Baby Brezza BRZ0108

Baby Brezza Instant Baby Bottle Warmer Advanced

Instruction Manual for Model BRZ0108

1. INTRODUCTION

This manual provides essential information for the safe and effective operation, maintenance, and care of your Baby Brezza Instant Baby Bottle Warmer Advanced. Please read all instructions thoroughly before initial use and retain this manual for future reference.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of injury or electric shock, always follow basic safety precautions when using electrical appliances. This appliance is intended for household use only.

- **Electrical Safety:** Ensure the voltage matches your power supply. Do not immerse the unit in water or other liquids. Unplug when not in use and before cleaning.
- **Child Safety:** Keep out of reach of children. This appliance is not a toy.
- **Water Quality:** Use only distilled water to prevent mineral buildup and ensure optimal performance.
- **Placement:** Place the warmer on a stable, level surface away from hot gas or electric burners, or heated ovens.
- **Damage:** Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- **Care Instructions:** Hand-wash only. Do not immerse in water or other liquid.

3. PRODUCT OVERVIEW

The Baby Brezza Instant Baby Bottle Warmer Advanced provides instant warm water for formula preparation. It features a large capacity water tank, three temperature settings, and a built-in nightlight for convenience.

Image: The Baby Brezza Instant Baby Bottle Warmer Advanced, showcasing its sleek design and water tank.

This warmer is designed to be compatible with all bottle shapes and sizes, offering versatility for various feeding needs.

Works with **all** bottle shapes and sizes

4. SETUP

- 1. Unpack:** Carefully remove all components from the packaging.
- 2. Clean:** Before first use, wash the water tank and lid with warm soapy water, then rinse thoroughly. Wipe the base unit with a damp cloth. Ensure all parts are dry before assembly.
- 3. Assemble:** Place the water tank onto the base unit.
- 4. Fill Water Tank:** Open the lid and fill the water tank with distilled water up to the 'MAX' line. Do not overfill.

Airtight tank holds 50oz/1.5L of water

Leakproof tank continuously keeps water warm

Image: A hand pouring water into the warmer's tank, illustrating the filling process.

5. **Plug In:** Connect the power cord to an electrical outlet. The unit will begin heating the water to the selected temperature.

5. OPERATING INSTRUCTIONS

The Instant Warmer Advanced is designed for continuous warm water availability, 24/7.

5.1 Dispensing Warm Water

1. Place a clean baby bottle under the dispenser spout.
2. Press the dispensing lever to release warm water into the bottle. Release the lever to stop the flow.

**Dispenses warm
water on demand
24/7 - always on**

Image: A hand pressing the lever to dispense warm water into a baby bottle.

3. Add formula powder to the warm water, mix thoroughly, and feed immediately.

5.2 Temperature Settings

The warmer offers three temperature options to suit your baby's preference:

- **Room Temperature (72°F)**: Indicated by a blue light.
- **Body Temperature (99°F)**: Indicated by a yellow light.
- **Warmer than Body Temperature (102°F)**: Indicated by a red light.

To change the temperature, press the temperature button on the unit until the desired indicator light illuminates.

Customize with 3 Temperatures

Room Temp (72°F)

Body Temp (99°F)

Warmer than Body Temp (102°F)

Image: Close-up of the warmer's control panel showing the three temperature settings and their corresponding indicator lights.

5.3 Nightlight Feature

The unit includes a built-in LED nightlight, ideal for nighttime feedings. To activate or deactivate the nightlight, press the nightlight button on the unit.

Built in nightlight with on/off switch

Image: The warmer with its nightlight illuminated, providing soft light for nighttime use.

6. CLEANING AND MAINTENANCE

Regular cleaning and maintenance are crucial for the longevity and hygienic operation of your warmer.

6.1 Daily Cleaning

- Unplug the unit before cleaning.
- Empty any remaining water from the tank.
- Wash the water tank and lid with warm soapy water. Rinse thoroughly and dry.
- Wipe the exterior of the base unit with a damp cloth. Do not use abrasive cleaners or immerse the base in water.

6.2 Descaling (Monthly or as needed)

Mineral deposits can accumulate over time, especially if non-distilled water is used. Descaling helps maintain performance.

1. Unplug the unit and empty the water tank.

2. Fill the water tank with a mixture of 2 oz (60ml) white vinegar and 4 oz (120ml) distilled water.
3. Plug in the unit and allow the mixture to heat for 30 minutes. Do not dispense.
4. Unplug the unit, empty the tank, and rinse thoroughly with distilled water several times until the vinegar smell is gone.
5. Refill with fresh distilled water before next use.

7. TROUBLESHOOTING

If you encounter issues with your Instant Warmer Advanced, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Water is not heating.	Unit not plugged in; power outage; mineral buildup.	Ensure unit is plugged in. Check power supply. Perform descaling procedure.
Water dispensing slowly or inconsistently.	Mineral buildup in dispensing mechanism.	Perform descaling procedure. Ensure water tank is adequately filled.
Unit is leaking.	Water tank not seated correctly; dispensing lever not fully closed.	Ensure water tank is properly aligned and seated. Verify dispensing lever is fully released after use.
Nightlight not working.	Nightlight feature is turned off.	Press the nightlight button to turn it on.

If the problem persists after attempting these solutions, please contact Baby Brezza customer support.

8. SPECIFICATIONS

Feature	Detail
Model Number	BRZ0108
UPC	886267008795
Item Weight	1.8 Pounds
Capacity	1.5 Liters (50 oz)
Voltage	120 Volts
Upper Temperature Rating	104 Degrees Fahrenheit
Product Dimensions	1" L x 1" W x 1" H (Approximate, refer to diagram for detailed measurements)
Material Composition	95% Plastic, 3% Stainless Steel, 2% Silicone
Power Source	Corded Electric

Product Dimensions
