Blue Ocean 911727

Blue Ocean LEGO Star Wars Rey's Speeder 911727 Instruction Manual

1. Introduction

This manual provides detailed instructions for the assembly, care, and maintenance of your Blue Ocean LEGO Star Wars Rey's Speeder 911727 building set. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

This set is a collectible item featuring Rey's Speeder from the Star Wars universe, consisting of 35 pieces. It is designed for enthusiasts and collectors aged 6 years and older.

2. Safety Information

- **Small Parts Warning:** This product contains small parts and is not suitable for children under 3 years of age due to choking hazards.
- **Recommended Age:** This set is recommended for ages 6 and up. Adult supervision is advised for younger builders.
- **Handling:** Handle pieces with care to avoid damage or loss.

3. Product Overview

The Blue Ocean LEGO Star Wars Rey's Speeder 911727 set allows you to construct a miniature replica of Rey's iconic Speeder. The set includes 35 individual building pieces, primarily made of metal, designed for precise interlocking assembly.

The completed model is intended for display and collection. No batteries are required for operation.

4. Setup and Assembly

Follow these steps to assemble your Rey's Speeder model. Ensure you have a clean, flat surface to work on and keep all pieces organized.

1. **Unpack Components:** Carefully open the foil packaging and remove all 35 building pieces. Verify that all pieces are present by comparing them to the included parts list (if available, otherwise visually inspect).
2. **Identify Base Structure:** Locate the largest base plate or frame piece. This will serve as the foundation for your Speeder.
3. **Build the Chassis:** Attach the initial structural elements to the base plate, forming the main body of the Speeder. Pay attention to the orientation of each piece.
4. **Add Engine Details:** Connect the engine components to the rear section of the chassis. Ensure they are securely fastened.
5. **Construct Cockpit/Seating:** Assemble the cockpit area, including any seating or control elements.
6. **Attach Exterior Panels:** Place the decorative exterior panels and smaller detail pieces onto the main structure. These pieces often define the aesthetic of the Speeder.
7. **Install Repulsorlift Fins/Skirts:** Attach the lower fins or skirts that give the Speeder its distinctive hovering appearance.
8. **Final Touches:** Add any remaining small accessories or decorative elements to complete the model.

Image 2: An illustrative diagram demonstrating the initial steps of assembling the Speeder's chassis.

Ensure all connections are firm. If a piece does not fit easily, do not force it; re-check the instructions for correct placement.

5. Operating (Display and Handling)

This Rey's Speeder model is a static display item and does not have functional moving parts or electronic components. Its "operation" involves proper display and handling.

- **Display:** Place the assembled model on a stable, flat surface away from direct sunlight, excessive heat, or humidity to prevent material degradation.
- **Handling:** When moving the model, grasp it firmly by its main body to avoid detaching smaller pieces. Avoid dropping or applying excessive force.
- **Not a Toy:** While a building set, this item is primarily a collectible. Frequent rough play is not recommended as it may lead to damage or disassembly.

6. Maintenance

Regular cleaning will help maintain the appearance of your Rey's Speeder model.

- **Dusting:** Use a soft, dry cloth or a soft-bristled brush to gently remove dust from the model.
- **Cleaning:** For more stubborn dirt, lightly dampen a cloth with water (no harsh chemicals) and gently wipe the affected areas. Ensure the model is completely dry before returning it to display.
- **Avoid Liquids:** Do not immerse the model in water or use abrasive cleaners, as this may damage the material or finish.

7. Troubleshooting

Here are solutions to common issues you might encounter during or after assembly:

- **Missing Piece:** If you discover a piece is missing upon unpacking, carefully re-check the packaging and your work area. If still missing, contact the retailer or manufacturer for assistance.
- **Pieces Don't Fit:** Ensure you are using the correct pieces for the current step and that they are oriented correctly. Refer back to the assembly instructions. Do not force pieces together.
- **Model is Unstable:** Double-check all connections to ensure pieces are firmly pressed together. A loose connection can cause instability.
- **Damaged Piece:** If a piece is damaged during assembly, contact the retailer or manufacturer for possible replacement options.

8. Specifications

Feature	Detail
Product Name	Rey's Speeder Set
Model Number	911727
Brand	Blue Ocean
Number of Pieces	35
Material	Metal
Recommended Age	6 years and up
Educational Value	Spatial Perception
Package Dimensions	23 x 16 x 2 cm
Package Weight	30 grams
Batteries Required	No
