2. SAFETY INSTRUCTIONS

- Always unplug the fan before cleaning or when not in use.

- Do not use the fan near water or in excessively humid environments.

- Ensure the fan is placed on a stable, flat surface to prevent tipping.

- Keep fingers, hair, and loose clothing away from the fan blades during operation.

- Avoid using high amperage fast chargers as a power source, as this may damage the motor. Use a standard USB power source.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or

instruction concerning use of the appliance by a person responsible for their safety.

3. Package Contents

Verify that all items are present in the package:

- 1 x SWEETFULL USB Desk Fan

5. OPERATING INSTRUCTIONS

The SWEETFULL USB Desk Fan is designed for simple and intuitive operation:

1. **Power On/Off:** Locate the push button on the back of the fan. Press it once to turn the fan on to the lowest speed setting.

2. **Adjusting Fan Speed:** Continue pressing the power button to cycle through the three available speed settings (Low, Medium, High). Pressing the button a fourth time will turn the fan off.

6. MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your fan:

- **Cleaning the Grille and Blades:** The front cover of the fan can be easily removed by turning it counter-clockwise. This allows for convenient cleaning of the grille and fan blades. Use a soft, dry cloth to wipe

away dust. For stubborn dirt, a slightly damp cloth can be used, ensuring the fan is completely dry before reassembly and use.

- **Storage:** When not in use for extended periods, store the fan in a cool, dry place, away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not turn on.	No power supply or loose USB connection.	Ensure the USB cable is securely plugged into both the fan and a working USB power source. Try a different USB port or adapter.
Weak airflow.	Fan speed set too low or dirty blades/grille.	Increase the fan speed by pressing the power button. Clean the fan blades and grille as described in the Maintenance section.
Unusual noise during operation.	Obstruction in the fan or loose components.	Unplug the fan and check for any foreign objects or debris obstructing the blades. Ensure the front grille is securely attached.
Fan motor burns out.	Using a high amperage fast charger.	Always use a standard USB power source with low amperage. Avoid fast chargers designed for phones or tablets.
