Enabot EBO EBO Air

Enabot EBO Air Home Security Pet Camera User Manual

Model: EBO Air

Brand: Enabot EBO

Introduction

The Enabot EBO Air is an intelligent, movable home security and pet camera designed to provide real-time monitoring, two-way communication, and interactive companionship. Equipped with advanced AI features, night vision, and automatic charging capabilities, the EBO Air allows users to stay connected with their home and loved ones, including pets and babies, from anywhere via the EBO ROLA mobile application. This manual provides detailed instructions for setting up, operating, and maintaining your EBO Air to ensure optimal performance and a seamless user experience.

What's in the Box

Upon unboxing your Enabot EBO Air, please verify that all the following components are included:

- EBO Air Unit
- Charging Dock
- USB Charger
- 32GB Micro SD Card (pre-installed or included separately)
- Silicone Attachment (feathers for pet interaction)
- User Manual (this document)

Setup Guide

Follow these steps to set up your EBO Air for the first time:

1. **Charge the EBO Air:** Place the EBO Air onto its charging dock. Ensure the dock is connected to a power source using the provided USB charger. The indicator light on the EBO Air will show charging status. Allow it to fully charge before first use.
2. **Download the EBO ROLA App:** Search for "EBO ROLA" in your mobile device's app store (iOS App Store or Google Play Store) and download the application.
3. **Create an Account:** Open the EBO ROLA app and follow the on-screen instructions to create a new user account.
4. **Add Your EBO Air:**
    - Tap the "+" icon in the app to add a new device.
    - Select "EBO Air" from the device list.
    - Follow the app's instructions to connect your EBO Air to your home Wi-Fi network (supports 2.4GHz & 5GHz). You may need to scan a QR code displayed on your phone with the EBO Air's camera.
5. **Initial Configuration:** Once connected, the app will guide you through basic settings, such as naming your EBO Air and setting up initial security preferences.

Operating Instructions

The EBO Air offers a range of functionalities accessible through the EBO ROLA app:

Remote Control and Live View

Open the EBO ROLA app to access the live video feed from your EBO Air. Use the on-screen joystick or directional controls to navigate the EBO Air around your home. The 1080P camera provides clear video, and the FOV 118° wide-angle lens offers a broad viewing field.

Two-Way Talk

Utilize the built-in microphone and speaker to communicate with family members or pets remotely. Tap the microphone icon in the app to speak, and listen through the EBO Air's speaker.

Night Vision

The EBO Air is equipped with night vision capabilities, allowing for clear monitoring even in low-light or dark conditions. This feature ensures continuous home security and pet monitoring around the clock.

AI Features and Motion Detection

The EBO Air can intelligently recognize human or pets and push notifications to your phone when suspicious activities or movements are detected. It supports fixed-point security and automatic cruise functions for comprehensive home monitoring.

Automatic Charging

When the battery is low, the EBO Air is designed to automatically return to its charging dock. Ensure the charging dock is powered on and placed in an accessible area for the EBO Air to find it easily.

E-Pet Function and Interaction

Activate the E-pet function in the app to allow the EBO Air to display various interactive skills, engaging your pets. The head of the EBO Air can also accommodate various DIY accessories, such as the included silicone feathers, for enhanced play.

Multi-User Access and Privacy

The EBO ROLA app supports multi-user access, allowing you to invite family members to view and control the EBO Air. All data is stored locally on the SD card, ensuring user privacy with no cloud charges or access to personal information by the app.

Maintenance

To ensure the longevity and optimal performance of your EBO Air, regular maintenance is recommended:

- **Cleaning:** Gently wipe the exterior of the EBO Air and its charging dock with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the camera lens is clean for clear video quality.
- **Software Updates:** Periodically check the EBO ROLA app for available firmware updates. Keeping your EBO Air's software up-to-date ensures access to the latest features and performance improvements.
- **SD Card Management:** Regularly back up important recordings from the SD card to another storage device. If the SD card becomes full, you may need to delete old files or replace the card.
- **Charging Dock Placement:** Ensure the charging dock remains in a clear, unobstructed area to allow the EBO Air to return for charging without difficulty.

Troubleshooting

If you encounter issues with your EBO Air, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
EBO Air does not connect to Wi-Fi.	• Ensure your Wi-Fi network is 2.4GHz or 5GHz. • Check Wi-Fi password for accuracy. • Move EBO Air closer to the Wi-Fi router. • Restart your router and the EBO Air.
EBO Air does not return to charging dock.	• Ensure the charging dock is powered on and unobstructed. • Place the charging dock in an open area, away from obstacles. • Clean the charging contacts on both the EBO Air and the dock. • The EBO Air may struggle with significant floor transitions (e.g., thick carpet to hard floor).
Poor video quality or blurry images.	• Clean the camera lens gently with a microfiber cloth. • Ensure strong Wi-Fi signal for optimal streaming. • Adjust video resolution settings in the EBO ROLA app.
No motion detection alerts.	• Verify motion detection settings are enabled in the EBO ROLA app. • Check app notification settings on your phone. • Ensure EBO Air is positioned to cover the desired area.
EBO Air moves randomly or unexpectedly.	• Check for scheduled patrols or E-pet functions enabled in the app. • Ensure the sleep mode is properly activated if you wish for it to remain stationary.

If the problem persists, please contact Enabot customer support for further assistance.

Specifications

Feature	Detail
Model Name	EBO Air
Indoor/Outdoor Usage	Indoor
Connectivity Technology	Wireless (Wi-Fi 2.4GHz & 5GHz)
