erjigo KZ-AZ10 Bluetooth 5.2 Wireless Earhooks User Manual

Model: KZ-AZ10 | Brand: erjigo

1. INTRODUCTION

Thank you for choosing the erjigo KZ-AZ10 Bluetooth 5.2 Wireless Earhooks. This product is designed to convert your compatible 0.75mm/0.78mm 2PIN connector in-ear monitors (IEMs) into true wireless earbuds, offering enhanced mobility and a high-fidelity audio experience. Please read this manual thoroughly before use to ensure proper operation and to maximize the product's lifespan.

2. SAFETY INFORMATION

- Do not expose the device to extreme temperatures, humidity, or corrosive environments.
- Avoid dropping or subjecting the device to strong impacts.
- Keep the device away from water and other liquids. This product is not water-resistant.
- Do not attempt to disassemble or modify the device. This may void the warranty and cause damage.
- Use only the provided charging cable and a compatible 5V-1A power adapter for charging.
- Dispose of batteries and electronic components responsibly according to local regulations.

3. PACKAGE CONTENTS

Please check the package for the following items:

- erjigo KZ-AZ10 Wireless Earhooks (Left and Right)
- Wireless Charging Case
- USB Type-C Charging Cable
- User Manual (This document)

4. SETUP

4.1 Attaching to In-Ear Monitors (IEMs)

The KZ-AZ10 earhooks are compatible with IEMs featuring standard 0.75mm or 0.78mm 2PIN connectors. Carefully align the pins on the earhooks with the sockets on your IEMs and push them together until securely connected. Ensure the left earhook is connected to the left IEM and the right earhook to the right IEM.

Full power mode:

Press the left earhooks button three times to turn on the full power mode. Turn on the full power mode to improve sound quality and better bass performance.

High performance mode:

Press the right earhooks button three times to turn on the game mode. Turn on the game mode, the delay is as low as 40ms, bringing a better gaming experience.

Spatial audio:

After opening the game mode, press the right earhooks three times. Simulate the multi-channel sound effects of a cinema to create a strong sense of space.

4.2 Initial Charging

Before first use, fully charge the earhooks and the charging case.

1. Place the earhooks into the charging case. Ensure the charging contacts align properly.
2. Connect the USB Type-C charging cable to the charging port on the case and the other end to a 5V-1A USB power source.
3. The indicator light on the charging case will illuminate to show charging status. A full charge typically takes approximately 2.5 minutes for the earhooks and longer for the case.

4.3 Bluetooth Pairing

The KZ-AZ10 earhooks feature Bluetooth 5.2 for stable and efficient wireless connection.

1. Open the charging case. The earhooks will automatically power on and enter pairing mode.
2. On your device (smartphone, tablet, etc.), go to Bluetooth settings and enable Bluetooth.
3. Search for available devices and select "KZ-AZ10" from the list.
4. Once connected, you will hear a confirmation tone, and the earhooks will be ready for use.
5. The earhooks support dual hosts, allowing for single or dual ear use, and will automatically reconnect to the last paired device when removed from the case.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

- **Power On:** The earhooks automatically power on when removed from the charging case.
- **Power Off:** Place the earhooks back into the charging case to automatically power them off and begin charging.

5.2 Basic Controls (via App Control)

The KZ-AZ10 earhooks support app control for various functions. Please refer to the dedicated application for detailed control options such as volume adjustment, track skipping, and call management. The earhooks also feature a microphone for communication.

5.3 Performance Modes

The KZ-AZ10 offers three distinct performance modes to optimize your audio experience:

- **Full Power Mode:** Press the left earhook's button three times to activate this mode. It enhances sound quality and bass performance for a richer audio experience.

- **High Performance Mode (Game Mode):** Press the right earhook's button three times to enter game mode. This mode reduces audio delay to as low as 40ms, providing a more synchronized gaming experience.
- **Spatial Audio:** After activating game mode, press the right earhook's button three additional times to enable spatial audio. This feature simulates multi-channel sound effects, creating an immersive sense of space.

6. CHARGING

The KZ-AZ10 earhooks and charging case provide extended listening time.

- **Earhook Battery Life:** Approximately 6 hours on a single charge.
- **Charging Case Capacity:** 800mAh, providing approximately 9 full charges for the earhooks.
- **Total Battery Life:** Up to 54 hours with the charging case.
- **Charging Time:** Earhooks charge quickly within the case (approx. 2.5 minutes for a full charge). The case itself takes longer to charge.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the earhooks and charging case. Do not use harsh chemicals or abrasive materials.
- **Charging Contacts:** Regularly inspect and gently clean the charging contacts on both the earhooks and the case to ensure proper connection and charging.
- **Storage:** When not in use for extended periods, store the earhooks in their charging case in a cool, dry place. Charge the device periodically to maintain battery health.

8. TROUBLESHOOTING

Problem	Possible Solution
Earhooks not powering on.	Ensure the earhooks are charged. Place them in the charging case and connect the case to power.
Cannot pair with device.	Ensure Bluetooth is enabled on your device. Make sure the earhooks are in pairing mode (removed from case). Forget "KZ-AZ10" from your device's Bluetooth list and try pairing again. Ensure no other devices are connected to the earhooks.
Only one earhook has sound.	Place both earhooks back into the charging case, close the lid, then open it again to reset the connection. Check your device's audio balance settings.
Earhooks not charging.	Ensure the charging cable is securely connected to both the case and the power source. Clean the charging contacts on the earhooks and inside the case. Try a different charging cable or power adapter.
Poor sound quality or static.	Ensure the earhooks are within the Bluetooth range (up to 15 meters) of your device. Reduce interference by moving away from other wireless devices. Check the connection between the earhooks and your IEMs.

9. SPECIFICATIONS

Model Name	KZ-AZ10
Bluetooth Version	V5.2
Charging Port	TYPE-C
Transmission Distance	Approximately 15 meters
Earhook Battery Life	Approximately 6 hours
Earhook Battery Capacity	50mAh (each)
Charging Case Battery Capacity	800mAh
Charges from Case	Approximately 9 times
Total Battery Life (with case)	Up to 54 hours
Charging Time (Earhooks)	Approx. 2.5 minutes (in case)
Compatible IEM Connectors	Standard 0.75mm/0.78mm 2PIN
Control Type	App Control
Special Features	Microphone Included, Wireless, Three Performance Modes (Full Power, Game, Spatial Audio), Dual Hosts
Manufacturer	Shenzhen Yuanze Electronic Co., Ltd
