Endless Summer GAD19110ES

Endless Summer Hayden Gray 38" Square Dual Heat Gas Fire Pit Instruction Manual

Model: GAD19110ES

INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Endless Summer Hayden Gray 38" Square Dual Heat Gas Fire Pit (Model GAD19110ES). Please read all instructions carefully before assembly and use.

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these instructions may result in fire, explosion, or burn hazard, which could cause property damage, personal injury, or death.

- Keep away from combustible materials.
- Ensure proper ventilation.
- Never leave unattended.
- Store fuel source separately when not in use.
- Always follow manufacturer's instructions for safe operation and maintenance.
- For outdoor use only.
- Do not use for cooking unless specifically designed for it.
- Keep children and pets away from the fire pit.

PRODUCT OVERVIEW & FEATURES

The Endless Summer Hayden Gray 38" Square Dual Heat Gas Fire Pit is designed to provide both ambient flame and functional warmth. It features a cement resin mantel with a UV printed multi-gray wood-look finish, a stainless steel fire bowl, and a stamped steel base. The unique DualHeat technology offers both a top burner for flames and an additional infrared heater for warmth.

- **UV Printed Multi-Gray Wood Look Mantel:** Durable and stylish finish.

- **DualHeat Technology:** Combines a 30,000 BTU top burner for flame and an 11,000 BTU infrared heater for full body warmth.
- **Hidden Control Panel:** Discreetly located for easy access and aesthetic appeal.
- **Hidden Propane Tank Storage:** Accommodates a standard LP gas cylinder (not included).
- **Table Insert:** Allows conversion from fire pit to a full table surface.
- **Decorative Fire Glass:** Included for enhanced visual appeal.
- **Protective Cover:** Included to shield the fire pit from elements when not in use.
- **Adjustable Feet:** For stability on uneven surfaces.

ENDLESS  SUMMER

DUALHEAT
FIRE PIT + PATIO HEATER

Image: Illustration of the four versatile ways to enjoy your fire pit: as a combined fire pit and patio heater, fire pit only, patio

heater only, or as a table.

**THE ONLY
FIRE PIT THAT
HEATS YOU
FROM HEAD
TO TOE**

DualHeat's utility patent means it's the only fire pit with a built-in patio heater that keeps you warm all over as you enjoy the ambiance of the flickering fire.

TRADITIONAL GAS FIRE PIT + PATIO HEATER = DUALHEAT GAS FIRE PIT

 **LP GAS POWERED**
Propane tank not included.

 **EASY ASSEMBLY**
Fully assembled mantel and control box.

 **41,000 TOTAL BTUs**
30,000 BTU burner plus 11,000 BTU infrared heater

4 WAYS TO ENJOY

SETUP

1. Unpacking and Assembly

The fire pit features a fully assembled mantel and control box, simplifying the setup process. Carefully remove all components from the packaging.

2. Propane Tank Connection

1. Locate the access door on the side of the fire pit. Open the door to reveal the propane tank compartment.
2. Place a standard 20 lb LP gas cylinder (not included) into the compartment.
3. Connect the regulator hose from the fire pit to the propane tank valve. Ensure a tight and secure connection.
4. Close the access door.

Image: Illustration of how to access and connect the propane tank within the fire pit's hidden compartment.

3. Leveling

The fire pit is equipped with adjustable feet. Adjust each foot as necessary to ensure the unit is stable and level on your patio surface.

OPERATING INSTRUCTIONS

1. Lighting the Main Burner (Fire Pit)

1. Ensure the control knob is in the "OFF" position.
2. Slowly open the LP gas cylinder valve completely.
3. Push and turn the control knob counter-clockwise to "LOW".
4. Press the igniter button repeatedly until the burner lights.
5. If ignition does NOT occur within 5 seconds, turn the control knob to "OFF", wait 5 minutes, then repeat the lighting procedure.
6. Adjust the flame to your desired height by turning the control knob.

2. Activating the Infrared Heater (Side Heater)

The infrared heater is controlled separately from the main burner. Refer to the specific controls on the unit for its operation. Typically, it involves a similar push-and-turn mechanism to ignite and adjust the heat output.

Image: Close-up of the control panel, showing the knob for adjusting the flame intensity.

Image: A hand demonstrating the location of the infrared side heater, providing additional warmth.

3. Turning Off

1. Turn the control knob(s) to the "OFF" position.
2. Close the LP gas cylinder valve completely.
3. Allow the fire pit to cool completely before handling or covering.

MAINTENANCE

1. Cleaning

- Regularly inspect the fire pit for debris or blockages.
- Clean the exterior surfaces with a mild soap and water solution. Avoid abrasive cleaners.
- Periodically clean the decorative fire glass to maintain its luster.

2. Storage & Protection

- When not in use, especially during inclement weather or off-season, cover the fire pit with the provided protective cover.
- If storing indoors, ensure the propane tank is disconnected and stored outdoors in a well-ventilated area.

FEATURES

HIDE-AWAY TABLE INSERT*

This unique feature provides the perfect place to store your table insert when transitioning from table to fire pit. Simply slide it into the hooks on the inside of the door.

*Not available on all styles.

ADJUSTABLE FEET

DECORATIVE FIRE GLASS INCLUDED

PROTECTIVE COVER INCLUDED

HIDDEN CONTROL PANEL

Image: The hide-away table insert can be conveniently stored on hooks inside the fire pit's access door.

Prevent table from wobbling on any surface

Heat-resistant, durable and adds style to your fire pit

Keeps fire pit safe from the elements, water-resistant

Control two heat sources independently with one propane tank

PATENTED UV PRINTED TECHNOLOGY

Endless Summer fire pits feature decorative mantels with inspired designs that are trend driven and come in a variety of shapes and sizes.

Image: The patented UV printed technology ensures a durable and decorative mantel with a realistic wood-look finish.

TROUBLESHOOTING

- **Burner does not light:** Check if the propane tank valve is fully open. Ensure the igniter battery is

functional. Verify that the gas supply is not empty.

- **Low flame:** Check propane tank level. Ensure gas lines are not kinked or obstructed.
- **Unusual odors:** Immediately turn off the gas supply and inspect for leaks using a soapy water solution on connections. Do not use the fire pit if a leak is detected.

SPECIFICATIONS

Attribute	Detail
Model Number	GAD19110ES
