TEEHO TE001

TEEHO TE001 Keyless Entry Door Lock Instruction Manual

Model: TE001 | Brand: TEEHO

INTRODUCTION

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your TEEHO TE001 Keyless Entry Door Lock. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your lock.

SETUP AND INSTALLATION

The TEEHO TE001 Keyless Entry Door Lock is designed for easy installation, typically requiring only a screwdriver. Follow the steps below for a successful setup.

Door Compatibility

- **Door Hole Diameter:** Only suitable for 2-1/8" (54mm) door holes. Not compatible with 38mm door holes.
- **Door Thickness:** Compatible with doors ranging from 1-3/8" to 2" (35mm to 50mm) thick.
- **Backset:** Supports 2-3/8" or 2-3/4" (60mm or 70mm) backsets.

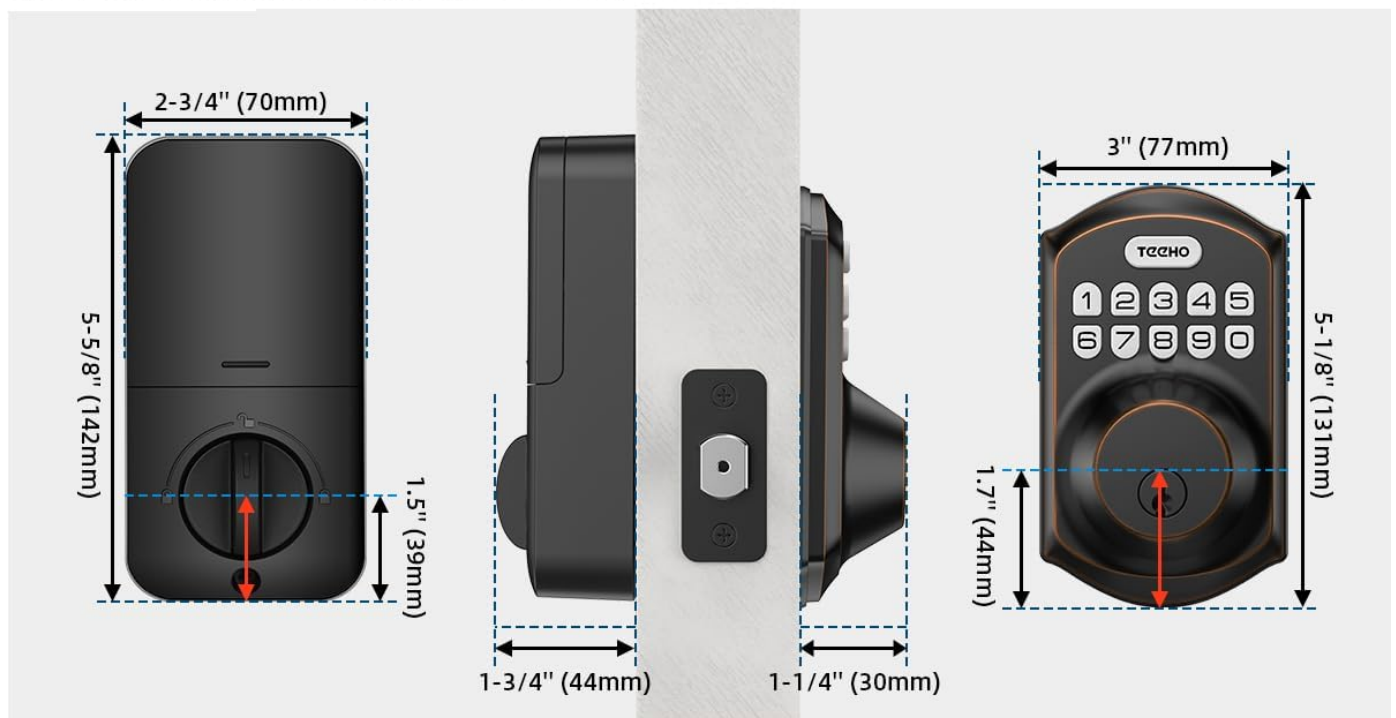

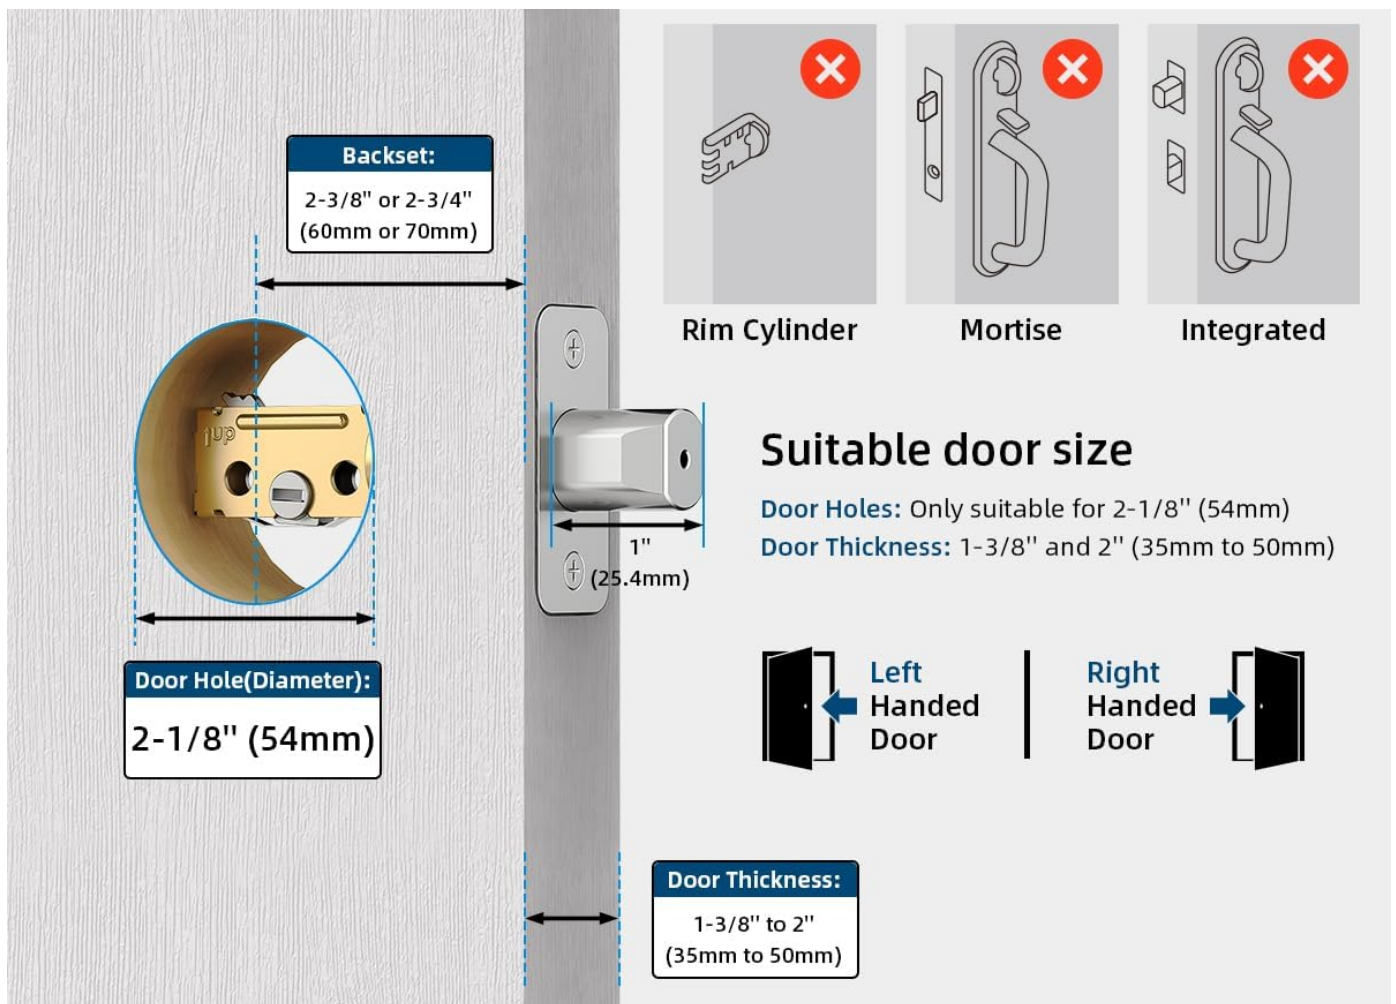

Diagram illustrating suitable door dimensions and lock types.

Installation Steps

1. Ensure your door meets the compatibility requirements.
2. Install the latch into the door edge.
3. Mount the exterior keypad assembly, ensuring the cable passes through the door hole.
4. Install the interior mounting plate.

5. Connect the cable from the exterior assembly to the interior assembly.
6. Secure the interior assembly to the mounting plate.
7. Insert 4 AA alkaline batteries (not included) into the battery compartment.
8. Perform the door handing process as per the detailed programming instructions to calibrate the lock.

For a visual guide, please refer to the official programming video below or the detailed Installation Manual (PDF) provided with your product.

OPERATING INSTRUCTIONS

The TEEHO TE001 offers multiple convenient and secure ways to operate your door lock.

User Codes

The lock supports up to 20 individual user codes for family members or regular access. Each user can customize their own unlock method.

Up to 20 PIN Codes

Up to 20 different PIN Codes allow different family members to customize their own unlock method.

The lock supports up to 20 unique PIN codes for various users.

One-Time PIN Code

For temporary access, a one-time PIN code can be generated. This code will automatically be deleted after a single use, providing secure, limited access for guests or service personnel.

One-Time PIN Code

The Entry Code is '**135192**'

Okay, I'm in.
Thanks

A one-time PIN code can be provided for single-use entry.

Automatic Locking and One-Touch Locking

- **Automatic Lock:** The lock can be set to automatically lock within 10-99 seconds after the door is closed.
- **One-Touch Auto-Lock:** To quickly lock the door from the outside, simply press and hold any key on the keypad for 2 seconds.

Auto lock & one-touch locking

Auto

Press and hold any key for 2 seconds to lock. Automatically locked 10-99 seconds after closing the door.

The lock features automatic locking and one-touch locking for convenience.

Anti-Peeping Password

To enhance security and prevent others from guessing your code, you can enter random digits before or after your actual PIN code. The lock will still recognize the correct sequence within the longer string of numbers.

Anti Peeping PIN Code

Enter Random Digits to Avoid Snooping

135 +
Random Digits

1259
PIN Code

+ 246
Random Digits

Utilize the anti-peeping feature by entering random digits before or after your actual code.

Mute Mode

The lock features a mute mode for silent operation, which can be useful during quiet hours or to avoid disturbing others.

Programming Video

Watch this official video for detailed instructions on programming your TE001 Keypad Door Lock.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your TEEHO TE001 lock.

Battery Replacement

- The lock features a low battery indicator to alert you when batteries need replacement.
- Requires 4 AA alkaline batteries (not included). Replace all four batteries simultaneously for best performance.
- Expected battery life is up to 1 year, depending on usage.

Cleaning

Clean the keypad and exterior surface with a soft, damp cloth. Avoid using abrasive cleaners or solvents, as these can damage the finish and electronic components.

Weather Resistance

The lock has an IP54 weather resistance rating, providing protection against dust and splashing water. While durable, avoid direct exposure to heavy rain or prolonged submersion.

TROUBLESHOOTING

If you encounter issues with your TEEHO TE001 lock, consider the following common solutions:

- **Lock Not Responding:** Check the batteries. If the low battery indicator is on or the lock is unresponsive, replace all 4 AA batteries.
- **Code Not Working:** Ensure you are entering the correct master code or user code. Try re-programming the code following the instructions in the Operating section or the programming video.
- **Auto-Lock Malfunction:** Verify that the door is properly aligned and closes completely. Obstructions or misalignment can prevent the deadbolt from extending fully.
- **Keypad Unresponsive:** Ensure the keypad is clean and free from debris. If issues persist, a factory reset may be necessary (refer to the full user guide for instructions).

For more complex issues, please contact TEEHO customer service.
