

Tefcold FS1202S

Tefcold FS1202S Glass Door Refrigerator Instruction Manual

Model: FS1202S (Part Number: 15949)

INTRODUCTION

This instruction manual provides essential information for the safe and efficient operation, installation, and maintenance of your Tefcold FS1202S Glass Door Refrigerator. Please read this manual thoroughly before operating the appliance and keep it for future reference.

SAFETY INFORMATION

Always observe the following safety precautions to reduce the risk of fire, electric shock, injury, or damage when using this appliance.

- **Electrical Safety:** Ensure the power supply matches the specifications on the rating label. Do not use extension cords or adapters. Always unplug the refrigerator before cleaning or maintenance.
- **Refrigerant:** This appliance uses R290 refrigerant. Servicing should only be performed by qualified personnel. Do not damage the refrigerant circuit.
- **Placement:** Place the unit on a stable, level surface. Ensure adequate ventilation around the unit. Do not block ventilation openings.
- **Cleaning:** Use only mild, non-abrasive cleaning agents. Do not spray water directly onto the appliance.
- **Children:** Keep children away from the appliance, especially during operation and maintenance.
- **Disposal:** Dispose of the appliance in accordance with local regulations for refrigerants and flammable insulation blowing gas.

PRODUCT OVERVIEW

The Tefcold FS1202S is a commercial glass door refrigerator designed for displaying and storing beverages and food items. It features LED lighting, adjustable shelves, and a robust construction.

Main Components

Figure 1: Front view of the Tefcold FS1202S Glass Door Refrigerator, showing its two sliding glass doors and overall design.

Figure 2: Close-up view of the interior, highlighting the adjustable white shelves and internal structure.

Figure 3: Detail of the electronic control panel and digital temperature display located at the bottom front of the unit.

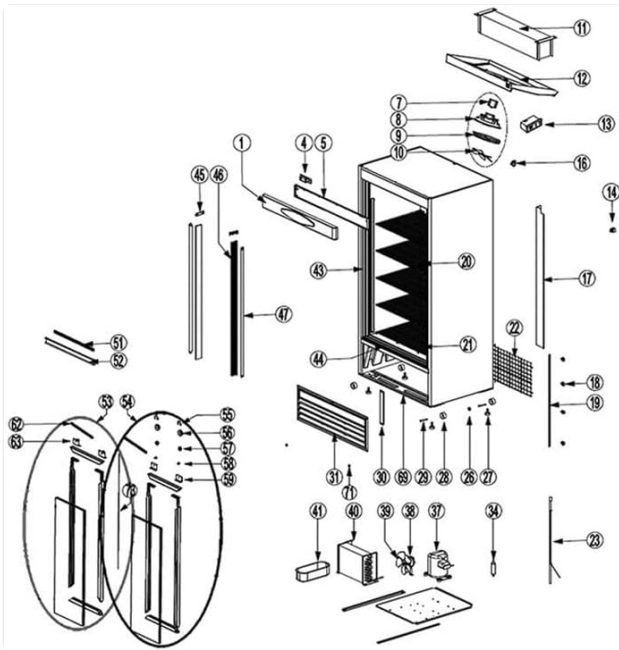

Figure 4: Exploded view diagram illustrating various internal and external components of the refrigerator for service and identification purposes.

SETUP AND INSTALLATION

Unpacking

1. Carefully remove all packaging materials, including tape and protective films.
2. Inspect the refrigerator for any shipping damage. Report any damage to your supplier immediately.

3. Retain packaging materials for future transport or if the unit needs to be returned.

Placement

- Place the unit on a firm, level floor capable of supporting its weight when fully loaded.
- Ensure adequate clearance around the unit for proper ventilation (minimum 10 cm on sides and rear, 30 cm above).
- Avoid direct sunlight, heat sources (radiators, ovens), or areas with high humidity.
- Use the adjustable feet to level the appliance. The unit also has 4 castors for easy movement before final placement.

Initial Cleaning

Before first use, clean the interior and exterior surfaces with a mild detergent and warm water. Wipe dry thoroughly.

Power Connection

After placement and leveling, wait at least 2-4 hours before plugging the unit into a grounded electrical outlet. This allows the refrigerant to settle. Connect to a dedicated circuit if possible.

OPERATING INSTRUCTIONS

Temperature Control

The refrigerator is equipped with an electronic temperature control system and a digital thermometer. The recommended temperature range for this unit is 2 to 10 °C.

- To adjust the temperature, refer to the specific instructions for the electronic controller model (usually involving pressing 'SET' and using arrow keys).
- The digital display shows the current internal temperature.

Loading the Refrigerator

- Distribute items evenly on the shelves to ensure proper air circulation.
- Do not overload shelves beyond their weight capacity.
- Avoid blocking the internal air vents.

Sliding Glass Doors

The unit features two self-closing sliding glass doors for easy access and energy efficiency. Ensure doors close completely after each use to maintain internal temperature.

- The doors are equipped with safety glazing.
- A lock is provided for securing the contents.

MAINTENANCE

Cleaning

1. **Daily:** Wipe down the exterior and interior surfaces with a damp cloth and mild detergent.
2. **Weekly/Bi-weekly:** Clean the shelves and interior thoroughly. Ensure no food debris accumulates.
3. **Condenser Cleaning:** The condenser coil (located at the bottom rear) should be cleaned regularly (e.g., monthly or quarterly) to ensure efficient operation. Use a soft brush or vacuum cleaner. *Always unplug the unit before cleaning*

the condenser.

Defrosting

This refrigerator features an automatic defrosting system. Ice buildup on the evaporator coil will be periodically melted and drained. Ensure the drain hole is clear to prevent water accumulation.

TROUBLESHOOTING

Before contacting service, check the following common issues:

Problem	Possible Cause	Solution
Refrigerator not cooling	Power cord unplugged; circuit breaker tripped; temperature setting too high; condenser dirty; doors not closing properly.	Check power connection; reset breaker; adjust temperature; clean condenser; ensure doors are sealed.
Excessive noise	Unit not level; fan obstruction; loose components.	Level the unit; check for obstructions around fans; contact service if noise persists.
Water on floor inside/outside	Drain hole blocked; drain pan overflowing; high humidity.	Clear drain hole; empty/check drain pan; ensure doors are closed.
Digital display not working	Power issue; controller malfunction.	Check power; contact qualified service technician.

SPECIFICATIONS

Detailed technical specifications for the Tefcold FS1202S Glass Door Refrigerator:

Feature	Specification
Model Number	15949 (FS1202S)
Temperature Range	2 to 10 °C
Climate Class	4
Gross / Net Weight	189 kg / 174 kg
Gross / Net Volume	895 L / 660 L
Shelf Dimensions	1072 x 470 mm
Number and Type of Doors	2 sliding glass doors with auto-close
Safety Glazing	Yes
Number and Type of Shelves	5 white wire shelves
Feet / Castors	4 adjustable feet / 4 castors
Exterior Finish	White
Interior Finish	White painted steel

Feature	Specification
Interior Lighting	LED
Lock	Yes
Regulation Type	Electronic
Cooling Type	Ventilated (Forced Air)
Defrost Type	Automatic
Refrigerant	R290
Gas Charge	120 g
Energy Class	F
Energy Consumption	6.8 kWh/24h
Annual Energy Consumption	2482 kWh/year
Power Consumption	450 W
Voltage / Frequency	220-240V / 50 Hz
Noise Level	48 dB(A)
Thermometer	Yes
Interior Dimensions (WxDxH)	1090 x 573 x 1533 mm
Exterior Dimensions (WxDxH)	1200 x 735 x 1990 mm
Packed Dimensions (WxDxH)	1250 x 800 x 2160 mm

Figure 5: Energy efficiency label indicating Class F for the Tefcold FS1202S.

WARRANTY AND SUPPORT

For warranty information, please refer to the terms and conditions provided at the time of purchase or contact your retailer. For technical support or spare parts, please contact Tefcold customer service or an authorized service center. Always provide the model number (FS1202S) and serial number (if applicable) when seeking assistance.

Note: Information regarding spare parts availability was not provided in the product details.

	Tefcold Refrigeration Cabinets User Manual and Instructions Comprehensive user manual and instructions for Tefcold refrigeration cabinets, covering installation, operation, maintenance, and safety for commercial beverage storage.
