4. MAINTENANCE

4.1 Ink Cartridge Replacement

The Epson Workforce Pro WF-4833 is designed to be used exclusively with Epson Genuine DURABrite Ultra Ink Cartridges. When an ink cartridge is low or empty, the printer's touchscreen will display a message prompting you to

replace it. Follow the on-screen instructions to open the cartridge access door, remove the old cartridge, and insert a new one until it clicks into place.

4.2 Cleaning and Care

Regularly clean the exterior of the printer with a soft, damp cloth. For optimal print quality, perform print head cleaning and nozzle checks through the printer's maintenance menu as needed. This helps prevent clogs and ensures consistent output.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

- **Paper Jams:** If a paper jam occurs, the touchscreen will display instructions to clear it. Carefully remove any jammed paper from the trays, ADF, or internal areas.
- **Print Quality Issues:** If prints appear streaky, faded, or have incorrect colors, perform a print head cleaning and nozzle check from the printer's maintenance menu. Ensure you are using genuine Epson ink cartridges.
- **Connectivity Problems:** For wireless issues, verify your Wi-Fi connection status on the touchscreen. For wired connections, check the Ethernet cable. Restarting the printer and your router can often resolve connectivity issues.
