3. **Auto-Off Timer:** The heating pad is equipped with a 2-hour auto-off timer for safety and energy saving. It will automatically shut off after 2 hours of continuous use. You can restart it by pressing the power button again.
4. **Power Off:** Press the power button again to turn off the heating pad. Always unplug the unit from the wall outlet when not in use.

7. Maintenance and Care

Proper care will extend the life of your heating pad:

- **Cleaning:** The heating pad is machine washable. Before washing, ensure the control panel is detached from the pad.
- **Washing Instructions:** Select a gentle cycle and use mild detergents. Wash at a maximum temperature of 40°C (104°F).
- **Drying:** Air dry the heating pad completely before reattaching the controller or storing. Do not tumble dry or iron.
- **Storage:** Store the heating pad in a cool, dry place, away from direct sunlight and excessive heat. Ensure it is completely dry before folding and storing.

8. Troubleshooting

Problem	Possible Cause	Solution
Heating pad does not turn on.	Not plugged in correctly; power outlet issue; controller not connected.	Ensure all connections are secure. Try a different power outlet.
Heating pad is not heating.	Temperature setting too low; auto-off timer activated; internal fault.	Increase temperature setting. If auto-off, restart the pad. If problem persists, contact customer support.
Pad feels too hot or unevenly heated.	Incorrect temperature setting; pad is folded or bunched up.	Lower the temperature setting. Ensure the pad is laid flat and not folded during use.
