1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Belife BVC11A-Battery replacement battery, designed for the Belife BVC11 Cordless Vacuum Cleaner. Please read this manual thoroughly before installation and operation to ensure optimal performance and longevity of the battery.

2. IMPORTANT SAFETY INFORMATION

Always observe the following safety precautions when handling and using the battery:

- Do not disassemble, open, or shred the battery pack.
- Do not expose the battery to heat or fire. Avoid storage in direct sunlight.
- Do not short-circuit a battery pack. Do not store battery packs haphazardly in a box or drawer where they may short-circuit each other or be short-circuited by conductive materials.
- Do not subject battery packs to mechanical shock.
- In the event of a battery leaking, do not allow the liquid to come into contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.
- Keep battery packs out of the reach of children.
- Seek medical advice immediately if a cell or battery has been swallowed.
- Keep battery packs clean and dry.
- Only use the battery pack in the application for which it was intended.
- Only charge the battery pack with the specified charger for the Belife BVC11 Cordless Vacuum Cleaner.
- Observe plus (+) and minus (-) marks on the battery and equipment and ensure correct use.
- Dispose of the battery pack properly at the end of its life. Do not dispose of in household waste.

3. PRODUCT OVERVIEW

The Belife BVC11A-Battery is a detachable, rechargeable lithium-ion battery designed as a direct replacement for the Belife BVC11 Cordless Vacuum Cleaner. It provides reliable power to maintain the performance of your vacuum cleaner.

4. INSTALLATION

To install the Belife BVC11A-Battery into your Belife BVC11 Cordless Vacuum Cleaner, follow these steps:

1. Ensure the vacuum cleaner is turned off and unplugged from any charging source.

2. Locate the battery compartment on your Belife BVC11 vacuum cleaner. This is typically on the main body of the vacuum.
3. If replacing an old battery, press the battery release button (if present) and slide the old battery out.
4. Align the new Belife BVC11A-Battery with the battery slot. Ensure the connectors are properly oriented.
5. Slide the battery firmly into the compartment until it clicks into place, indicating it is securely locked.
6. Verify the battery is securely attached by gently pulling on it.

5. OPERATION (CHARGING)

To charge your Belife BVC11A-Battery:

1. Connect the original Belife BVC11 vacuum cleaner charger to a power outlet.
2. Plug the charger into the charging port on the vacuum cleaner (with the battery installed) or directly into the battery if it supports external charging.
3. The charging indicator lights on the vacuum or battery will illuminate, typically showing a red light during charging and turning green or off when fully charged. Refer to your Belife BVC11 vacuum cleaner manual for specific indicator behaviors.
4. A full charge typically takes several hours. Avoid overcharging by disconnecting the charger once the battery is full.

Note: For optimal battery life, it is recommended to fully charge the battery before its first use.

6. MAINTENANCE AND STORAGE

Proper maintenance ensures the longevity and performance of your battery:

- **Cleaning:** Periodically wipe the battery and its contacts with a dry, clean cloth to remove dust or debris. Do not use liquids.
- **Storage:** If storing the battery for an extended period, charge it to approximately 50-60% capacity. Store it in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Temperature:** Avoid operating or charging the battery in extreme hot or cold conditions, as this can affect performance and lifespan.
- **Disposal:** When the battery reaches the end of its useful life, dispose of it responsibly at a certified recycling facility. Do not incinerate or dispose of with general household waste.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Battery not charging	Charger not connected properly; faulty charger/outlet; battery contacts dirty; battery fault.	Ensure charger is securely plugged in. Try a different outlet. Clean battery contacts. If problem persists, contact customer support.
Short run time after full charge	Battery degradation; vacuum cleaner issue.	Battery lifespan naturally decreases over time. If the battery is new, ensure it was fully charged. Check the vacuum cleaner for blockages that might increase power consumption.
Vacuum not turning on with new battery	Battery not installed correctly; battery not charged; vacuum cleaner fault.	Re-install the battery, ensuring it clicks into place. Charge the battery fully. If the issue persists, the problem may lie with the vacuum cleaner itself.

8. SPECIFICATIONS

Model: BVC11A-Battery

Compatibility: Belife BVC11 Cordless Vacuum Cleaner

Battery Type: Lithium Ion

Battery Capacity: 2200 Milliamp Hours

Product Dimensions: 4.72 x 2.36 x 3.94 inches

Item Weight: 13.7 ounces

Manufacturer: Belife

9. WARRANTY AND CUSTOMER SUPPORT

For warranty information, technical assistance, or any questions regarding your Belife BVC11A-Battery, please contact Belife customer support. Refer to your original product purchase documentation or the Belife official website for contact details.

Belife is committed to providing reliable products and customer-focused service.
