ANGELBLISS LDG-033

ANGELBLISS 3-in-1 Baby Bassinet Instruction Manual

Model: LDG-033

1. INTRODUCTION

Thank you for choosing the ANGELBLISS 3-in-1 Baby Bassinet. This versatile product is designed to provide a safe, comfortable, and convenient sleeping solution for your newborn. It functions as a rocking bassinet, a bedside sleeper, and a portable travel bassinet, adapting to your family's needs. Please read this manual thoroughly before assembly and use to ensure proper operation and safety.

2. SAFETY INFORMATION

WARNING: SUFFOCATION HAZARD

- Always use the bassinet on a firm, flat, level surface.
- Never place additional padding or bedding under the infant.
- To prevent falls, do not use this product when the infant begins to push up on hands and knees or has reached 20 lbs (9 kg), whichever comes first.
- Keep small parts away from children during assembly.
- Ensure all components are securely fastened before each use.
- Do not modify the product or use accessories not approved by ANGELBLISS.

This image emphasizes the product's safety and professional design, showcasing certifications like MFM Awards, ASTM Certification, and being BPA-Free. It includes a magnified view of a safety test document, reinforcing product reliability.

3. PARTS LIST

Before assembly, ensure all parts are present and undamaged:

- Bassinet Frame (with attached fabric)
- Mattress Pad
- Leg Tubes (4 pieces)
- Carry Bag

4. SETUP

Follow these steps for quick and easy assembly:

1. **Unfold the Bassinet:** Pull up the tubes of the bassinet with both hands at the same time until the frame locks into place.
2. **Attach Leg Tubes:** Insert each of the four leg tubes into the designated holes on the base plastic of the bassinet. Ensure they click securely into place.
3. **Secure Joints:** Buckle up the buttons next to the circular joint on each side to ensure stability.
4. **Insert Mattress:** Place the mattress pad firmly into the bassinet. Ensure it lies flat and fits snugly.

A four-panel visual guide detailing the easy assembly steps: 1. Pull up the tubes of the bassinet with both hands. 2. Insert foot tubes into the base. 3. Buckle up buttons next to the circular joint. 4. The bassinet assembly is complete.

This official product video provides a comprehensive demonstration of the ANGELBLISS 3-in-1 Baby Bassinet. It covers the quick and easy assembly process, highlights key features such as the patented rocking motion and adjustable inclination, and showcases its convenient portability for travel. The video also illustrates how the bassinet converts between its various modes: a rocking bassinet, bedside sleeper, and portable travel bassinet.

5. OPERATING INSTRUCTIONS

5.1. 3-in-1 Functionality

The ANGELBLISS bassinet offers three modes for your convenience:

- **Independent Bassinet:** Use as a standalone bassinet in any room.
- **Bedside Sleeper:** Position next to your bed for easy access to your baby during the night.
- **Rocking Bassinet:** Engage the rocking feature for gentle soothing.

3-IN-1 ROCKING BASSINET

Cradle, Baby Crib, Travel Cot

Rocking mode

This image demonstrates the bassinet's versatility as a 3-in-1 product: a cradle, baby crib, and travel cot. It shows the bassinet in a bedside sleeper configuration next to a bed where a couple is sleeping, indicating its suitability for newborns up to 6 months or 19 lbs.

5.2. Patented Rocking Feature

The bassinet features a patented rocking mechanism that provides a gentle, horizontal sway while keeping the mattress stable. This rhythmic motion can help soothe your baby to sleep without causing the mattress to tilt.

PATENTED ROCKING

Horizontal Sway

This image illustrates the patented horizontal rocking feature of the bassinet, designed to keep the mattress stable while gently swaying the baby. A woman is seated on a bed next to the bassinet, which contains a baby.

5.3. Adjustable Inclination Angle

The mattress can be gently inclined between 3 to 7 degrees. This feature is particularly useful for babies who may experience burping or have upper respiratory tract infections, as it can aid in easier breathing and help prevent spit-up.

ADJUSTABLE ANGLE DESIGN

Prevents Baby from Vomiting

The bassinet's adjustable inclination angle is shown, allowing the mattress to be gently lifted between 3 to 7 degrees. This feature is beneficial for babies who burp or have upper respiratory issues, helping to prevent spit-up.

5.4. Airflow and Ventilation

The bassinet is designed with mesh sides on all four sides, ensuring optimal airflow and ventilation. This breathable design provides a comfortable and safe sleeping environment for your baby.

Air Mesh on All sides

Breathable and comfortable

A close-up view of a baby inside the bassinet, emphasizing the breathable air mesh on all sides. This design ensures excellent ventilation and comfort for the baby, promoting safe sleep.

5.5. Portability and Travel

The lightweight aluminum frame and snap-on legs make the bassinet easy to assemble and disassemble. It folds compactly and fits into the included hand-carry bag, making it ideal for travel and convenient storage.

PERFECT FOR TRAVEL

HOME

CAR

PLANE

OFFICE

The bassinet is shown folded and placed inside its included hand-carry bag, being carried by a woman. This highlights its convenient portability for travel, making it suitable for use at home, in the car, on planes, or in an office setting.

PORTABLE BASSINET ROCKER

A scene showing the bassinet in use as a portable rocker, with a baby playing inside while a woman relaxes on a nearby couch. This demonstrates the bassinet's versatility for use in various rooms.

6. MAINTENANCE AND CARE

- **Cleaning Fabric:** The fabric components of the bassinet should be hand washed only. Use mild soap and cold water. Do not bleach.
- **Cleaning Frame:** Wipe the aluminum frame and plastic parts with a damp cloth and mild soap. Dry thoroughly.
- **Storage:** When not in use, store the bassinet in its carry bag in a cool, dry place, away from direct sunlight.
- **Inspection:** Regularly inspect all parts for wear, tear, or damage. Discontinue use if any part is broken or missing.

7. TROUBLESHOOTING

If you encounter any issues with your ANGELBLISS bassinet, please refer to the following common solutions:

- **Bassinet not stable:** Ensure all leg tubes are fully inserted and the circular joint buckles are securely fastened.
- **Difficulty folding/unfolding:** Check that all locking mechanisms are disengaged before attempting to fold, and fully engaged when unfolding. Refer to the setup video for visual guidance.
- **Mattress not lying flat:** Ensure the mattress is correctly positioned within the bassinet frame. If it was stored folded, allow some time for it to flatten out.

For issues not covered here, please contact ANGELBLISS customer support.
