Key Features:

- **Curved Sliding Shower Enclosure:** Features a curved design with a reversible sliding door, allowing for left or right-handed installation, ideal for smaller spaces.
- **Complete Kit:** Includes an acrylic shower base (fiberglass reinforced), a 38-inch corner glass shower door, and all necessary hardware.
- **Certified Safety Glass:** Equipped with 6mm (1/4 inch) clear tempered glass that is CSA Certified for safety and durability.
- **Versatile Sizing:** Available in various sizes (32, 34, 36, and 38 inches) with hardware options including Satin Nickel, Black, or Chrome.

Setup and Installation

Installation of the OVE Decors Breeze shower kit requires careful attention to detail. It is recommended that installation be performed by professional contractors or experienced DIYers. Always verify compliance with local building and plumbing codes before beginning installation.

Shower Kit Includes

Shower Door

Shower Base

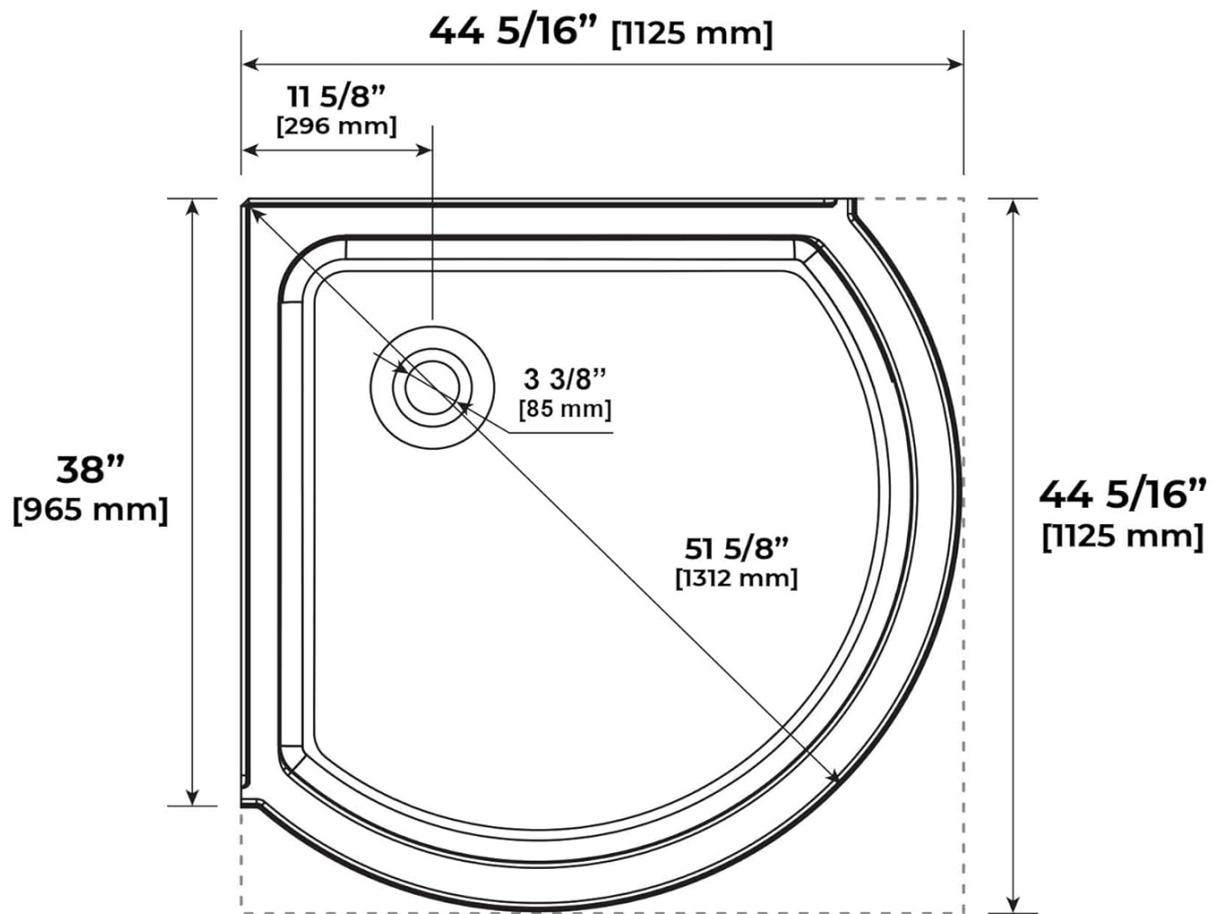

* Shower hardware included with kit

Pre-Installation Measurements:

Accurate measurements are crucial for a successful installation. Refer to the detailed measurement diagrams provided in the user guide.

38" Shower Base

Minimum Floor Space: 44 5/16" x 44 5/16"

Please note: Measurements were taken after the shower enclosure was fully installed. OVE Decors reserves the right to update or modify the picture without prior notice for the purpose of product improvement, updated dimensions, and customer satisfaction.

Installation Resources:

For detailed step-by-step instructions, please refer to the official Installation Manual (PDF) and User Guide (PDF) available for download. These documents provide comprehensive guidance for assembly and setup.

Additionally, the following video provides guidance on measuring for a corner shower:

Video: "Corner Shower Measurements" - This video demonstrates how to accurately measure your space for a round corner shower glass door with a base, ensuring proper fit and installation.

Operating Instructions

The OVE Decors Breeze shower door features a smooth gliding system for effortless entry and exit.

Reversible Door Installation

Choose the direction you want your shower doors to open.

Left Wall Installation

Right Wall Installation

Image: The comfortable walk-through opening of the shower door, measuring 26 1/8 inches (664 mm).

Smooth Glide System:

The premium roller system ensures smooth opening and closing of the door. Dual rollers provide stability and durability for consistent performance.

Smooth Glide System

Premium roller system ensures smooth door opening, shutting and a secure close.

Image: A close-up view of the premium roller system, highlighting the smooth gliding mechanism of the shower door.

Secure Closure:

A magnetic strip integrated into the door ensures a secure and watertight close, preventing leaks and keeping your bathroom floor dry.

Slip Resistant Surface

**Made of 100%
Fade-Resistant Acrylic**

Modern Corner Drain

**Fibreglass-
Reinforced Layer**

Maintenance

Regular cleaning and maintenance will ensure the longevity and pristine appearance of your OVE Decors Breeze shower kit.

Cleaning the Glass Doors:

The tempered glass doors are designed to be easy to clean. Use a soft cloth and a non-abrasive glass cleaner. For best results, wipe down the glass after each use to prevent water spots and soap scum buildup.

Maintaining Hardware Finish:

The metal components feature Metal Protective Technology to help maintain their shine and resist tarnishing. Clean hardware with a soft, damp cloth and mild soap. Avoid abrasive cleaners or scouring pads that can damage the finish.

Magnetic strip for secure close.

No more leaks,
No more wet floor.

Image: A close-up of the shower door handle, illustrating the Metal Protective Technology that helps keep the hardware shiny and spotless.

Shower Base Care:

The acrylic shower base is fade-resistant and features a slip-resistant surface. Clean the base with mild, non-abrasive bathroom cleaners. Ensure the modern corner drain is kept clear of debris to prevent blockages.

Metal Protective Technology

Our metal protective coating keep your hardware shiny and spotless.

Troubleshooting

If you encounter any issues with your OVE Decors Breeze shower kit, please refer to the following common troubleshooting tips:

- **Door Not Sliding Smoothly:** Check the rollers for any debris or hair accumulation. Clean the tracks thoroughly. Ensure the rollers are properly aligned and lubricated if necessary with a silicone-based lubricant.
- **Water Leaks from Door:** Verify that the magnetic strip is making full contact along the entire length of the door when closed. Inspect all seals and gaskets for damage or improper installation. Ensure the shower base is properly leveled and sealed to the surrounding walls.
- **Drainage Issues:** Check the corner drain for any blockages from hair or soap residue. Remove the drain cover and clear any obstructions. Ensure the shower base is correctly sloped towards the drain.
- **Glass Appears Cloudy/Streaky:** This is often due to hard water deposits. Use a specialized hard water stain remover or a mixture of white vinegar and water. Always rinse thoroughly after cleaning.

If problems persist, please contact OVE Decors customer support for further assistance.
